PORCELAINE WHITE

With a design language that blends with today's modern interior, the 4-in-1 CYBEX seating system was designed to find a place at the table long after your child has outgrown the need for its support. Reduced shapes, clean lines, a single colour and high quality materials blend with smart functions to take your child from birth through childhood and beyond. Suitable from birth with the 'bouncer nest', from 6 months to 3 years as a highchair with the 'baby set' and from 3 years as a comfortable chair with an adjustable footrest for children and adults alike, the CYBEX highchair is designed to last. Transform the chair within seconds - have a toddler visiting? Just attach the removable Baby Set. Need an extra chair for a dinner party? Simply remove the Baby Set and adjust height and depth of the chair to suit your guests. The CYBEX Highchair offers variable modes that suit everyone's needs.

**FEATURES**

- **4IN1 HIGHCHAIR** - The lemo offers a sustainable choice that grows with the child for as long as you like. A bouncer nest makes it suitable from birth, adjust it to a classic highchair from 6 months and remove the attachments when your child is older for a chair designed to meet the lifestyle and functional needs of all family members.
- **GROWS WITH YOUR CHILD:** The seat of the highchair was designed with a growing child in mind. A smart one-hand adjustment feature allows stepless height adjustment and four depth positions in seconds. This ensures optimized ergonomic seating as your child grows and offers a perfect fit for people of any age afterwards.
- **TIPPING PREVENTION SYSTEM (T.P.S.):** the highchair is designed with anti-tilt wheels, which substantially decrease the risk of the highchair tipping over. Dining room? Patio? Kitchen? The highchair's wheels increase your mobility around the house – easily move it where you and your child are most comfortable.
- **ERGONOMIC DESIGN:** The rounded edges of the highchair's baby set provide comfortable seating and ensure an easy entry and exit – this makes any mealtime more enjoyable.
