HEATING AND COOLING SOLUTIONS

SPLIT SYSTEMS

MITSUBISHI HEAVY INDUSTRIES AIR-CONDITIONERS AUSTRALIA

Mitsubishi Heavy Industries Air-Conditioners Australia (MHIAA) is one of Australia's leading suppliers of premium residential and commercial air conditioning systems. Delivering engineering excellence for over 130 years, the Mitsubishi Heavy Industries brand is instantly recognisable for quality and technological advancement.

With innovation central to both the organisation and the development of air conditioning systems, Mitsubishi Heavy Industries carries a strong philosophy of engineering products that are designed to improve the lives of those who use them and at the same time, create a sustainable future for our company and the world we live in.

COMMITTED TO QUALITY

Standing behind the quality of our products, is our commitment to our customers and our after sales service guarantees. Along with the rigorous quality assurance testing carried out on all Mitsubishi Heavy Industries products, comprehensive warranties provide you with peace of mind and carry our commitment to quality.

5 YEARS PARTS AND LABOUR WARRANTY

Mitsubishi Heavy Industries Air-conditioners Australia focuses solely on manufacturing high performance air-conditioners for the Australian market. All our systems are of the highest quality and are backed by a full 5 year parts and labour warranty.

EXCEEDING ENERGY PERFORMANCE STANDARDS

To comply with Australian standards and deliver the most efficient solutions possible to our customers, all Mitsubishi Heavy Industries Air-conditioners Australia systems meet and exceed the Minimum Energy Performance Standards (MEPS).

MHIAA Split Systems

Our award winning split systems offer a quiet and highly energy efficient solution for heating and cooling individual rooms. They are comprised of an indoor unit which is installed on an interior wall or in your ceiling and an outdoor unit which is placed on an exterior wall of your home. All split systems come with a wireless remote control as standard.

Our split systems come in a variety of types (wall mounted, floor mounted and bulkhead), a range of capacities and both cool only and reverse cycle to suit any Aussie home.

All our systems have undergone strict and rigorous testing and quality control measures to ensure they are of the highest standards and will withstand the tough Australian climate.

Wall Mounted

- Highly energy efficient
- Convenient features and functions
- Available in range of capacities
- Suitable for any home

Floor Mounted

- Energy efficient
- Convenient features and functions
- Perfect for colder climates

Bulkhead

- Super quiet operation
- Discreet design
- Perfect for renovations, new builds
- Convenient features and functions

Our Technology

IMPROVED HEAT EXCHANGER

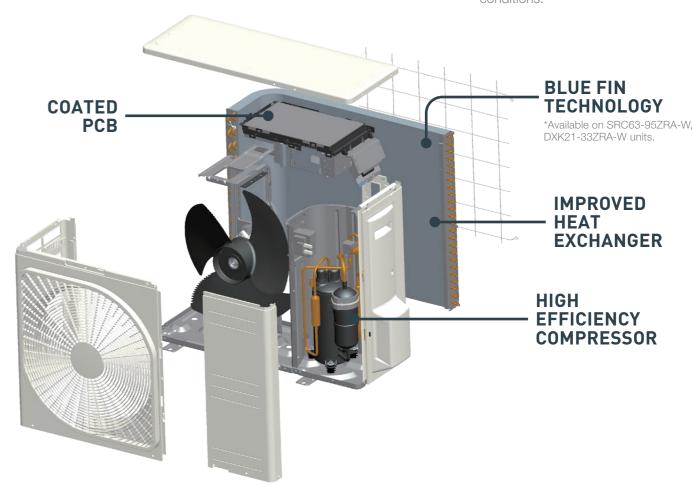

Our new and improved heat exchanger has been developed to improve refrigerant distribution and increase the systems effectiveness. The new design features a larger heat exchange area, boosting the unit's overall efficiency.

COATED PCB

To protect against humid weather a protective coating is applied to the circuit board in the outdoor unit, allowing it to withstand Australia's varying weather conditions and ensure the longevity of your system.

