12.7cm High Definition Video Baby Monitor System with convenient 3.81cm Mini Monitor

Check in on baby day and night using our safe and secure encrypted connection. Included are two convenient video displays. The world's smallest 3.81cm audio and video Mini Monitor is perfect for taking with you around the house to keep a constant watch on the little one. The 12.7cm High-Definition LCD Parent Unit can be placed on your night-stand or kitchen counter to check in on baby. It features "Best-in-Class" battery life for extended use and is designed with a new, user-friendly interface for quick setup and ease-of-use. It's every mother's dream.
