

**2019-2020+ Ford Ranger BIG
MOUTH Ram Air Installation Guide**

Kit Contents

Please review this document before attempting installation.

You will need basic hand tools and 0.5 hour or less of installation time.

This product does not reuse the OEM hardware.

Description	Qty in kit
	#
M6x40mm socket head cap screw	1
M6x30mm socket head cap screw	1
M6 small washer	2

Stock Components Removal

Remove these 2 Torx screws using a T30 bit.

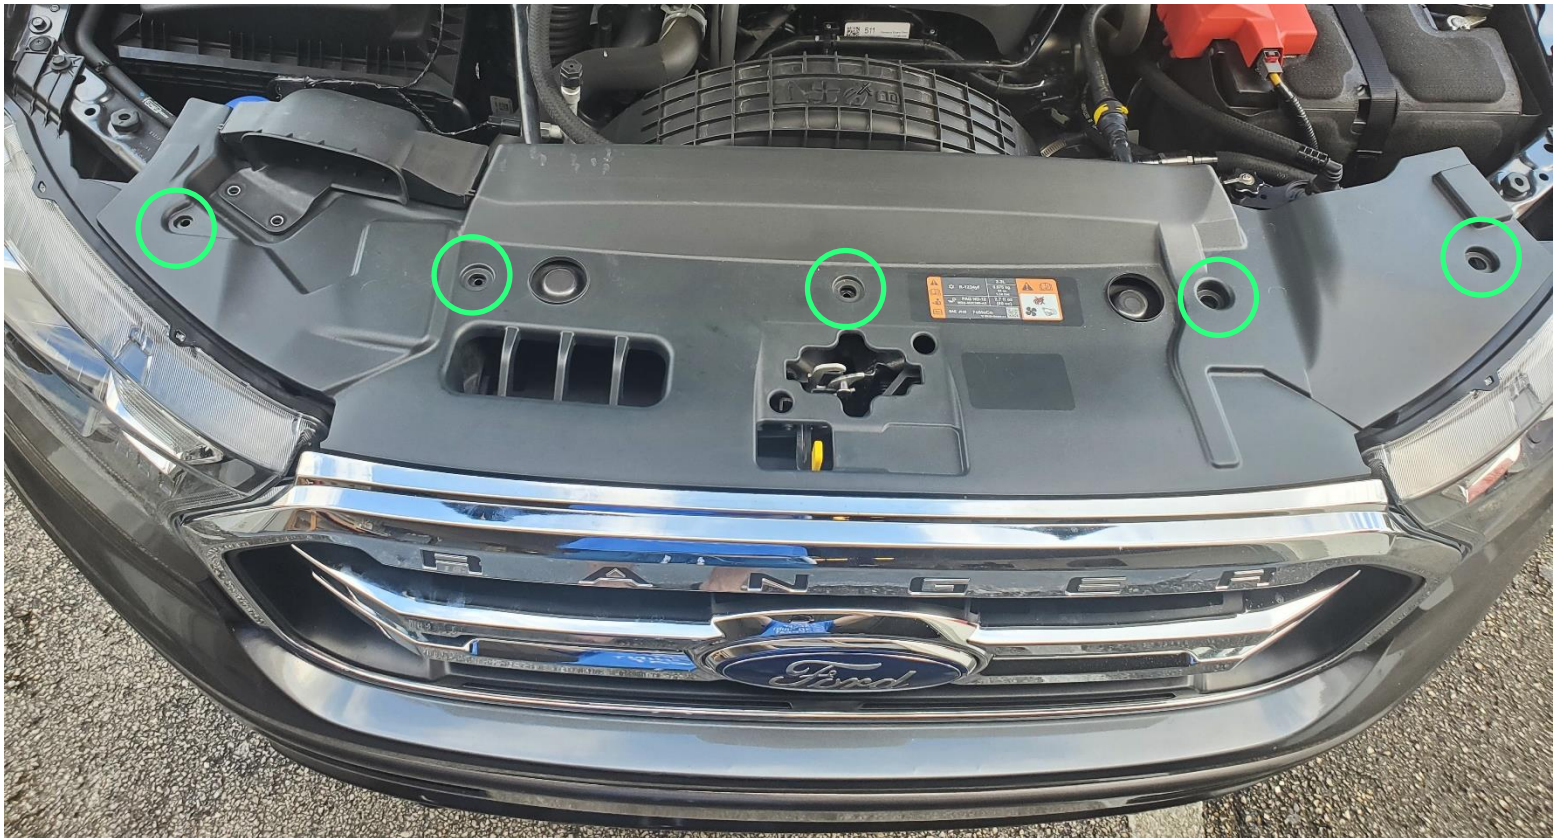

VELOSSA TECH

Cowl Removal

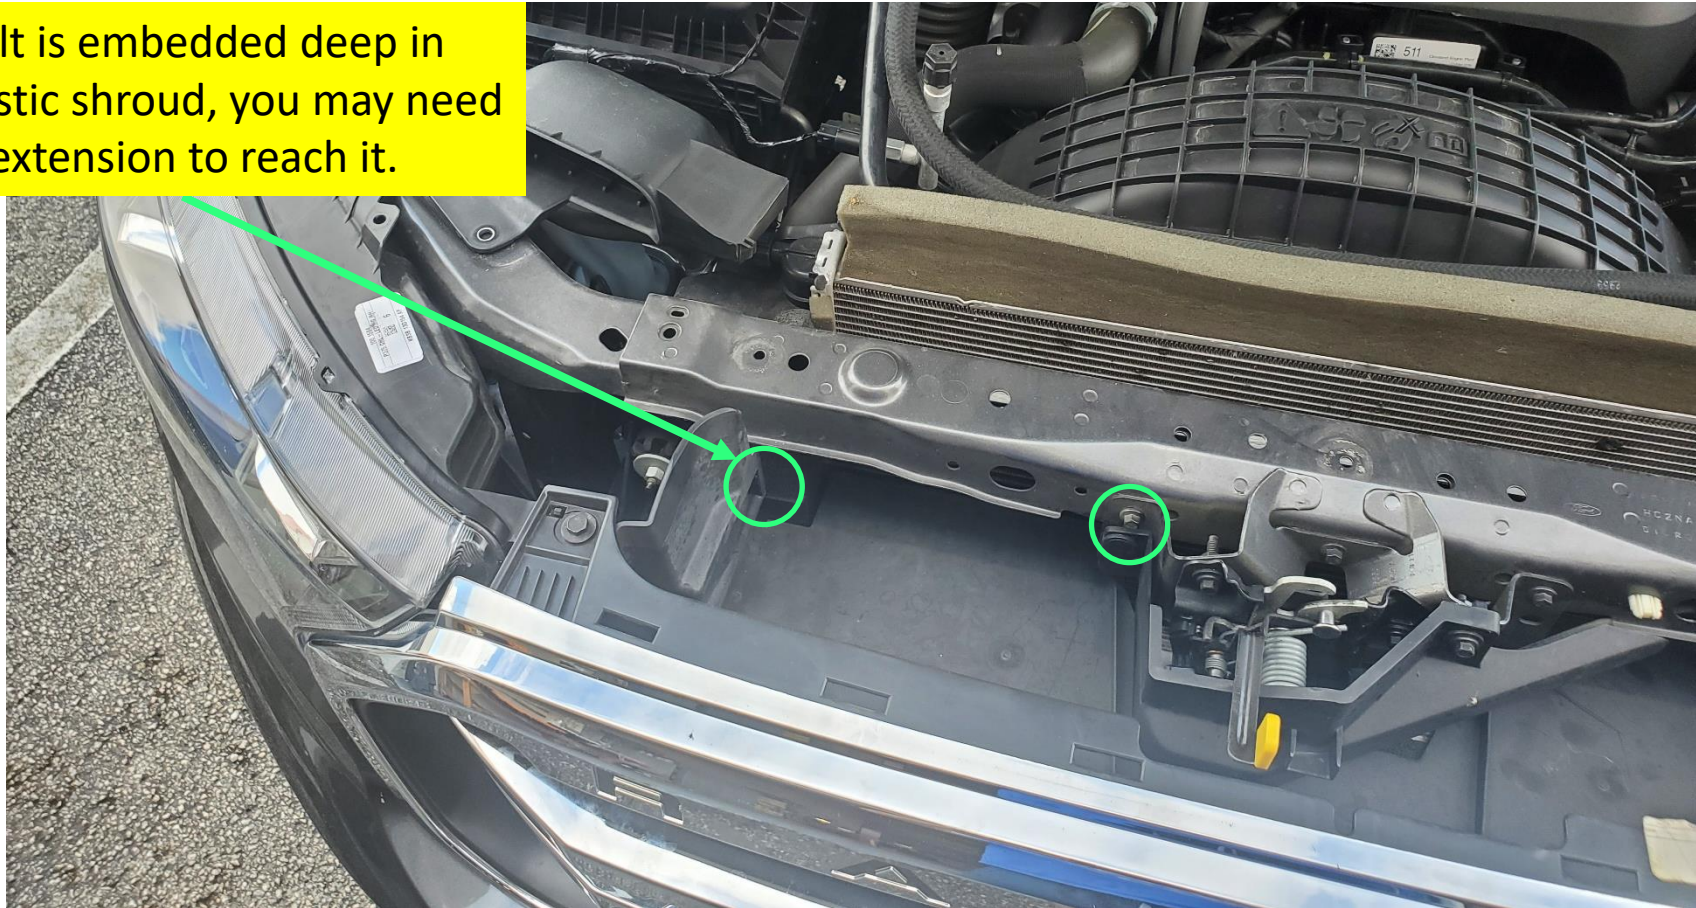

Pop off these clips carefully and set them aside for later use.

Big Mouth Installation

Remove these two stock bolts using a socket extension.