BLUE FIN TECHNOLOGY

Mitsubishi Heavy Industries outdoor units are coated with specially formulated layers that assist in preventing the hydrophilicity effect and assists in reducing the corrosion rate of the aluminium section from harsh Australian weather conditions.

HIGH EFFICIENCY COMPRESSOR

One of the key features that provides Mitsubishi Heavy Industries air-conditioners with their powerful performance is our highly efficient compressor. Combined with a Neodymium motor that uses powerful, rare earth magnets, Mitsubishi Heavy Industries air-conditioners can deliver a higher motor efficiency while producing much less operational noise.

DC PAM INVERTER

The PAM control used in Mitsubishi Heavy Industries air-conditioners helps minimise the loss of electricity and boost the efficiency by allowing the unit to reach the temperature quickly before slowing down the compressor. This allows the unit to save energy while maintaining a comfortable temperature in the room.

WIDE OPERATION RANGE

With our advanced technology and high quality components, Mitsubishi Heavy Industries air-conditioners can operate in ambient outdoor temperatures as low as -20°C in heating mode and as high as +46°C in cooling mode.

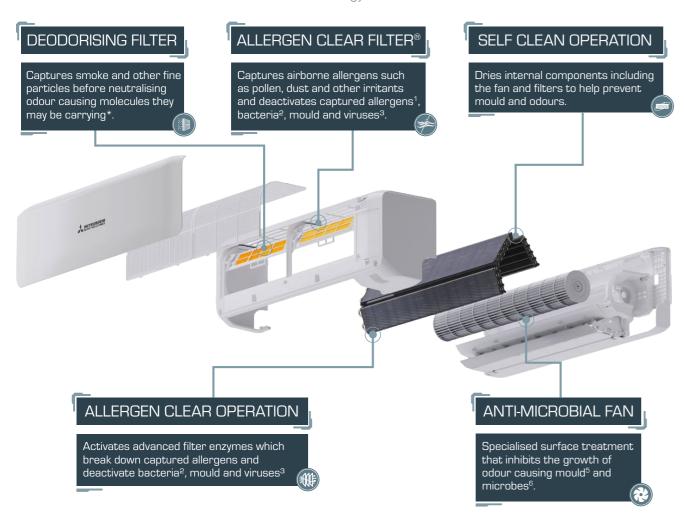

This permits the installation in areas where the temperature conditions can be considered extreme.

4

Clean Air Technology

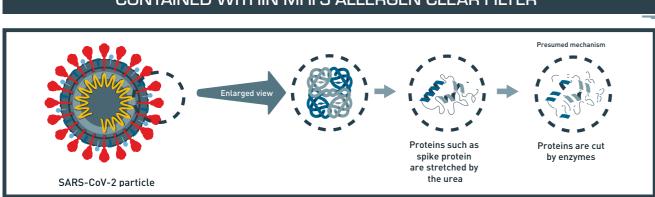

Mitsubishi Heavy Industries' Clean Air Technology is a combination of several different yet specialised components, systems and functions that are designed to work in synchronization to help improve indoor air quality by removing allergens and odours and deactivating mould, bacteria and viruses*. Learn more at mhiaa.com.au/clean-air-technology.

Recent tests have confirmed that the enzyme-urea compound contained within Mitsubishi Heavy Industries' Allergen Clear Filter is effective in the de-activation of SARS-CoV-2, the virus that causes COVID-194.

AVANTI® Series

AVANTI PLUS® Series

Wall Mounted 2.0kW | 2.5kW | 3.5kW | 5kW

Named by ProductReview as the best split system of 2021, the Avanti® split system features a sleek and stylish design and incorporates a range of convenient features and functions. Coming in both reverse cycle and cool only models, the Avanti® is best suited to small and medium spaces.

HIGH POWER OPERATION

Provides 15mins of boosted power allowing you to quickly heat or cool your home before returning to normal operation.

