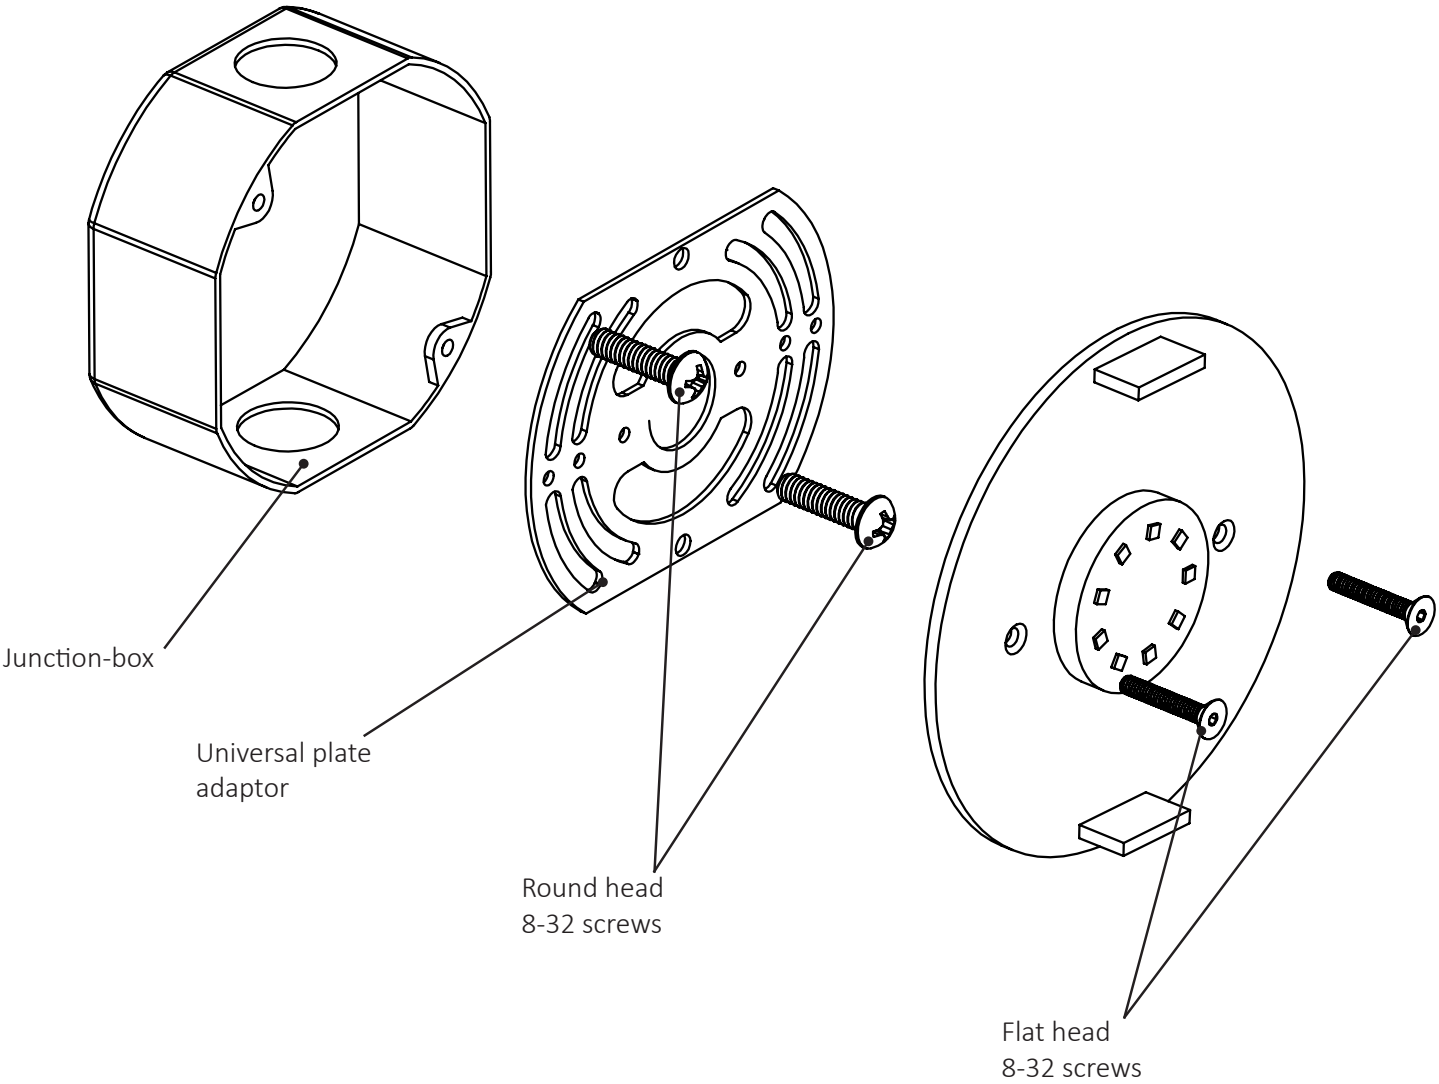
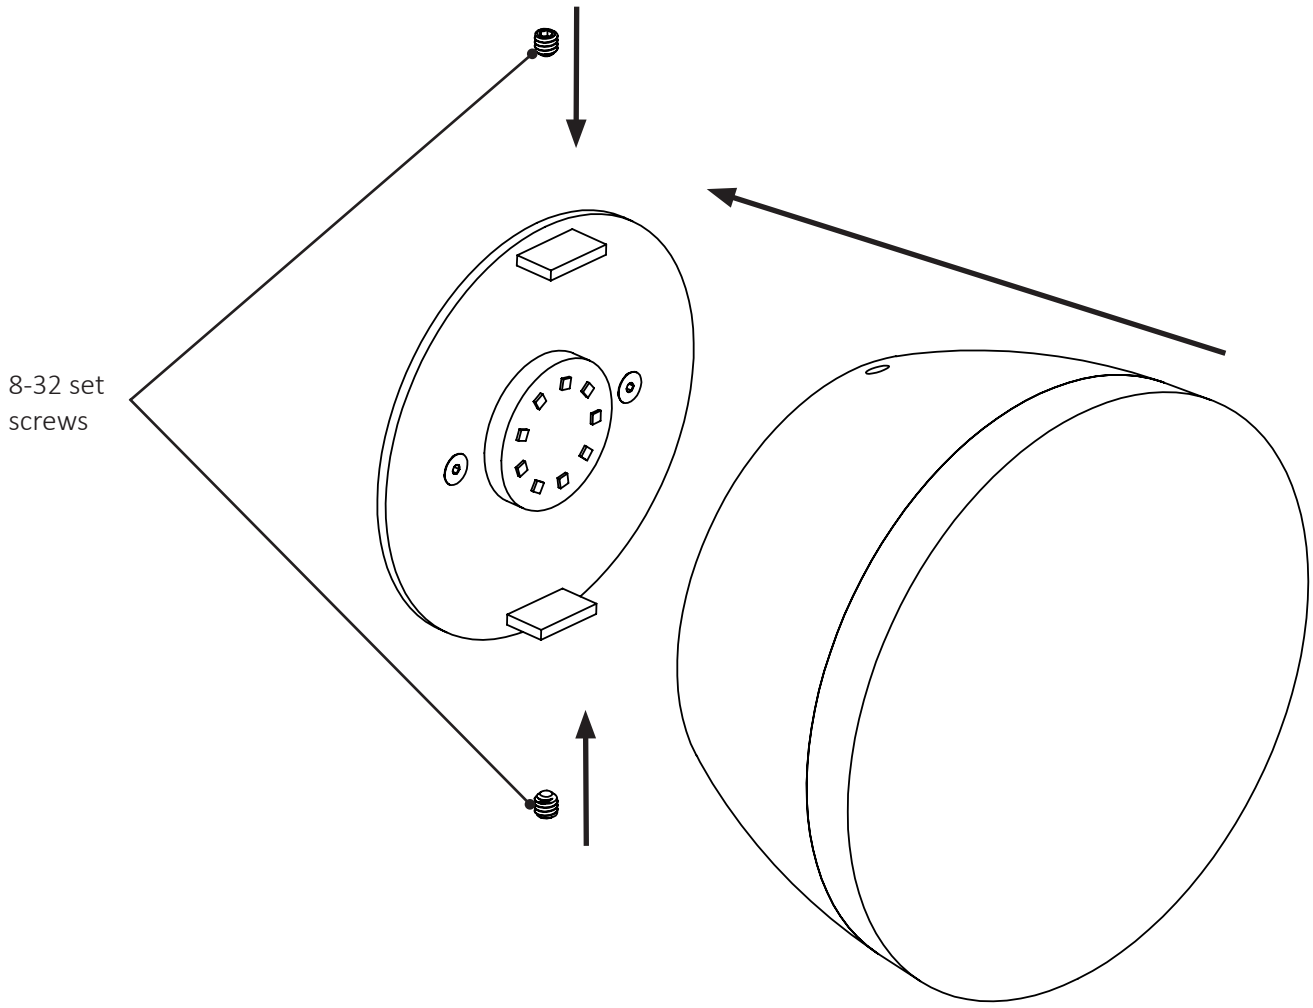
hardware
+ installation

1. Feed wires through universal plate adaptor and have a certified electrician connect the fixture to 120V power.
2. Fasten the universal plate adaptor to the junction box using the round head 8-32 screws.
3. Mount the back plate to the universal plate adaptor using the flat head 8-32 screws.



hardware
+ installation


4. Place the fixture onto the backplate. The tabs on the backplate should insert into the back of the fixture.
5. Tighten the provided 8- 32 set screws to secure the fixture to the backplate.
