### Flip-Up Snap-In Info Strip

Scan codes through the clear facing. Hold and protect data tickets, UPC inserts or signs. Change labels with easy side or top insertion/removal. Integrated hinge allows the strip to flip up for easy access to inventory below and then return to its original position.

- Accepts labels up to 3-1/2" high
- Designed to fit common 48" long shelves
- Snap fits into common 1-1/4" height shelf price channels
- Custom lengths and additional back colors available
- PVC material

### Label Holder For Cooler/Freezer Shelf Channel

Hold and protect data tickets, UPC inserts or signs on common cooler/freezer shelving, as well as common "C" channel shelving fronts. Scan codes through the clear window. Change labels with easy side or top insertion/removal. As an added bonus, gripper fins along the top edge allow secondary signs or advertisements to be held outside the window.

- Snaps into most cooler/freezer shelving
- Also fits common 1-1/4" shelf channels
- Custom lengths and additional back colors available
- PVC material

### Angled Tag Molding

Display price tags or signs on an angle for improved visibility. Hold and protect data tickets, UPC inserts or signs over wire fencing, product stops or glass shelves. Scan codes through the clear facing. Change labels with easy side or top insertion/removal.

- Angles tags upward or downward for improved visibility
- Clips over horizontal or vertical wire fencing, product stops or glass shelves
- Custom lengths and colors available - please inquire
- Heavy-gauge PVC

### Snap-Shut Label Holder For Scan Hook

Durable label holder for peg hooks with scan hooks. Face snaps open and shut, holding and protecting labels and tags. Scan codes through the clear facing, or stick adhesive labels to the front. Clips onto hook, preventing movement via a self-centering hole. Removable and reusable.

- Makes an audible "click" when face snaps shut properly
- Fits common 4 gauge (.212" to .225" diameter) scan hooks
- For adhesive labels or non-adhesive tags
- Custom lengths available
- Clear PVC material

ITEM #	WIRE SIZE	HEIGHT	LENGTH	COLOR

### Tapered Display Hooks With T-Scan Bar

A popular corrugated display hook having a "T" style front, allowing the attachment of flip-up label holders (sold separately). Add pricing or advertisements above merchandise with little cost. Tapered back design is stable and installs easily. Strong plastic material adds strength so hooks resist sagging. Works with a variety of product hole styles.

- T-scan front is .187" diameter x 1-1/2" wide
- .141" wide x .219" height stem
- Fits 1/8" (B-Flute) corrugated having "T" slots for insertion
- Other lengths or colors available - please inquire
- White glass filled nylon material

## Magnetic Shelf System – Front Fence

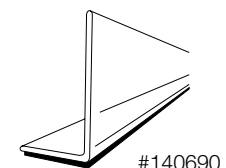

Durable, non-adhesive front fences keep products organized on the shelf. Front fences provide a quick and easy way to display merchandise. Unlike adhesive styles, magnetic front fences are easily removed or repositioned. Shelf management made easy.

- 1" wide "L" base with attached magnetic tape
- Clear construction ensures visibility of merchandise
- #140703 is dual purpose, featuring both magnetic tape and eight .250" slotted holes for optional attachment with shelf fasteners (sold separately)
- Other sizes and base colors available - please inquire
- Clear PVC material

### Channel Mount Swivel Gripper

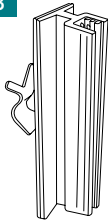

Durable base mounts into standard "C" channels using an integrated screw. Gripper fins hold signs firmly in vertical (flag) position. Gripper can be angled upward or downward for optimal viewing. The base's swivel-spring feature is great for mounting signs in high-traffic areas - sign returns to original position when bumped. Removable and reusable.

- 1-3/4" wide steel base mounts securely into standard price channels
- Device extends approximately 2" out from shelf, not counting the attached gripper
- Grippers are 3" long x 3/4" wide, made of clear PVC material
- Base is zinc-plated steel and durable plastic

ITEM #	GRIP CAPACITY	COLOR
150903B	up to .100"	Black
150904B	.100" to .250"	Black

Page 83

### Slatwall Gripper Sign Holder

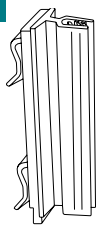

Base fits into standard slatwall. Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders for large blade signs. Hinged style is great for mounting signs in high-traffic areas - flexible hinge swings and returns to original position when bumped.

- Comes unassembled for easy installation into standard slatwall
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC
- Base is natural polypropylene

ITEM #	STYLE	GRIP CAPACITY
106461	With Hinge	up to .100"
106462	With Hinge	.100" to .250"
106463	No Hinge	up to .100"
106464	No Hinge	.100" to .250"

Page 84

### Warehouse Upright Sign Holder For Square Holes

Attaches into most warehouse uprights that have square holes, and can be repositioned easily. Gripper fins hold signs firmly in vertical (flag) position. Hinged style option is great for mounting signs in high-traffic areas - flexible hinge swings and returns to original position when bumped. Use two or more holders to support large blade signs.

- Adds aisle or promotional signs to square-hole warehouse uprights
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of white ABS material

ITEM #	STYLE	GRIP CAPACITY
106231	With Hinge	up to .100"
106232	With Hinge	.100" to .250"
106233	No Hinge	up to .100"

## Upward Shelf-Top Adhesive Sign Holder – Metal

Display various signs above standard perforated shelves. Unlike Kinter's other shelf-top sign holders, this product is designed to rise above the shelf rather than hanging below. Simply peel and stick your message to the 2" x 3" adhesive face. Use two or more holders for larger signs.

- Signs stand above the shelf
- Slide-on face is made from clear PVC with peel-off foam adhesive
- Base is made of beige painted steel material

### Spring Clip-On Track Sign Holder

One-track or two-track sign holder is supported by a durable spring clip, allowing attachment to multiple fixtures. Clip is lined with anti-slip coating and securely grips thicker items. Knuckling swivel system allows for display at optimal angles. Friction-fit slots support additional signage (details below).

- Combine promotional and pricing information
- #150319B features one track that accepts 1-1/4" height signs, with a friction-fit slot on top for additional signage to rise above
- #150318B features two tracks that accept 1-1/4" and 2-1/4" height signs, with friction-fit slots on the top and bottom for additional signage to rise above or hang below
- Spring clip has a maximum grip of 1" dia.
- Custom lengths, custom tracks and custom colors available
- Black plastic and black PVC material

## Track Sign Holders With Ratcheting Heads

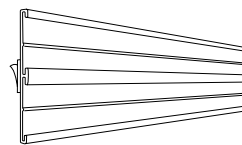

Various bases hold our full line of single-track or multi-track sign channels, ideal for grocery stores and produce sections. These sturdy bases have ratcheting heads, allowing signage to tilt to optimal viewing angles. Kinter can cut our track sign channels (sold separately – see page 27) to custom lengths to connect to these bases - please call for details.

