

Fun ways to play!

1

Play doctor with your dolls and stuffed animals

Pretend that you're the doctor and your doll is a nurse and you have to take care of your stuffed animals together. How will you make them feel better?

2

Host a fashion show

Put together fun outfits, give yourself a stylish hairdo, put on some makeup (if the grownups say its okay), and pretend you're walking down the catwalk at a giant fashion show. Invite your friends to join or even dress up your dolls and toys!

3

Play "The Guessing Box"

Place 4 of your favorite objects into a shoebox and cover the top with a towel. Don't let anyone see the objects you choose! Have each of your friends feel inside the box and say what they think the objects are based on how they feel. Whoever can identify the most objects wins!

4

Go on an alphabet scavenger hunt

On a piece of paper, write letters A-Z on a different line. Go around your house or yard and find items that start with each letter. On your piece of paper, write down each item next to the letter it begins with. See how quickly you can get all 26 letters!

5

Play charades

Choose a fun category -- like TV shows or animals -- and, on separate pieces of paper, write down different words that go along with the chosen category. Take turns choosing pieces of paper and acting out the word that's written on it. Those not acting out the word should try to guess the word.
