

COMPACT AND LIGHT THE RECORD BREAKER WITH THE SMALLEST FOLD

Product Description

With its exceptional design innovation, the GB Pockit is the 2014 Guinness World Records most compact stroller.

When folded it is the smallest and most compact buggy currently available on the market, 300 x 180 x 350 mm to be precise. You can see why we call it the Pockit! The cleverly designed, compact fold uses the 2 x 2 D technique. This means that in only two steps the buggy becomes a compact and feather-light handbag shaped package, great for when you are on the move and practical and easy to stow away when you're not.

For parent with a passion for city travel and exploring, the Pockit is the quintessential choice. With the ability to switch from pushing to carrying within seconds, the pockit is ideal for trips by train, plane or simply visiting your favourite cafes.
