

# FACE MASK ACTIVITIES

Face masks have become a normality during the last little while. They are not something any of us were used to wearing previously and quite honestly, they can look a bit strange.

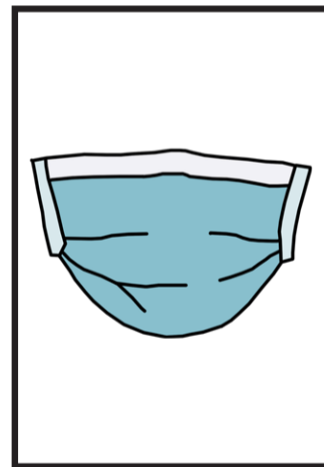

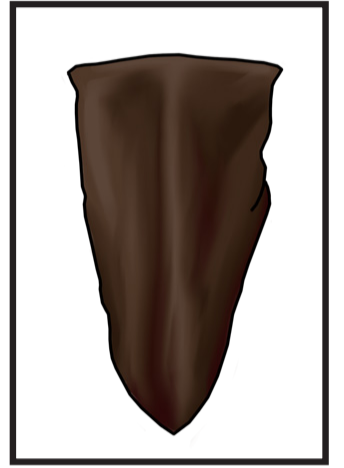

We have created some fun activities around masks that can help familiarise your child with what they are, and what they do.

As your child is completing these activities, you could talk to them about what masks do and why we are using them.

Enjoy and stay safe,  
Diane

# MATCH THE MASK

Match the mask to the person! Draw a line to connect them.

# COLOUR THE MASK

Please note these are a craft activity and not to be used as a face covering