3D AUTO MODE

Activates three independent motors which deliver an effective and efficient airflow throughout the room.

LED BRIGHTNESS CONTROL

Adjust the brightness of the LED display on the indoor unit to minimise disturbance and ensure a good nights sleep.

CLEAN AIR TECHNOLOGY

Captures and neutralises fine smoke particles, allergens, odours bacteria and viruses while also inhibiting growth of mould within the unit*

OTHER CONTROL OPTIONS (SOLD SEPARATELY)

Wall Mounted 2kW | 2.5kW | 3.5kW | 5kW | 6kW

The Avanti PLUS® is one of the quietest and most energy efficient split systems available. It incorporates an energy saving motion sensor, improved automatic mode for precise temperature control and a range of other convenient features and functions. Available in reverse cycle, the Avanti PLUS® is perfect for small to medium spaces.

MOTION SENSOR

Automatically adjusts the set temperature based on human activity detected in the room. Switches the unit off when no activity is detected to save energy.

3D AUTO MODE

Activates three independent motors which deliver an effective and efficient airflow throughout the room.

SILENT OPERATION

Set periods of time where the unit will operate with even further reduced noise levels.

CLEAN AIR TECHNOLOGY

Captures and neutralises fine smoke particles, allergens, odours, bacteria and viruses while also inhibiting growth of mould within the unit.

The NEW Ciara™ series of split systems incorporates stylish Italian design, with rounded contours and a sleek finish. Compact and lightweight, the Ciara™ series is packed with features including Wi-Fi built-in and Voice control compatibility. Available in reverse cycle models the Ciara™ series is perfect for small to medium spaces.

BUILT-IN WI-FI

Wi-Fi & voice control compatibility now included as standard*. Control your air-conditioner anywhere, anytime with your smartphone.

BACKLIT REMOTE CONTROL

Easy to use remote with backlit screen for dark/night time operation. Accurate temperature control via 0.5°C increments.

SILENT MODES

Two levels of silent mode are available to further reduce the outdoor unit noise level.

COMPACT DESIGN

A compact and lightweight design allows for improved installation flexibility and installation into smaller spaces such as apartments.

Bulkhead Systems 2.5kW | 3.5kW | 5.0kW | 5.6kW

The Akari™ series of low profile bulkhead systems are designed to sit within your ceiling space and distribute air via discreet grilles. These compact units require no ducting and are perfect for renovated spaces and applications such as apartments where space is at a premium.

HIGH POWER OPERATION

Provides 15mins of boosted power allowing you to quickly heat or cool your home before returning to normal operation.

SUPER QUIET OPERATION

The Akari series offers some of the quietest operation levels on the market achieving 24 dB(A) on low fan mode.

SILENT OPERATION

Set periods of time where the unit will operate with even further reduced noise levels.

SELF CLEAN OPERATION

Dries the indoor unit internal components, preventing the growth of mould.

NEW

Wi-Fi

Optional Control Solutions

RC-EXZ3A WIRED CONTROLLER

- Large, 3.8" backlit LCD touch screen with easy to navigate menu.
- Control the set temperature, operation mode and fan speed.
- Access timer and scheduling functions.
- Access additional features including Home Leave mode, Silent Mode, High Power mode plus more.
- Multi-language display (6 languages)

**Requires SC-BIKN2-E kit (sold separately) for use with wall mounted, bulkhead and floor standing systems.

RC-E5 WIRED CONTROLLER

- LCD display.
- Control the set temperature, operation mode and fan speed.
- Access timer and scheduling functions.

**Requires SC-BIKN2-E kit (sold separately) for use with wall mounted, bulkhead and floor standing systems.

***Function limitations may apply.

WI-FI SOLUTION

- Control your system using your smart device (iPhone, iPad, Android) via the AC Cloud Control app or internet browser
- Control the set temperature, operation mode and fan speed remotely.
- Control your system using Voice Command via your Google or Amazon smart speaker device.
- Set up 'favourite' scenes and activate them with a single tap.
- Set your system to respond to the weather, you arriving home, calendar events + more**.
- Receive instant notifications and email updates**

*Requires MH-AC-WIFI-1 Wi-Fi adaptor (sold separately) for use with split systems.

