

AURALITE-23 PROPERTIES

Auralite-23 Crystal also known as Auralite 23, Auralite Amethyst or Kindred Spirit Crystal. It is also called “A New Stone of the New Consciousness” because of its high frequency and abundance of metaphysical properties. This unusual and attractive crystal contains many silicate minerals and metals. Coloring is primarily translucent assortment of purple, gray, clear, orange, red (the red tips are from iron which is more visible in larger crystals).

A great addition to the original Auralite-23 crystal is the latest discovery of Emerald Auralite Crystal. This crystal emanates powerful green healing energy. The name Emerald Auralite was derived from its unique color green (aka Prasiolite) which is rare to find naturally. Emerald Auralite crystal’s unique green shade is caused by the presence of the element Thorium.

Auralite-23 crystal is great to use for Code Clearing, DNA Healing and Cellular Activation. It is the Stone of Awakening on every level! The metaphysical properties of natural crystal combinations like the Super 7 are taken to another level with this new find from Northern Canada. Auralite-23 crystal is part of the Sacred Geometry of the Earth’s Core and the New as One Light frequencies.

Auralite-23 crystals are about 1.2 – 2 billion years old, having been formed during the Meso-proterozoic Age at the time when multicellular creatures first emerged and began to flourish. It has been suggested that meteoric impacts during this time brought rare metallic ores to the surface, where they eventually dissolved and were incorporated into the structure of the growing Amethyst crystal now called Auralite.

It is believed that Auralite-23 found in Thunder Bay is not radioactive. All Auralite-23 Crystals that we distribute come from the Boreal Forest in Thunder Bay in northwestern Ontario, Canada.
