

Fun ways to play!

1

Write a story about your favorite doll

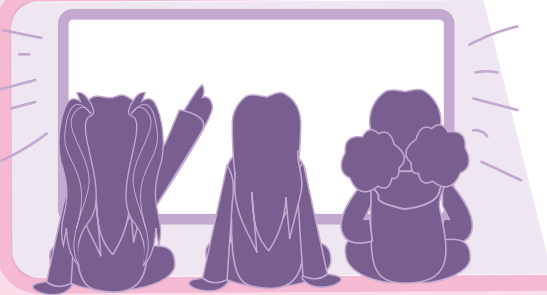

Find an old unused notebook or some paper and write all about the adventures your doll likes to go on. Share your story with your family and friends or read it out loud to your doll each night before bed

2

Have a movie marathon with your friends.

Have each one of your friends pick out one movie, cuddle up on the couch while wearing some comfy pajamas and enjoy the different flicks. The more snacks, the better!

3

Pamper yourself

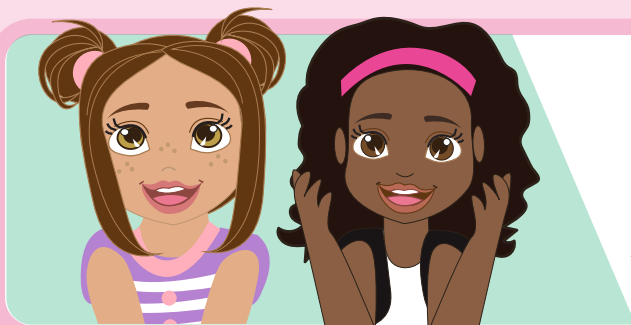

No matter your age, self-care is very important and sometimes relaxing and pampering yourself is the best way to do it! Paint your nails, do a facemask, or take a bubble bath while listening to your favorite music.

4

Give your doll a new hairstyle

Do you know how to french braid? Or maybe messy buns are more your style? Give your doll a simple, temporary makeover by simply giving her a new hairdo -- maybe you can give yourself one to match!

5

Host a karaoke contest with your family and friends

Set a room in your house like a concert with seating and a stage. Pick out songs to sing and give a performance in front of your family and friends. Have them do the same! What song will you sing?
