

# Arbor Scientific & Tom Trapp Your District STEM & Physical Science Consultant

Tom Trapp is assisting Arbor Scientific as a STEM & Physical Science consultant for your school and district! He is available to partner with you and your team to help you meet your science department and district's curriculum, supply, and laboratory safety needs.

### Choosing a partner... Growing a partnership...

Choosing a vendor partner is one of the most essential and valued choices that you can make. True partnerships are grown through commitment, understanding, and support of one another. That is the Arbor Scientific promise, and Tom's personal promise, to you. We want to earn the opportunity to be called your professional science-education partner.

#### An additional resource just for you...

Tom has worked with your school district, and many others, for over 20 years. Throughout his career, he has assembled a wide range of experiences and science solutions working directly with teachers and with district leaders. In addition to all the services and resources available from Arbor Scientific, Tom can provide personalized and on-site assistance to help you achieve your professional goals.

## Depend on Tom as a resource to help you:

- ✓ Prepare proposals and the access to resources to help you advance your science or STEM program
- ✓ Utilize Arbor Scientific's <u>Lab Planner and Recommended Materials Lists</u>
- ✓ Resource New Science Teachers with valued essential materials for teaching & learning
- ✓ Identify & Obtain <u>Funding sources</u> for new science & STEM initiatives
- ✓ Equip expanded or new science courses and science laboratories
- $\checkmark$  Offer guidance for science room construction and renovation projects
- ✓ Provide valued resources for you and your science staff
- ✓ Increase student achievement in Physics & Physical Science (Supplemental curriculum support)
- ✓ Recommend science adoption and professional development materials for you and your team
- ✓ Co-develop goals for you and your department in the many areas Arbor Scientific can help

#### Take Action! . . . Talk or Text Tom today . . .

Count on Tom Trapp and Arbor Scientific to work hand in hand with you and your science team to help advance the science and safety at your school.