- Unlimited creativity to combine promotional and pricing information
- #150409B features a 3" dia. heavy-duty magnetic base, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150412B features a 3" wide x 11" long angled / sloping base for refrigerator cases, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150413B features a shovel base that fits over table edges (1.350" maximum thickness) with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150414B features a 4" x 3-1/2" flat base, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150420B features a "hitchhiker" thumb clamp that grips various objects up to 1-1/2" thick, with an overall height of 6" and a fixed stem that rotates 360 degrees
- Custom track channels and custom colors available
- Black steel and black plastic material

## Clear UPC Tag Holder

An economical way to hang 1-1/4" height data tickets, UPC inserts or signs so that they are clearly visible from wire shelves, fixtures or baskets. Each holder includes one of three common hanging options: Plastic Overlap Rings, Spiral Rings or 4" long Cable Ties (Locking Straps). Unique reversible design allows for open-face or covered tag protection, and/or the ability to stick adhesive labels to the back.

- Clear tag holder is 3-1/2" long x 1-3/4" overall height
- White overlap ring is our #101027 (3/4" I.D. x 1" O.D.)
- Clear spiral ring is our #101026C (11/16" I.D. x 13/16" O.D.)
- Natural cable tie is our #130500 (.094" wide x 4" long)
- Custom lengths and colors also available
- Tag holder is clear butyrate material
- Parts come unassembled
- Packaged 100 tag holders and 200 rings/ties per bag

ITEM #	LENGTH	HANGING OPTION INCLUDED

#108102 #108812

### Info Strip Gripper Flag Sign Holder

Clips securely onto the face of most thin backer, economy style info strips such as our shorter height Self-Adhesive Info Strips (see page 24). Gripper fins hold sign firmly in vertical (flag) position. Two styles to choose from: Standard holds signs at a slightly upward angle (i.e. parallel to the angled shelf channel) and Angled (**Patented**) which holds signs parallel to the floor. Both parts are removable and reusable.

- 1-1/2" long x 3/4" wide x 9/16" height
- Gripper fins hold signs up to .080" thick
- Clear PVC material

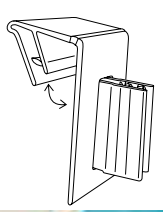

#108102

#108812

ITEM #	STYLE	SIGN POSITION
108102	Standard	Flag
108812	Angled	Flag

### Info Strip Hinged Angled Style Universal Flag Sign Holder

Clips securely onto the face of a wide variety of both thin and thick backer info strip sign holders, such as our Flip-Up Covered Face Sign Holder (see page 28) and our Below Shelf Sign Holder (see page 29). Unlike our other common hinged style flag sign holders, this unique "angled" style is specifically designed to hold signs more parallel to the floor rather than slightly upward. Built-in hinge function flips the sign up when scanning or restocking shelves (**Patent Pending**). Gripper fins hold signs firmly in vertical (flag) position. Part is removable and reusable.

- Integrated hinge and extended support joins gripper to a 1/2" long shelf attachment strip
- Gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	LENGTH	WIDTH	HEIGHT	SIGN POSITION
108898	1-1/2"	3/4"	9/16"	Flag

### Info Strip Hinged Gripper Flag Sign Holder

Clips securely onto the face of most thin backer, economy style info strips such as our shorter height Self-Adhesive Info Strips (see page 24). Built-in hinge function flips the sign up when scanning or restocking shelves. Gripper fins hold sign firmly in vertical (flag) position. Part is removable and reusable.

- Gripper fins hold signs up to .080" thick
- Integrated hinge joins gripper to a 1/2" long self attachment strip
- Clear PVC material

### Economy Info Strip Flush Sign Holder

Our most economical flush ticket and sign holder. "U" style with reverse angle gripper fins that clip directly onto the window face of thin style info strips. Part is removable and reusable.

- Gripper fins hold signs up to .080" thick
- Designed to fit most thin info strip label holders in horizontal (flush) position
- Clear PVC material

ITEM #	LENGTH	HEIGHT	SIGN POSITION
108503	1-1/2"	1/2"	Flush

### Hinged "U" Channel Gripper Sign Holder

Double grippers clip securely onto common shelf info strips. Built-in hinge flips up the sign when shopping or restocking shelves. Gripper fins hold sign firmly in flush position. Removable and reusable.

- Double "U" style
- One side fits most info strip label holders
- Other side holds signs up to .080. thick
- Clear PVC material
- Packaged 100 per bag

ITEM #	LENGTH	HEIGHT	SIGN POSITION
108981	2"	3/8"	Flush

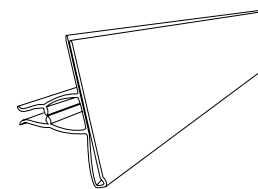

### Info Strip Label Holder For Multiple Scan Hooks

An easy and economical way to create a continuous price channel across rows of metal peg hooks. Scan codes through the clear facing or stick adhesive labels to the front. Hold and protect data tickets, UPC inserts or signs on the fronts of common metal peg hooks with bent wire scan hook arms. Change labels with easy side or top insertion/removal.

- For adhesive labels or non-adhesive tags
- Designed to lock onto common .177" through .250" diameter wire hooks with scan hook fronts
- Custom lengths and back colors available – please inquire
- Clear PVC material

### Gripper Flip-Up Info Strip Label Holder For Scan Hooks

An easy and economical way to create a continuous price channel across rows of metal peg hooks. Scan codes through the clear facing or stick adhesive labels to the front. Hold and protect data tickets, UPC inserts or signs on the fronts of common metal peg hooks with bent wire scan arms. Change labels with easy side or top insertion/removal. Integrated hinge allows the strip to flip up for easy access to inventory below and then return to its original position. As an added bonus, gripper fins along the top edge allow thin signs or advertisements to be held on the outside of the window, thus eliminating the need for additional clips.

- For adhesive labels or non-adhesive tags
- Designed to lock onto common .177" through .250" diameter wire hooks
- Custom lengths and back colors also available – please inquire
- Clear PVC material
- Packaged 10 per box

## Corrugated Universal Display Hooks

A very popular corrugated display hook that is both economical and simple to insert. One piece, double back prong design that is strong and extremely stable. Unlike other round two prong designs that require pre-punched holes or T-slots for insertion, our line of universal hooks work with simple X-cuts (X-slits). Strong plastic material also adds strength so hooks resist sagging. Works with a large variety of product hole styles and has ridges to keep merchandise up front.

- .141" wide x .219" height stem with integrated ridges
- 1-1/4" wide x 1" height face plate with two upward facing prongs
- Fits 1/8" (B-Flute) corrugated having 1" on center X-cuts for insertion
- Not for use with pegboard or slatwall
- Other lengths or colors available – please inquire
- White glass filled nylon material

### Pin-Up Hook

Designed to securely hang displays such as wire baskets directly to pegboard and slatwall. Economical solution for hanging single items such as picture frames, clocks or crafts. Otherwise known as "pin-up hooks" or "clock hooks." Integrated center hole allows for additional mounting options. Removable and reusable.

