OUR **PURPOSE**

We are ARRAN - Sense of Scotland and our purpose is to help the world connect with nature.

Taking time out, slowing down and connecting with nature is known to improve both your physical and emotional wellbeing. When you connect with nature you can find the balance and beauty in every day, benefitting both you and the impact you can have on the world around you.

On the Isle of Arran we are proud of our unspoiled way of life. Living in touch with the simple elements that inspire and connect us, where the cold sea, vibrant land, and our fresh spring water from the rugged hills bring comfort. Here you'll find the moments that capture the true sense of Scotland.

Discover nature inspired wellbeing and transport your mind to our unspoiled island home.

MAKING OUR **PRODUCTS**

Fuelled by the wild, untouched landscape of our island, our products are designed to connect the world to the wellbeing benefits of our unspoiled home, with fragrances that capture a moment spent in nature.

All of our products are made with carefully chosen, high quality ingredients, prepared to the highest standards and produced on the Isle of Arran.

We believe our surroundings are our greatest asset and we are dedicated to preserving and maintaining our natural world. We are making conscious efforts every day to minimise our carbon footprint and improve upon our impact on the world.

THE ARRAN **SUSTAINABILITY PROMISE**

ARRAN - Sense of Scotland has been inspired by the beautiful landscapes of the Isle of Arran for over 30 years. As a result, we're committed to protecting our natural environment and are actively working towards reducing our carbon footprint. Working with TAP (Think About Plastic), ARRAN Sense of Scotland is proud to support the 'Plastic Free Community' status of the Isle of Arran.

As ARRAN - Sense of Scotland continues to evolve and develop we are continuously making changes for the better. We are proud to say that our plastic bottles will now be produced using Prevented Ocean Plastic.

Prevented Ocean Plastic (POP) is recycled plastic collected from coastal areas at risk from ocean plastic pollution. The POP programme is proven to divert over one thousand tonnes of plastic from entering the ocean every month.

We believe using prevented ocean plastics can provide scalable solutions to reduce ocean plastic pollution whilst decreasing the need for new plastic, which generates more carbon emissions than recycled plastic. We also believe community collection programmes, such as these, can support and incentivise developing communities on the frontline of plastic waste.

ECO-FRIENDLY REFILLS

Reducing plastic consumption of our hotel partners by up to 81%.

While we as a business are eliminating the use of virgin plastic in our bottles, we are helping our hotel partners reduce their daily plastic consumption and liquid waste, with the introduction of our eco-friendly refill options. You can be part of this positive, sustainable change by switching to our refill options, now available in our best-selling hand washes, bath & shower gels and shampoos.
