

# ♥ No-Sew Heart Pillows ♥

## What you'll need:

- 2 sheets of felt fabric in same or different colors
- Scissors
- Pen or marker
- Cotton or polyester stuffing

## Steps:

1. Using your pen or marker, draw a heart as big as you want on 2 separate sheets of felt fabric.
2. Carefully cut both hearts out with scissors. Then draw smaller hearts on both of the hearts. Put the hearts on top of each other.
- 3.) Cut a line into both heart sheets that is from the edge of the big heart to the little heart. Move your scissors over 2-3cm and make another cut. Repeat until you have made frills around both heart shapes.
- 4.) Tie the frills from the top heart to the frills on the bottom heart by grabbing one strip of fabric from the top heart, and a strip from the bottom heart and tie them together into a knot.
- 5.) Repeat tying knots but don't tie all of them yet; you will need to stuff the heart. Stop about a quarter of the way.
- 6.) There will be a hole left where you haven't tied the knots yet. Stuff the hole with cotton or polyester stuffing.
- 7.) Once the heart is stuffed, continue tying the knots until the entire heart is closed.