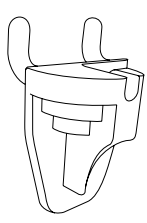

- Back prongs are 1" on center
- Fits both standard 1/4" diameter pegboard and common slatwall
- Center hole is 1/4" diameter
- "J" style hook extends 3/8" outward and 3/8" upward
- .060" thick zinc plated steel
- Packaged 100 per bag

ITEM #	WIDTH	LENGTH
109511	1-1/8"	1-1/4"

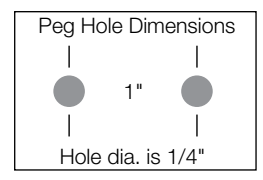

### Speedy-Back Adapter For Straight Entry Metal Hook

Insert or move metal peg hooks without disrupting nearby merchandise with this simple, sturdy plastic adapter. Flush mount back plate connector that is used to place and support metal peg hooks into 1 inch on center pegboard or standard slatwall. Makes for convenient installation, removal and relocation under shelves or loaded displays. Also compatible with .212" diameter aisle sign arm hangers (see page 106). Removable and reusable.

- Easy to install and works with common .186" and .212" wire diameter straight entry metal peg hooks
- Completely compatible with other manufacturers' metal hooks and planograms
- Color coded to front wire diameter for ease of use
- Two prongs 1" on center and having 5/8" height
- 1-5/8" length x 1-5/16" wide and ribbed for added support
- Glass filled nylon material
- Packaged 100 per bag

ITEM #	WIRE GAUGE	TYPE	COLOR
107737	.186" dia. (7 ga.)	Medium-Duty	Beige
107734	.212" dia. (4 ga.)	Heavy-Duty	Gray

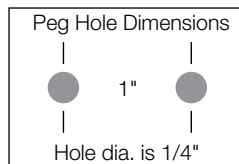

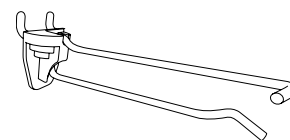

## Speedy-Back Metal Peg Hook With Scan Hook

Extremely popular metal peg hook that comes complete with our reinforced Speedy-Back Plastic Adapter. For use in common 1 inch on center pegboard or standard slatwall that displays both product and pricing information. Simply hang the Speedy-Back Adapter in place and then attach the metal hook from a straight entryway – thus no need to disrupt nearby merchandise. Straight entryway with adapter makes for convenient installation, removal and relocation under shelves or on loaded displays. Right angle scan hook in front accepts our Info Strip Label Holders For Scan Hooks (sold separately – see page 38).

- Speedy-Back Adapters are compatible with other manufacturers' metal hooks
- Labor-saving two-piece design
- Use with a variety of package hole styles
- Bottom hook is "downturn" style for added safety
- Additional Speedy-Back Adapters available (see page 48)
- Peg Hook Product Stops available (see page 52)
- Speedy-Back Adapters are made of strong, glass filled nylon
- Hooks are zinc plated steel material
- Other sizes and finishes available – please inquire
- Packaged 25 metal hooks and 25 plastic adapters per bag, unassembled

## Round Inventory Control Unit

Inexpensive back stop clip that keeps merchandise faced forward on most sizes/styles of plastic and metal hooks giving a full stock appearance. Unlike plastic inventory control units, flexible vinyl will not become brittle with the potential to crack or break over time. Easily friction fits around hook and slides forward for perfect placement. No need to remove merchandise – simply slide over hooks.

- .300" thick
- Slotted side opening
- Works with most peg and slatwall hooks
- Can be used as an inventory control unit or a product stop
- Flexible vinyl material
- Custom colors available

### Peg Hook Anti-Theft Lock & Key

Save money by deterring theft of pegged merchandise. Secure stop lock that easily attaches to common metal stem style hooks. Bright color provides notice to customers that product is locked and protected. Controlling inventory is quick and easy with magnetic detacher key.

- To install, simply open the hinged lock, place lock around the hook, and snap shut
- Lock works with our metal display hooks having stem diameters of 7 gauge (.177" to .187" diameter) to 4 gauge (.212" to .225" diameter)
- Magnetic key must be used to detach stop locks
- Locks measure 3/4" wide x 1/2" diameter x 1-1/2" long and are plastic
- Key measures 3/4" dia. x 2" long with 7/8" dia. tapered screw cap and has a built-in keychain
- Packaged as shown below

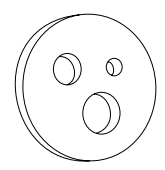

ITEM #	STYLE	COLOR	PACKAGED
109526	Stop Lock	Red	25 per bag
<b>NEW</b> 109526B	Stop Lock	Black	25 per bag
109527	Magnetic Key	Silver	1 per bag

### Peg Hook Product Stop

Inexpensive, triple-hole size, product back stop that keeps merchandise faced forward on most sizes/ styles of metal hooks – including hooks with safety ball tips. Gives a full stock appearance. Friction fits around a wide range of common metal hook gauges/diameters and slides forward for perfect placement. Unlike plastic inventory control units, rubber will not become brittle with the potential to crack or break over time.

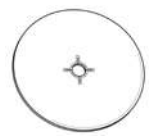

- Can be used both as an inventory control unit or a product stop
- Fits multiple hook sizes, from 9 gauge (.149" dia.) to 3 gauge (.250" dia.)
- 7/64" thick
- Black rubber material
- Packaged 250 per bag

ITEM #	O.D.	COLOR
107508B	15/16"	Black

### Display Hook Product Stop

Inexpensive stop that secures pre-loaded products onto all lengths of our plastic Corrugated Display Hooks (sold separately) during shipment. Flexible design that easily presses into place – attaches and detaches quickly.

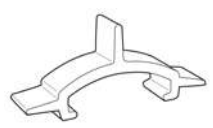

- .040" thick
- Round shape with a center cross-cut hole
- Natural low-density polyethylene material

### Butterfly Hook Product Stop

Inexpensive stop that secures pre-loaded products onto all lengths of our plastic Butterfly Display Hooks (sold separately) during shipment. Flexible design that easily snaps into place – attaches and detaches quickly.

- Flexible butterfly shape
- Black PVC material

ITEM #	DIMENSIONS
107503	1-1/4" Wide x 1/4" Long

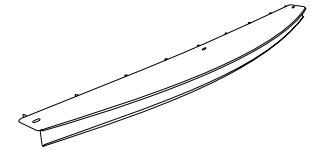

## Serpentine Metal Shelf Extender

Mounts on existing shelf to extend merchandise area to capture customers' attention. Place merchandising emphasis on a single shelf or shelving section. Nine evenly spaced integrated tab inserts (prongs) securely mount into most standard shelf perforations, round or diamond. Three integrated 1/4" diameter slotted holes can be used in conjunction with plastic push-in shelf fasteners (sold separately) for a more permanent fit. 1-1/4" height "C" channel front accepts UPC inserts, tags, signs and common plastic and metal sign holding clips.

