

COLIBRÌ SYSTEM

COVER AND PROTECT ALL
KINDS OF BOOKS IN SECONDS

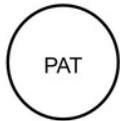

WHY COLIBRÌ SYSTEM

The CoLibri System is the fastest and most innovative book covering system in the world. Consisting of a book covering machine and clear polyethylene book covers, with the CoLibri System you can protect both paperback and hardcover books of any size in just 30 seconds! Recyclable, acid free and PAT certified, our soft covers protect books from moisture, scratches, dust, and normal wear and tear for years.

COLIBRÌ ADVANTAGES

SOME OF OUR CUSTOMERS

And many more!

“
Quick and easy book covers that we do ourselves. We are a small operation and don't have much time and staff for time consuming processes. Book covers hold up over time.

-Librarian at Cambridge City Public Library

“
Fantastic customer service and support. The machines and covers are very easy to use and have saved us a ton of time processing books for our library.

-Librarian at Waco McLennan County Library

“
This machine saves so much time in getting books shelf ready! Worth every penny!

-Librarian at Hoover High School

“
I have been using e-leonardo covers for several years now, and they are incredible. The books in the library are in great shape because of the protection.

-Librarian at Paintsville Independent Schools

COLIBRÌ SYSTEM

MACHINES + COVERS

OUR MACHINES

The E-Leonardo and E-Da Vinci are our two book covering machines.

Features of both machines:

- 100% accurate, machine-controlled cutting and sealing.
- A digital display and foot pedal allow for easy use.
- No need for scissors or adhesives.
- Compact, safe and easy to store.

e-leonardo
Colibrì System Covering Machine

COLIBRÌ ECO COVERS

The first and only covers made with I'M GREEN™ POLYETHYLENE

Polyethylene and most plastic materials are normally produced from fossil fuel based raw materials. I'm Green™ Polyethylene is a plastic material made from a renewable raw material extracted from sugar cane. CoLibri ECO covers are durable, 100% recyclable, and the production of Green™ Polyethylene helps absorb CO2 from the atmosphere.
