CANOPY CONNECTION

1. Locate desired canopy location on ceiling.

2. Connect cloth-covered suspension cable from fixture to cable gripper on canopy.

3. Feed insulated power line into canopy as illustrated on the right.

4. Have a certified electrician connect +/- leads into 120 V domestic power.

5. Secure all connections.

6. Adjust all cables to desired heights (standard x length max. = 120").