- Adds extra merchandising space in a dramatic curved fashion
- Extends approximately 3" from the shelf at the center crown
- No tools required
- Beige painted steel material
- 4 pieces per box
- Sold in full boxes only

## Metal Adjustable Shelf Extender

Mounts on existing shelf to extend merchandising area to capture customers' attention. Four integrated tab inserts securely mount into most standard shelf perforations, round or diamond. Built-in 9/32" diameter holes can be used in conjunction with plastic perf shelf fasteners (sold separately) for a more permanent fit.

- Adds extra merchandising space
- Extends 3-1/2" into aisle with wrap-around 3/4" lip height
- Assembled thumb screws (included) adjust shelf to desired width
- No tools required
- Beige painted steel material

## Beverage Shelf Extender

Easily mounts on existing shelf so as to extend bottled beverage merchandising and capture customer attention. Two durable wire tab inserts mount into most standard shelf perforations – round or diamond. Integrated bottom centered scan plate area can be used for attaching adhesive price tags, labels or advertisements.

- .140" wire diameter
- No tools required
- 3-1/2" inside diameter base that fits most wine bottles
- Extends into aisle approximately 4-3/8" with wrap around 3-1/4" basket height
- Scan plate is 1" height x 2" wide
- Black painted steel material
- Also available in other colors – please inquire

### Contoured Shelf Divider

Simple and inexpensive shelf management system that can be used to separate or hold products in place. Use in conjunction with our line of Contoured Low Profile Front Fences (sold separately) to organize nearly any product on flat shelving surfaces. Crystal clear divider that clips onto front fence and is easily repositioned with no need for shelving fasteners or installation tools.

- Shown with 7/16" height 90 degree low profile front fence
- Two lengths to choose from, both featuring 2 inch break-off segments to fit standard shelving
- Additional heights or lengths available – please inquire
- Clear high impact plastic material

### Contoured Magnetic Back Shelf Gripper

Optional part of a simple and inexpensive shelf management system that can be used to separate or hold products in place. Use in conjunction with the rear bottoms of our contoured shelf dividers (sold separately) to securely place and align product on flat shelving surfaces. Gripper fins combine with a strong, low-profile neodymium magnet for pinpoint placement that is not reliant on back shelf perforations, thus minimizing gaps and increasing the number of facings per shelf. Warning: Magnets should not be used near electronic equipment.

- Super strong and compact
- 5/8" height x 1" length x 1/2" width
- .125" to .187" grip capacity
- Clear PVC gripper attached to a nickel plated neodymium magnet

### Slim-Line Shelf Divider

A very economical, self-adhesive, shelf management system that is crystal clear. Dividers can be used to separate or hold products in place. Easy to install – just peel and stick to any clean, flat shelving surface. Can be cut with scissors to any length.

- Several common shelf depths offered, with radius corners
- 1" height with 7/16" wide base at a fixed 90 degree angle
- Special clear adhesive permits removal and repositioning
- Also available in optional 3" height having 20 mil. thickness – please inquire
- Custom lengths available
- 15 mil. thick, clear rigid PVC material

ITEM #	HEIGHT	LENGTH	FITS SHELF DEPTH

### Merchandising Strip With Removable Header

Great for hanging and displaying lightweight products one above the other. Versatile header sides are perforated and can easily be removed to form a straight retailer strip. Use in conjunction with our #108009 Perf Shelf "S" Hook (sold separately – see page 65) to hang from perforated store shelves or wire fixtures.

- Walmart® approved design
- 1-3/8" wide x .024" thick
- .250" diameter center hole at top of header
- Header label area measures 1-1/4" high x 2" wide when removable sides are left intact
- Perforations every 3 stations
- Natural high-density polyethylene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS

### Versa Merchandising Strip

Our most versatile merchandising strip that offers several built-in hanging/attachment options. Simply peel and stick, or combine with a plastic push-in fastener (sold separately – see pages 194-201) or metal "S" Hook (also sold separately – see page 66) for use on perforated store shelves, price channels or wire fixtures. Hang and display lightweight products one above the other.

- 1-11/16" wide x .024" thick
- Three evenly spaced .250" diameter holes at top of header
- Header has an optional use adhesive backed mounting area
- Header also has a tab area that can be snapped into standard 1-1/4" shelf price channels
- Natural high-density polyethylene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS
130201	23-5/8"	12 Stations

### Quick-Strip Molded Merchandising Strip

Our fastest loading merchandising strip, offering up to three times the speed. Great for hanging and displaying medium weight carded products one above the other. "Positive lock" finger feature holds pre-loaded merchandise securely during shipment. Injection molded design is stronger than conventional die-cut merchandising strips. Use in conjunction with our #108009 Perf Shelf "S" Hook (sold separately – see page 65) to hang from perforated store shelves or wire fixtures.

- Walmart® approved design without header label area
- 1-1/8" wide x .050" thick
- Top mounting area and bottom have a .250" diameter center hole
- Solid, full-length strip with no perforations
- Natural polypropylene

### Under-Shelf Hardware-Mount Merchandising Hanger

Great for hanging double-sided or heavier style merchandising strips extended into the aisle. The base fits the underside of most perforated shelves using the included zinc plated steel hardware (assembled wing nuts and screws); thus, no interference with product on shelves. Shown with our Heavy Duty "S" Hook #108000 (sold separately – see page 66).

- Extends 4-1/2" from shelf edge
- Built-in display plate accepts labels up to 2" height x 2" wide with a .266" hole size
- Includes two assembled 10-24 x 3/4" Phil/Slot combo truss head machine screws and 10-24 wing nuts
- Screws and wing nuts are zinc plated steel material
- Hanger is beige painted steel material

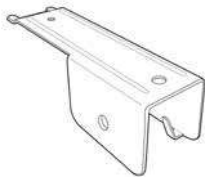

ITEM #	OVERALL LENGTH	HEIGHT
107117	6"	2-1/2"

### Double Merchandising Strip Hanger

Shelf top hanger that offers two ways to hang merchandising strips two at a time for double the exposure: with integrated hanger tabs, or via the side holes with common "S" Hooks (sold separately) and/or metal hook-style merchandising strips (also sold separately). Easily fits into most perforated shelf holes. Extends into the aisle to capture customers' attention. Metal offers more strength and durability than plastic or wire shelf top merchandising strip hangers. Removable and reusable.

- Holds any of our metal or plastic merchandising strips
- Top and both sides have .250" diameter centered holes
- 1-1/4" wide x 4-3/4" overall length shelf top plate
- Sides offer maximum label placement space of 1-5/16" H x 2" W
- Also available in black – please inquire
- 16 gauge (.060") thick metal

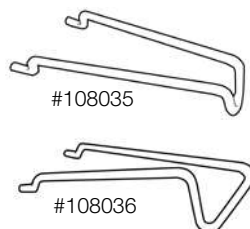

ITEM #	OVERALL LENGTH	FINISH
107121	4-3/4"	Zinc Plate
107122	4-3/4"	Painted Beige

### Shelf-Top Hook For Flag Or Flush Merchandising

Securely hang merchandising strips from most perforated metal shelf holes. Two styles to choose from: "flag" which holds strips perpendicular (vertical) to the shelf front, and "flush" which holds strips parallel (horizontal) to the shelf front. Unlike with common Perf Shelf "S" Hooks, there is no chance of merchandising strips becoming dislodged. Removable and reusable.

