

♥ DIY Easter Carrot Patch Recipe ♥

Ingredients

- Box of brownie mix
- Chocolate Frosting
- Oreos
- Chocolate Candy Wafers
- Strawberries
- Orange food coloring
- Optional: edible grass decoration

Instructions

1. Select a base for your carrot patch. We chose brownies, but feel free to select your desired base. Other base suggestions: cookies, pudding cups, ice cream, cake.
2. Bake your brownies as instructed on the box.
3. After your brownies cool, use the container of chocolate icing and cover the brownies in an even layer.
4. Then, take your Oreos out of the package, separate the top and bottom, and remove the cream filling. Place Oreos inside a separate bag.
5. Once you have the desired amount of Oreos, crush them until they are even crumbs. They should look like dirt.
6. Spread an even layer of the crushed Oreos onto your icing layer.
7. Rinse your strawberries thoroughly, pat them dry.
8. Melt your candy wafers. If you are able to find orange wafers, this will work as well. If you have white wafers, once you melt your chocolates, add a few drops of orange food coloring. Mix thoroughly.
9. Dip your desired amount of strawberries into the melted wafers. Place on a tray lined with parchment paper and store in the refrigerator until they have hardened.
10. Once your strawberries are dry, arrange them on top of your Oreos until you have your desired look.
11. Optional: you may add edible grass or add green frosting around your strawberries.
12. ENJOY!