This bolt is embedded deep in the plastic shroud, you may need a long extension to reach it.

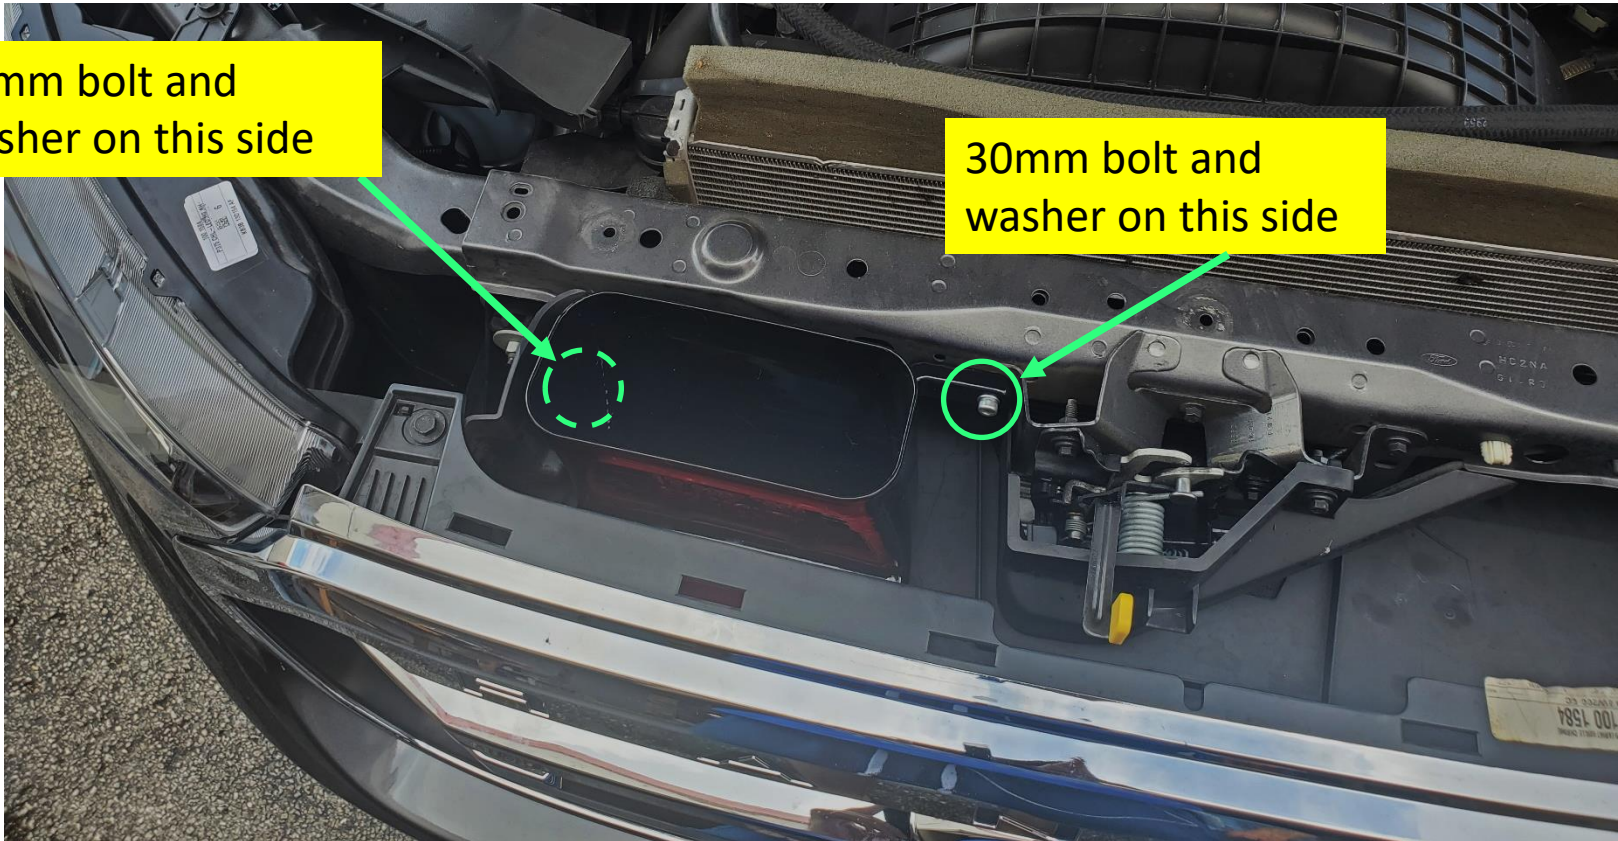

Big Mouth Installation

Place the BIG MOUTH in the location shown and use the supplied hardware to fasten. **DO NOT OVERTORQUE, HAND TIGHT IS FINE.**

40mm bolt and washer on this side

30mm bolt and washer on this side

VELOSSA TECH

Finalize

Re-install the cowl the same way it was removed and ENJOY!