- .135" wire diameter
- Zinc plated steel

#108035

#108036

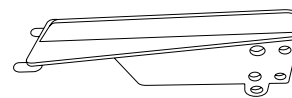

ITEM #	STYLE	OVERALL LENGTH
108035	Flag	3-1/2"
108036	Flush	4"

## Shelf-Top Merchandising Strip Hanger – Plastic

Shelf top hanger that fits easily into most perforated shelf holes and extends into the aisle to capture customers' attention. Compatible with our Heavy Duty "S" Hook and Double "S" Hook (sold separately – see page 66) to hang single or back-to-back merchandising strips as desired. Otherwise known as Tri-Barker 90 degree shelf bracket. Removable and reusable.

- Contains five holes for various hanging applications: Two holes at .203" and three holes at .266"
- Extends 4" from shelf via two integrated hanger tabs
- Includes maximum 1-3/8" high x 3-1/4" wide label area on both sides
- White glass filled nylon material

## Shelf-Top Swivel Merchandising Strip Hanger

Shelf-top hanger that offers a way to hang two merchandising strips back-to-back at one time for double the exposure via integrated hanger tabs. Fits easily into most perforated shelf holes. Extends into the aisle to capture customers' attention. Ingenious swivel action protects customers and products below. Removable and reusable.

- Holds any of our plastic merchandising strips
- Base fits both common round and diamond shaped perforated shelf holes at 1" on center
- Sides offer maximum label placement space of 1-3/8" height x 2-1/8" wide
- Holds up to 8 pounds
- Parts come unassembled
- White glass filled nylon material
- Packaged 100 bases and 100 merchandising hangers per bag

## Metal Shelf-Top Bracket

Easily fits into most perforated shelf holes. Hole in face plate is great for "S" Hook use when holding heavier product merchandising strips in flush position. Metal offers more strength and durability than plastic shelf-top brackets. Removable and reusable.

- 1-1/4" wide x 2-3/4" overall length shelf-top plate
- 90 degree, 3/4" wide x 15/16" long face plate
- 3/16" diameter bottom centered mounting hole
- 16 gauge (.060") thick metal, painted beige

### Magnetic Hooks

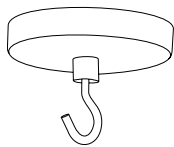

Display lightweight signs and products from metal surfaces. Also great for holding merchandising strips from metal surfaces. Magnets are easily placed and removed. Attaches well to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- All three sizes offered are 1-1/4" overall length
- Round magnet base with round metal housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
107030	1"	9 lbs.	.187"	Powder Coated White
107031	1-1/4"	14 lbs.	.187"	Powder Coated White
107032	2"	20 lbs.	.312"	Chrome Plated

### Extra Heavy-Duty Magnetic Hook

Our strongest magnetic hook, yet economical. Display signs and products from metal surfaces. Extremely strong for its 2" diameter size. Attaches to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power.

- 1-13/32" overall length
- Can serve as a permanent fixture or can be removed & repositioned
- Round magnetic base with chrome plated housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
109510	2"	50 lbs.	.250"	Chrome Plated

### Shelf Extender Clip

Use either of two ways to extend above or below shelf to mount a variety of signs, coupon books or lightweight displays. Hole is perfect for use with "S" Hooks (sold separately – see page 66) to hang Merchandising Strips (sold separately – see page 60-61).

- 1" long x 1-7/8" overall height
- Two styles: with 1/4" diameter hole or with 1" height adhesive face
- Fits all standard 1-1/4" shelf price channels/rails
- Also available in custom lengths
- White butyrate material

ITEM #	STYLE
107127	with 1/4" Hole
107128	with Adhesive

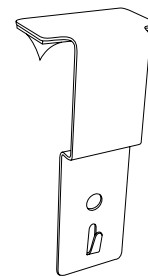

## Merchandising Strip Hanger For Cooler Door

Securely hang merchandising strips from most cooler or freezer doors. Provides an opportunity to cross-merchandise other items. Secured with integrated, high bond adhesive tape on the underside. Simply peel off the adhesive liner and stick to the top of any clean, smooth door surface. Integrated, small rubber pad helps prevent against scratching of glass.

- Includes hanger tab and 9/32" centered hole to hang strips or hooks
- Tape is high tack, acrylic based adhesive that reaches maximum strength within 24 hours
- 18 gauge (.048" thick) metal
- Bright chrome finish

### K-Ads® Billboard Suction Cup Sign Holder

K-Ads Billboards are the affordable way to create new revenue or advertise your product right on the cooler door. Cleans up cooler door clutter to better connect with shoppers. Be the only image in the customer's mind when they reach inside the cooler. Integrated high-quality **USA made** suction cups with unique reinforcing rings for added strength and long-term holding power. Mount to clean, non-porous surface for best results in either vertical (portrait) or horizontal (landscape) orientation.

**Patented.**

- Firmly installs in seconds with no tools required
- Overall frame size is 4-5/8" wide x either 7-1/4" or 14-1/4" overall length
- For use in cold or hot extremes
- Once the K-Ads Billboard frame is in place, ads can be inserted and changed with ease
- Graphic capacity is .025" maximum thickness card stock
- Comes fully assembled with inserted plastic protective ad cover
- 3-1/4" O.D. suction cups are clear UV resistant PVC material – won't yellow or become brittle
- Top and bottom caps are made of high-impact black plastic
- Available in either black PVC or black anodized aluminum material
- Other sizes and colors available – please inquire
- Sold in full boxes only at 10 pieces per

### Shelf-Top Gripper Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders from shelf to shelf for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most perforated shelves. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of ABS material

ITEM #	STYLE	GRIP CAPACITY	COLOR
106401	With Hinge	up to .100"	Beige
106401B	With Hinge	up to .100"	Black
106402	With Hinge	.100" to .250"	Beige
106402B	With Hinge	.100" to .250"	Black
106403	No Hinge	up to .100"	Beige
106403B	No Hinge	up to .100"	Black
106404	No Hinge	.100" to .250"	Beige
106404B	No Hinge	.100" to .250"	Black

### Shelf-Top Gripper Sign Holder – Metal

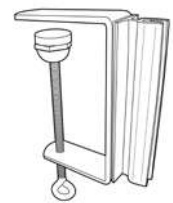

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders from shelf to shelf for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The metal base is designed for extra strength/durability and fits into most perforated shelves. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of beige painted steel material

ITEM #	STYLE	GRIP CAPACITY

106802	With Hinge	.100" to .250"
106803	No Hinge	up to .100"
106804	No Hinge	.100" to .250"

### "C" Clamp Gripper Aisle Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Universal "C" clamp design can be used on square edges of shelves, fixtures or just about anywhere throughout the store. Use two or more holders from shelf to shelf for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. Removable and reusable. Pre-assembled black plastic crutch-tipped screw eye design. **Patented & Patent Pending.**

No assembly required. Unlike our competition, our design allows the sign to be aligned closer to the shelf edge, providing a cleaner look and less chance of being bumped.

