

Time to go home?

Step 7: Quick getaway

For a quick getaway, use the following procedure. Hold the net with both hands by the L brackets with the strap, one in each hand and twist them in an opposite direction for about 90 degrees to fold the net as in the pictures below:

Insert the strap through the two L bracket corners to form a shoulder strap for carrying, for a quick getaway.

Step 8: Normal getaway

For a normal getaway disassemble the net and arrange the fibreglass rods into a bunch. Put the fibreglass rods, net, ball and pump in the knapsack. All for a compact getaway.

CAUTION	BEFORE EACH USE
<ul style="list-style-type: none"> Please ensure adult supervision and strictly follow these instructions during assembly and disassembly Treat this product with care and it will serve you well 	<ul style="list-style-type: none"> Carefully check the net and frame for any damage Ensure correct assembly and secured on a flat surface using the supplied pegs if possible Exercise usual safety precautions to prevent injury or damage to property

ASSEMBLY INSTRUCTIONS

Step 1: Unfold the fibre glass rods and insert each rod into their corresponding metallic joints. The rods and joints are tensioned by bungee cords forming 2 poles, each of which are angled with 2 L brackets as pictured below.

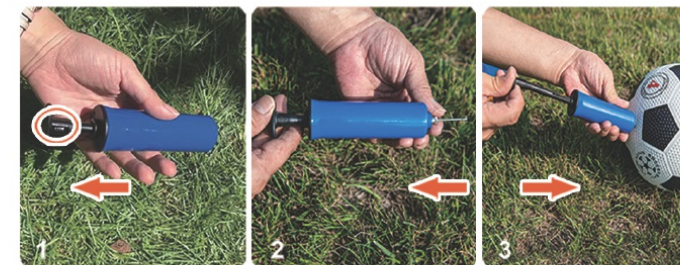

Step 3: Firmly grab each end of the pole and insert one end of the pole into the horizontal opening of the L bracket with the strap and with your other hand insert the other end of the pole to the vertical opening of the L bracket as in the pictures below. Repeat the entire step 3 to assemble the other net.

Step 5: Preparing the soccer ball

Locate the needle which is stowed inside the handle of the pump and screw it on to the tip of the pump. Moisten the needle and insert into the ball to inflate.

Step 2: Insert each fibre glass pole through the sleeve on each side of the net and thread it through the corners of the net until the entire pole is in the sleeves except the ends. Repeat for the other side.

Step 4: Place and secure the nets with either the U pegs provided as in the pictures below or in the case of hard ground, use sandbags or bricks etc to stabilize the nets.

Step 6: Now you're ready for soccer !