**In conjunction with IFTTT and other apps (must be downloaded separately).

Some additional functions may not be available via AC Cloud Control app.

The system's On/Off timer, weekly timer and sleep timer are disabled if a Wi-Fi accessory is connected.

Similar functions can be set via the AC Cloud App.

Controlling your device with AC Cloud Control app requires aforementioned Wi-Fi adaptors and working internet or Wi-Fi connection. Google Account required for use with Google devices. Features and services may change without notice. Google is a trademark of Google LLC.

Wi-Fi Solution

VOICE COMMAND CONTROL

Your MHI air-conditioner can now be connected with any Alexa-enabled or Google Assistant voice control device. Turn your air-conditioner on or off, change the operation mode or set the temperature using just your voice!

SMART DEVICE CONTROL

Turn your unit on or check the temperature while you're out and about. Can't remember if you turned your air-conditioner off? Easily check and turn your unit off remotely using your smart device.

SMART HOME INTEGRATION

Tap into a universe of IFTTT (If This Then That) recipes and turn your MHI air-conditioner into a smart air-conditioner. IFTTT app allows to easily connect your air-conditioner to 3rd party applications, services and devices including Gmail, Calendars, Weather, smartwatches plus thousands more, giving your unit advanced, smart functionality.

PRODUCT COMPATIBILITY

The models below require a compatible Wi-Fi adaptor to be controlled via a smart device or a device with voice command technology. The Wi-Fi adaptor is sold separately and can be installed during the installation of your new MHI air-conditioner or retrofitted to work with your existing MHI system.

Ö	Weekly Timer	Set up to 4 timer operations a day (max 28 per week). Once set, the unit will turn on and off at the specified times of the day repeatedly.		•	•	•	•		•	•
Ö	Sleep Timer	Set a pre-determined amount of time between 30 and 240 mins that your unit will operate for before switching off.	•	•	•	•	•	•	•	•
Ö	On/Off Timer	Set your unit to turn on and off once, at specific times, within a 24 hour period. Unit will then turn on and off at the specified times every day.	•	•	•	•	•	•	•	•
	Preset Operation	The desired preset operation mode can be enabled with a single touch of a button.	•	•	•			•	•	•
8	Child Lock	Lock the remote control to prevent little ones from changing functions and other settings. Useful for families with curious young children.	•	•	•	•	•	•	•	•
	LED Brightness Adjustment	Adjust the brightness of the LED display on the indoor unit to minimise disturbance and ensure a good nights sleep.	•	•	•					
	Motion Sensor	Automatically adjusts the set temperature based on human activity detected in the room. Switches the unit off when no activity is detected to save energy.			•					
Q _O	Auto Operation	The unit will automatically select from heating, cooling or dry operation mode.		•	•	•	•	•	•	•
	Fireplace Function	By continuing to operate the indoor fan when the room temperature is stabilized, the warm air accumulated in the ceiling is circulated around the room.								
	Microcomputer -Operated Defrosting	Automatically activated during low ambient temperatures to prevent the frosting of the outdoor heat exchanger.			•	•			•	•
─\\ -	Self- Diagnostic Function	In the unlikely event of a fault the internal mi- crocomputer automatically runs a diagnostic of the system. This enables a service agent to quickly isolate and repair any issues.	•	•	•	•	•	•	•	•
	Back-up Switch	If the remote control fails, the unit can be operated via an on/off switch on the indoor unit.	•	•	•	•	•		•	
	Auto Restart Function	If there is a temporary loss of power, the unit will automatically restart in the same operating mode it was in when power is restored.		•	•	•	•	•	•	•
	Removable Cover Panel	Removable front cover allowing access for easy maintenance and cleaning.		•		•	•		•