- Fits shelves or other fixtures up to 2-1/2" thick
- 3" height x 3/4" wide x 2" deep "C" clamp size with two 3/16" dia. mounting holes
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of steel with zinc plate

ITEM #	STYLE	GRIP CAPACITY
106931	With Hinge	up to .100"
106932	With Hinge	.100" to .250"
106933	No Hinge	up to .100"
106934	No Hinge	.100" to .250"

## Channel Mount Gripper Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders from shelf to shelf for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most standard 1-1/4" shelf price channels with the turn of an attached Phillips/slotted combo pan head screw. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Also available with thumb screw (please inquire)
- Base is made of beige ABS material

## Channel Mount Swivel Gripper

Durable base mounts into standard "C" channels using an integrated screw. Gripper fins hold signs firmly in vertical (flag) position. Gripper can be angled upward or downward for optimal viewing. The base's swivel-spring feature is great for mounting signs in high-traffic areas - sign returns to original position when bumped. Removable and reusable.

- 1-3/4" wide steel base mounts securely into standard price channels
- Device extends approximately 2" out from shelf, not counting the attached gripper
- Grippers are 3" long x 3/4" wide, made of clear PVC material
- Base is zinc-plated steel and durable plastic

### Magnetic Shelf-Top Gripper Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Great for mounting signs directly off the tops of metal shelves or gondolas without the need for adhesive. Use two holders facing each other to hold blade signs directly off the sides or tops of gondolas either vertically or horizontally. Hinged style option is great for mounting signs in high traffic areas - flexible hinge swings and returns to original position when bumped. Removable and reusable. No assembly required. **Patented & Patent Pending.**

**Warning:** Magnets should not be used near electronic equipment.

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of white ABS material

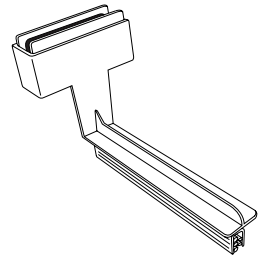

ITEM #	STYLE	GRIP CAPACITY
106781	With Hinge	up to .100"
106782	With Hinge	.100" to .250"
106783	No Hinge	up to .100"
106784	No Hinge	.100" to .250"

### Magnetic Under-Shelf Gripper Sign Holder – L-Style

Gripper fins hold signs firmly in horizontal position. The magnetic base mounts underneath the shelf and is designed to add shelf edge signs from below – thus not interfering with product on shelves. Integrated, heavy duty magnet attaches to any metal surface, including the underside of perforated shelves. Removable and reusable. No assembly required. Optional flexible hinge on sign gripper swings and returns to original position when bumped in high-traffic areas. **Patent Pending.**

**Warning:** Magnets should not be used near electronic equipment.

- Grippers are 4" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of beige ABS material

### Warehouse Upright Gripper Sign Holder

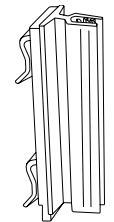

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most teardrop shaped holes (not square or round holes) found on standard warehouse uprights. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of white ABS material

ITEM #	STYLE	GRIP CAPACITY

### Warehouse Upright Sign Holder For Square Holes

Attaches into most warehouse uprights that have square holes, and can be repositioned easily. Gripper fins hold signs firmly in vertical (flag) position. Hinged style option is great for mounting signs in high-traffic areas - flexible hinge swings and returns to original position when bumped. Use two or more holders to support large blade signs.

- Adds aisle or promotional signs to square-hole warehouse uprights
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of white ABS material

106234	No Hinge	.100" to .250"

### Warehouse Upright Gripper Sign Holder – Canadian

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most rectangular and teardrop shaped holes (not square or round holes) that are 3" on center. 3" on center holes are common in Canada and not in other North American regions where 2" on center holes are predominant. Removable and reusable. **Patented & Patent Pending:** Unlike our competition, the gripper is permanently attached to the base adapter; thus, there is no chance of dislodgement and no assembly is required.

- Grippers are 4" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Integrated adhesive/glue attached base
- Base is made of white ABS material

## Gripper Gondola Upright Header

Create a durable header system with little cost and maximum visibility. Gripper fins firmly hold rigid signs up to 16 inches tall in header “flush” position. The attached base is designed to fit into most standard gondola uprights. Use two sign holder ends per graphic – a left end and a right end (sold separately). Use a center sign holder to join in-line graphics that are great for eye-catching product and category branding. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- End connectors are not reversible and are sold separately
- Four standard gripper lengths to choose from
- All grippers are 1-1/8" wide
- Grippers are made of clear PVC material
- Grippers are also available in black, white or others colors and/or lengths – please inquire
- Integrated adhesive/glue attached base
- Base is made of white ABS material

## Channel Mount Arrow Fastener

Flexible arrow tip deflects when pushed into hole then springs back as a clip that resists removal. Ideal for take-one promotions. Inexpensive way to display coupon pads, books or signs. Base without adhesive securely snaps into standard 1-1/4" shelf price channels. Base with adhesive adds extra strength when pressed into shelf price channel, or can also be used on any clean, flat surface.

- Base is .500" wide x 1.200" long
- Available with or without adhesive
- Fits 1-1/4" shelf price channels
- Required hole size is 1/4" to 9/32" diameter
- Natural polypropylene material
- Packaged as shown below

## Flip-Up Double Wire Shelf Info Strip With "C" Channel

A simple way to add pricing or advertisements to most cooler shelves that have parallel front facing cross wires. Scan codes through the clear channel. Hold and protect data tickets, UPC inserts or signs. Change labels with easy side or top insertion/removal. Integrated hinge allows the strip to flip up for easy access to inventory below and then return to its original position. As an added bonus, there is an open face "C" channel front that allows for dual-purposing of insert strip advertisements.

- Snaps onto the front of common 7/8" height freezer/cooler double wire shelves
- Holds common 1-1/4" height tags both behind the clear facing or within the "C" channel
- Custom lengths available – please inquire
- PVC material

### Channel Mount With Adhesive

Securely mounts a variety of signs, coupon books/boxes or lightweight displays to shelf price channels. Also known as Advertiser Rail Clips.

- 1-1/4" height, with 1" height adhesive
- Extends approximately 1/2" from shelf
- Also available in custom lengths
- Fits standard 1-1/4" shelf price channels
- Clear PVC material

ITEM #	LENGTH	STYLE
107123	1"	Flush With Adhesive
107124	2"	Flush With Adhesive

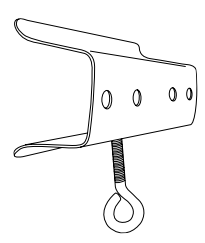

### Shelf Channel Adapter With Screw

Securely mounts to a variety of signs, coupon books/boxes or lightweight displays to shelf price channels. Integrated screw design provides a secure fit directly into price channels with the turn of an attached Phillips/slotted combo pan head metal screw. Dual 3/16" round and slotted holes located behind the adhesive offer additional mounting options such as 3/16" pop rivets.

