Save time with Automatic Batching
Let the TG18 help you optimize your cash-counting workflow. Simply press "bat" and enter the desired number for each coin denomination, then press start. The TG18 will automatically pause each time a coin cup reaches the programmed amount. There's no faster way to prepare your coin rolls, bank deposits and cash drawers.

Convenient Auto-Stop Feature
To prevent messy overflow, the TG18 will automatically pause when one of its coin cups is full; simply empty the cup and press start to resume counting.

The TG18 Coin Sorter is suitable for small to midsize retailers and business, schools, charities etc. Used to sort and count medium quantities of coins fast, efficiently and accurately.

It features any denomination sort and value counting, batch presetting and has auto-stop when the pocket capacity is reached.
