

# Playscale Tarot Cards

## Instructions:

1. Print out double-sided PDF (front and back of the paper).
2. Cut between the edges of the cards on this side of the PDF, leaving a small white border on all sides of the card. (The reverse side has an extra margin to allow for imperfect double-sided printing and cutting.)
3. (Optional) Cut off a tiny portion of the corner of each card to round the edges.

I'd love to see any projects you make with this printable!