- 7/8" face height, with 3/4" height adhesive
- Extends approximately 7/8" from shelf
- Fits standard 1-1/4" shelf price channels
- Beige ABS material

ITEM #	LENGTH	STYLE
107181	2-1/2"	Flush With Adhesive

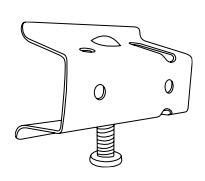

### Metal Shelf Channel Adapter With Screw

Stronger than common extruded or injection molded shelf channel adapters. Securely mounts to a variety of heavier signs, acrylic boxes or literature holders to shelf price channels. Integrated thumb screw design requires no tools while providing a secure fit. Four evenly placed face plate holes offer numerous mounting options such as screws or 3/16" pop rivets. Removable and reusable.

- 7/8" face height with four 3/16" diameter holes
- Extends approximately 1" from shelf
- Fits standard 1-1/4" shelf price channels
- Assembled eye screw is 10-24 x 1-1/2" long, zinc plated steel
- Spring steel material with zinc plate

ITEM #	LENGTH	STYLE
107180	3"	Flush With Mounting Holes

### Metal Mini Shelf Channel Adapter With Screw

A smaller but sturdy version of our Metal Shelf Channel Adapter With Screw (see above). Stronger than common extruded or injection molded shelf channel adapters. Securely mounts to a variety of heavier signs, acrylic boxes or literature holders to shelf price channels. Integrated Phillips screw design provides a secure fit. Two 9/64" face plate holes are 1" on center and offer numerous mounting options such as screws or 1/8" pop rivets. Also features a 1/4" wide slotted top and bottom hole that can be used with our Metal Merchandising Strips (see page 61). Removable and reusable.

- 5/8" face height with two 9/64" diameter holes
- Extends approximately 7/8" from shelf
- Fits standard 1-1/4" shelf price channels
- Assembled screw is 10-24 x 1" long, zinc plated steel
- Spring steel material with zinc plate

ITEM #	LENGTH	STYLE
107154	1-3/4"	Flush With Mounting Holes

### Slim-Line Dual Mount Sign Protector

Very economical flush-position sign protector. Flexible and crystal clear. Securely mounts to most standard shelf price channels directly at the edge of the shelf, and in a tilted viewing angle that does not block or interfere with the products on the shelf. Centered mounting strip insures your signage will be centered both above and below the shelf. Can also be inserted securely into the face of a wide variety of both thin and thick backed info strip sign holders.

- Fits standard 1-1/4" shelf price channels
- Custom lengths also available
- 15 mil thick, clear rigid PVC material

### Slim-Line Oversized Sign Protector

Unlike our traditional line of flush-position Slim-Line Sign Protectors, this "oversized" style is designed to hang perpendicular to the shelf top and not to slant or tilt. Securely mounts to most standard shelf price channels directly at the edge of the shelf. As an added feature, the integrated snap-fit mounting strip ensures your signs rise a bit above the shelf to attract attention. Flexible and crystal clear.

- Fits standard 1-1/4" shelf price channels
- Each print protector width is approximately 3/16" wider than the actual recommended sign size shown below
- Custom sizes and lengths also available – please inquire
- 15 mil thick, clear PVC material
- Packed 25 per bag

### Economy Covered-Face Center Mount Sign Holder

Economically holds and protects signs or UPC inserts on most standard shelf price channels directly at the edge of the shelf while at a tilted viewing angel. Centered, snap-fit mounting strip insures your signage will be located both above and below the shelf. Scan codes through the flexible clear facing. Change signs with easy side insertion/removal. Extruded design that is both thicker and more durable than common heat bent protectors.

- Holds common 3-1/2" height x 5-1/2" long signs
- Snap fits into most standard 1-1/4" height shelf price channels
- Custom lengths available - please inquire
- Clear PVC material

ITEM #	HEIGHT	LENGTH	SIGN POSITION

### Multi-Mount Covered-Face Sign Holder

A single solution for at least three uses throughout the store. Attaches to most 1-1/4" height shelf channels, wire fixtures up to .375" diameter and panels of .080" to .250" thick. Signs and literature are held firmly, protected behind the clear facing. Removable and reusable.

- 40 mil thick
- Clear rigid PVC material
- Custom lengths and sizes available - please inquire

ITEM #	HEIGHT	LENGTH
150153	3-1/2"	5-1/2"

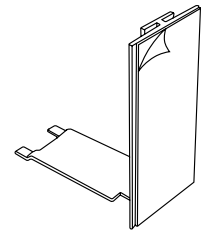

## Upward Shelf-Top Adhesive Sign Holder – Metal

NEW

Display various signs above standard perforated shelves. Unlike Kinter's other shelf-top sign holders, this product is designed to rise above the shelf rather than hanging below. Simply peel and stick your message to the 2" x 3" adhesive face. Use two or more holders for larger signs.

- Signs stand above the shelf
- Slide-on face is made from clear PVC with peel-off foam adhesive
- Base is made of beige painted steel material

for Retail Environments

for Warehouse Environments

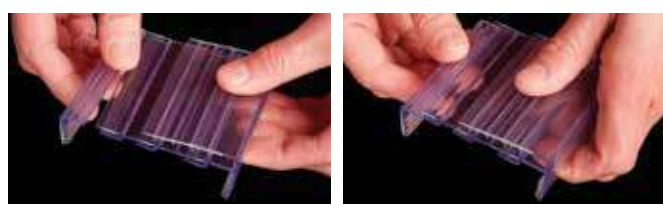

### Universal Adjustable Flush Grippers

This **Patented** design is universal, interchangeable and inexpensive. Add flush mounted signs and displays to most square edged gondola end caps, uprights, cross members, wing panels or any other (metal or wood) retail or warehouse fixture. One clip does it all. Built-in ratcheting settings allow for fine adjustments; thus, undersized or oversized store fixtures are never a problem. Gripper fins hold signs securely with no adhesive or fasteners required. Each clip is produced and shipped as one piece and is eco-friendly since it is removable and reusable.

**How it works:** Simply snap apart the attached break-away leg, engage leg at desired width, micro-adjust and press onto fixture.

- Retail style has 1" tall fixture gripper legs and a pre-breakaway width of 3-1/2"
- Warehouse style has 1-1/4" tall fixture gripper legs and a pre-breakaway width of 3-7/8"
- Warehouse style will also fit round fixtures up to 1-1/2" in diameter
- Custom lengths available
- Clear PVC material

## Track Sign Holders With Ratcheting Heads

Various bases hold our full line of single-track or multi-track sign channels, ideal for grocery stores and produce sections. These sturdy bases have ratcheting heads, allowing signage to tilt to optimal viewing angles. Kinter can cut our track sign channels (sold separately – see page 27) to custom lengths to connect to these bases - please call for details.

