Talking Hearts will help your children to develop healthy thinking patterns that will boost confidence, self-esteem and wellbeing.

"I am loved", I am smart, and I will never give up". As children develop, these types of words and feelings are fundamental, and should be instilled within their belief systems.

We have curated a healthy list of positive self-affirmations and stored them on this special version of our Talking Hearts.

Each time the heart is pressed one inspiring affirmation will play at random.

Each Heart contains 30 pre-recorded positive self-affirmations.

TALKING HEARTS™

Positive Self-Affirmations

Use Talking Hearts every day to remind your children just how awesome they are!

A voice recordable version of our Talking Hearts is also available.

Record and playback your own speech music or sound effects using the 2 minutes of recording time.

Record your own affirmations, in any language, tailored to meet the needs of your child.

Tactile & multi-sensory

Feelings & Emotions

Practical PSED Applications

- ✓ **Promote positive self-talk**
Develop healthy habits during development
- ✓ **Develop strong self-esteem**
Combat anxiety, stress and low confidence
- ✓ **Set daily repetitions of positivity**
Influence thoughts, emotions and feelings
- ✓ **Create and encourage new habits**
Promote a positive change of behaviour
- ✓ **Improve emotional intelligence**
Recognise, share and understand emotions
- ✓ **Develop a positive response to challenges**
Learn to manage feelings of fear and anxiety
- ✓ **Increase psychological wellbeing**

Be Prepared...

This hand-held first aid device provides step-by-step audible guidance to help you save lives.

An ideal learning resource for schools and colleges to support PSHE Curriculum First Aid Training.

Audio Chip Technology

With the press of a button, the device delivers audio instructions via the built-in speaker, with the ability to pause and repeat as necessary.

The Knowledge

Assessing injuries and providing first aid requires fast thinking and a calm state of mind.

This brand new concept empowers everyone to make smart, timely, life-saving decisions.

IntelligentFirstAid™

Multi-sensory Instructions

As soon as a first aid procedure button is pressed, a calm, clear voice instantly starts providing instructions.

The printed manual provides colour coded visual instructions for added reference.

The special PAUSE feature allows you to navigate, pause and repeat audio instructions quickly and easily as required.

A unique concept for a higher standard of care.

Raising Standards

- ✓ **A revolutionary First Aid solution**
A combination of step-by-step audio guidance with colour coded visual instructions
- ✓ **The confidence to act**
Empowers untrained bystanders to save lives
- ✓ **The knowledge**
Helping you to help others. What happens in those precious minutes before professional help arrives? What do you do?
- ✓ **Manage life-threatening situations**
CPR for Adults and Children, Manage Choking Control Bleeding, Treat Burns, Manage Shock
- ✓ **An essential addition to your FA supplies**
Keep in the classroom, reception, sports hall, staff room and in community spaces
- ✓ **First Aid Training**
Ideal learning resource for PSHE Curriculum
- ✓ **Procedures and protocols**
Complies with Resuscitation Council (UK) Guidelines 2021

Fits in the palm of your hand.

Ready to use.

(NOTE: Kit includes Audio Device, Manual and a First Aid Kit suitable for up to 10 people)

Sanitiser Sentinel has been designed to attract and encourage people to use hand sanitiser stations and soap dispensers.

Sanitiser Sentinel supports Infection Control by using a PIR sensor to detect people passing a sanitiser station.

When the sensor is activated a voice message is played and LED lights will flash to highlight the dispenser.

SANITISER SENTINEL®

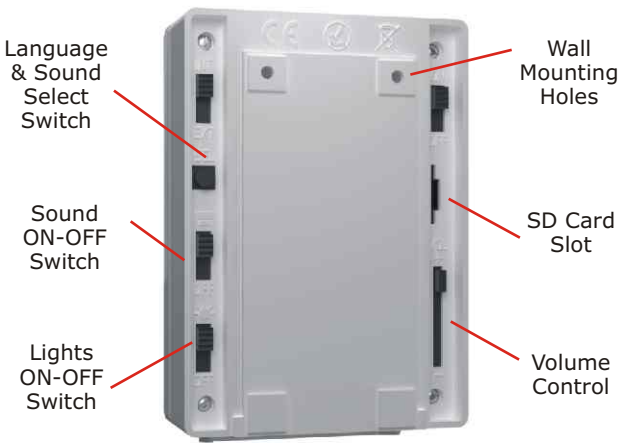

Reinforces Infection Prevention & Control Procedures

Sanitiser Sentinel is a stand-alone unit that can be easily placed above or close to any hand sanitiser or soap dispenser.

An audible reminder to wash or sanitise hands will reinforce hand hygiene in any environment, without the need for staff to be present.

Sanitiser Sentinel will help you safeguard your children, staff and visitors against viral and bacterial infections.

Locate above or close to any existing dispenser

26 pre-recorded messages including 20 different languages and 3 musical alert tones. Optional languages include German, French, Spanish, Italian, Polish, Dutch and Portuguese.

Options to store and play your own custom voice messages

One set of 4 C cell batteries will provide over 200,000 operations, which is the equivalent of 5 years. 400,000 operations can be achieved in voice only or light only mode.

"Please sanitise your hands"

MS-PIR-SEN Sanitiser Sentinel..... £19.95 ex VAT
