

Please print this guide @100% scale

Check the accuracy of your print by positioning a credit card on the line below.

Option A Measure by matching

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should see only the white circle when looking down from directly above. If your fit falls between two sizes, I recommend choosing the larger size.

Option B Measure by paper ruler

Cut out the ruler then carefully cut the dotted line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure your size is right we suggest also checking the size also comfortably can slide over your knuckle of your finger.
