## Sensory Ball Baby Bunny

## enjoy the little things

## Description

Your baby can go on an adventure with the Baby Bunny clutch ball from Little Dutch. With its soft texture and built-in rattle, it encourages little ones to grasp and explore.

## Features

Adventure-Ready Design: Let your baby embark on exciting adventures with the Baby Bunny clutch ball from Little Dutch. Its compact size and lightweight construction make it perfect for little hands to hold onto during playtime, encouraging exploration and imaginative journeys.

Sensory Stimulation: This clutch ball is designed to stimulate your baby's senses with its soft texture and builtin rattle. As your baby grasps and explores the ball, they're not only engaging their sense of touch but also enjoying the gentle sound of the rattle, promoting auditory development and sensory exploration.

Encourages Grasping: Encourage your baby's motor skills development with the Baby Bunny clutch ball. Its easyto-grasp design encourages little ones to practice their grasping and gripping abilities, fostering fine motor skills and hand-eye coordination in a fun and interactive way.
