THE COMPLETE PACKAGE

EVERYTHING YOU NEED TO START YOUR BUSINESS

The Tuel Complete Package is the ultimate training and sales tool to help you bring the power of nature and science into your spa or salon. The package not only includes a full professional back bar and a selection of retail products, but also intimate training and mentoring with a Tuel certified trainer knowledgeable in techniques and best practices that will help propel your business to success.

BACK BAR

We give you everything from cleansers to extraction solutions and anti aging serums from our complete line in professional sizes valued at over \$1,700. This gives you the ability to customize facials specific to your clients' skin care needs. It also includes The Tuel Technical Manual filled with detail product information, a full library of basic and advanced treatments, helpful tips and instructions and access to online education.

RETAIL

We put a lot of thought and consideration into choosing just the right retail items for your business. You get more of our popular items including additional products for the most common skin types. This ensures that you will not be left with products collecting dust on the shelf. As a Complete Package investor you will be added to our list of salons and spas at tuelskincare.com and tuelberodin.com. These sites allow clients and professionals to find Tuel salons in their area for services and products.

CHAIR SIDE & MENTORING

Learn from the best with our three-day intensive training program. A Tuel certified trainer, mentored personally by co-owner Lori Nestore, will come to your salon and teach you step-by-step techniques including how to analyze skin, the best facial methods, client consultation tips, retail selling practices, and basic business procedures.

There is so much more to the esthetics business than just giving a great facial. Where will your client sit during the consultation? How is your retail displayed? Does your back bar setup allow you to remain seated without straining to reach products? Are you doing an extraordinary amount of unnecessary laundry?

When your training is finished you will have ALL the tools you need to have a career that exceeds your dreams. Not only will you work in an industry you love, but you will know how to generate an income that matches it. Whether you are in a one person room or a large salon, we strive to help you succeed.

ADVANCED SKIN CLASS (CALIFORNIA)

This five day hands-on class is essential to the success of your business. You'll learn how to analyze skin types and conditions and choose the appropriate products for each of your clients. Instructor Pati Geraghty balances her professional experiences and the latest research with treatment methods to ensure the most advanced and effective techniques are taught. This class not only will give you the knowledge to properly address a variety of skin care needs, it will also leave you feeling confident in your ability to rebook and retail clients, while performing a wide range of services that will propel your business to thrive.

Take your business to the next level!
