

Good Afternoon!

I hope that everyone is staying safe and healthy! Our Core Germ Guards have been custom designed for McDonald's exclusively. Over the weekend we tried these out at a few McDonald's locations and they fit seamlessly. \*As this is an urgent product, we will continue to use feedback to tweak guards and opening sizes. I would like to thank Ted Lyons for allowing us to try these in his stores as well as giving us feedback to help us adjust these to fit your stores. These are available now and the shipping time is about 2-3 days.

Our online ordering system is up and running! Please visit our new website at <https://core.green/> where you can see product descriptions, photos, as well as our online ordering system. If you would prefer to fill out an order sheet instead of order online, please let me know and I will send one over to you.
