

carloffa + gee

Carlotta + Gee.

Carlotta + Gee is an all-natural, sustainable Australian linen brand offering 100% French linen bedding and homeware products in a wide range of warm, earthy tones. The idea to create our own linen brand was inspired by two friends, taking a trip together to Byron Bay and falling in love with the feeling of sleeping in pure linen bedding. From there, we developed a product of the highest quality and through ethical practices and textiles and then our brand was born.

Our Values.

Carlotta + Gee is more than just a 'product,' rather it is a lifestyle, an aesthetic, a personality; designed to make your home your ideal space. We believe our 100% French linen contributes to the overall feeling, an awareness of the senses upon sleeping and waking up each day. Our dream is for people to invest in themselves; in their mind, body, health and wealth. We spend one third of our lives in our bed, so durable and breathable bedding will assist in giving you the best possible sleep; making you feel inspired and energised as well as mentally and physically balanced. Our aim is to transform every bed and home into not only a unique and memorable space through simplicity using our considered, sustainable product.

Sustainability.

Our linen is grown from a natural fiber called flax, deriving from the flax plant grown in Normandy, France. The optimal climatic conditions of this region ensure the flax is grown naturally and ecologically – no pesticides or dangerous chemicals, irrigation for cultivation, no consumption of previous water resources and therefore, making it competitively sustainable. Not one part of the plant is wasted; the fibers from the plant are used to weave into textiles, the seeds are eaten, and the oil from the plant is used to varnish furniture.

C+G make it our priority in looking after our planet and using minimum quantities of plastic and chemicals, ensuring our customers that our product is sustainable and the best quality product available. We're proud to use linen as it is a 100% natural fabric, biodegradable and more recyclable than cotton.

Our colours

Our linen palette is carefully selected, focusing on colours that explore hints of the natural Australian landscape in gentle earthy tones, keeping your space feeling peaceful and therefore, allowing for a quality night's sleep. We love to see our community being creative, mixing and matching colours, or simply pair a full set in one colour.