- Unlimited creativity to combine promotional and pricing information
- #150409B features a 3" dia. heavy-duty magnetic base, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150412B features a 3" wide x 11" long angled / sloping base for refrigerator cases, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150413B features a shovel base that fits over table edges (1.350" maximum thickness) with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150414B features a 4" x 3-1/2" flat base, with a stem that adjusts between 6" and 11" in height using an integrated thumb screw
- #150420B features a "hitchhiker" thumb clamp that grips various objects up to 1-1/2" thick, with an overall height of 6" and a fixed stem that rotates 360 degrees
- Custom track channels and custom colors available
- Black steel and black plastic material

## Magnetic Adjustable Double-Hook Aisle Sign Arm

Hold aisle signs securely in flag position from almost any angle off exposed metal surfaces such as the underside of shelving fixtures or tops of gondolas. Ratcheting magnetic base design allows the display of signs, promotions or category markers at optimal viewing positions with the simple push of a side button. Adjustable double clear plastic hooks rotate and fit a wide range of hole placement widths of up to 10 inches apart. Removable and reusable. **Warning:** Magnets should not be used near electronic equipment.

- Stem style is fixed length and is not telescopic
- Includes a plastic tip safety end cap – gray
- .120" clear plastic hook diameter
- 90 degree bent arm is 12" long x 3-1/2" height x 3/8" diameter
- Minimum recommended sign hole size is 3/16"
- Magnetic base is 1-1/2" wide x 2-3/4" long x 5/8" height
- Brushed aluminum arm with white plastic base
- Other colors, arm directions or arm heights/lengths available – please inquire

## Garment Display Hanger

An inexpensive, clever way to display varieties of garments for any occasion, message or season. When combined with our Double Magnetic Adapter Base (sold separately – see page 109) and placed directly on exposed metal surfaces such as shelving fixtures or gondola tops, this ingenious hanger offers an attention-grabbing presentation. Create full 360 degree optimal viewing angles by simply swiveling the stem's direction within the Double Magnetic Adapter Base. Use one hanger for single-sided garment placement or two hangers back to back for double-sided impact. Removable and reusable.

- Curved tip top offers the ability to dual display hats as well
- .234" wire stem diameter
- Steel powder coated black
- Other colors or finishes also available – please inquire

### Universal Magnetic Adapter For Aisle Sign Arms

Ingenious flush mount magnetic adapter that can be used to place and support common wire aisle sign arms directly to pegboard, slatwall and metal surfaces – all with one back plate connector! Use to attach signs, promotions or category markers in flag position. Interchangeable with existing competitors' aisle sign arms or Kinter's (sold separately). Removable and reusable. Unlike existing plastic or metal backs that commonly accept one specific wire size, this tapered hole adapter is designed to accept a wide range of wire diameters. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- Works with common .186" through .234" wire diameters
- Fits standard 1/4" diameter pegboard holes and all standard slatwall grooves
- Two prongs at 1" on center and having 5/8" height
- Available in additional colors – please inquire
- Black polypropylene material

### Metal Adapter For Crossbar & Wire Grids

Dual-purpose metal adapter that works on both wire grids and standard flat bar merchandising crossbar fixtures to place and support varying diameters of single-prong metal peg hooks or wire aisle sign arms. Spring-fit, curled back plate design is easy to attach and securely stays in place. Two different size tapered adapter tubes front welded together offering sturdy upright support. Removable and reusable.

- Friction fits standard 1" crossbars (AKA Wonder Cross Bars)
- Top notched backplate design also fits common 1" wire grids
- Works with common .187" through .234" wire stem diameters
- Backplate measures 1" wide x 1-1/2" height
- Zinc plated steel
- Packaged 50 per bag

ITEM #	OVERALL HEIGHT	WIDTH

## Magnetic Sign Stand Adapter

Rectangular metal casing having a full three ceramic magnetic base for added strength. Centered, internally threaded female adapter bushing is great for receiving common externally threaded metal sign stems and rods. The perfect support adapter for larger upright signs or heavier displays. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- Available with optional non-scratch inserts (see page 202)
- 1/4" magnet base height x 7/8" wide x 3" long
- 3/8-24 NF internally threaded center bushing having 1/2" height x 1/2" O.D.
- 3/4" overall welded height
- Nickel plated steel housing and threaded receiver bushing

### Gripper Square Edge Sign Holder

Add signage vertically or horizontally to metal or wood square edged fixtures. Use two pieces to hold larger graphics or blade signs. Gripper fins hold signs securely. Available in two edge capacity grip ranges – narrow base or wide base.

- Both sizes are 1-5/8" overall height and have 7/8" tall gripper fin section
- The narrow base capacity part has a 3/4" wide base
- The wide base capacity part has a 1" wide base
- Clear PVC material

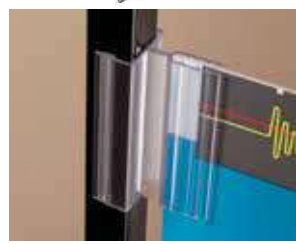

ITEM #	LENGTH	BASE CAPACITY	GRIP CAPACITY
108563	3"	.625" to .750"	up to .125"
108564	3"	.875" to 1.000"	up to .125"

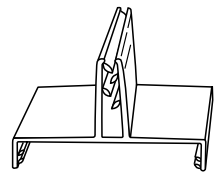

### Hinged Gripper Square Edge Sign Holder

Great for mounting signs in high traffic areas. Flexible hinge swings and returns to original position when bumped. Add signage vertically or horizontally to metal or wood square edged fixtures.

- 2" overall height
- Integrated flexible hinge joins 7/8" tall gripper to a 1" wide base
- Custom lengths available
- Clear PVC material

ITEM #	LENGTH	BASE CAPACITY	GRIP CAPACITY
108582	3"	.875" to 1.000"	up to .125"

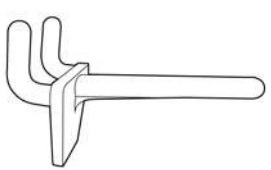

### Gondola Top Gripper Sign Holder

Great for mounting signs on top of gondolas without the need for adhesive. Base has gripper fins that attach securely onto the top of standard retail gondolas. Removable and easy to relocate. Soft gripper fins allow for easy sign insertion and holds signs firmly in place.

- 1" height
- Custom lengths available
- Clear PVC material

ITEM #	LENGTH	BASE CAPACITY	GRIP CAPACITY
108555	3"	2-3/4"	.187" to .250"
108556	6"	2-3/4"	.187" to .250"

### Instant Flag Slatwall/Pegboard Display Base

When used in conjunction with our line of instant flag display tubes (sold separately), this base holds signs securely in either slatwall or pegboard in a perpendicular position. Simply hook into pegboard holes or slatwall.

- Stem is designed for use with instant flag display tubes
- Fits standard 1/4" diameter pegboard holes (1" on center) or slatwall
- White glass filled nylon material

ITEM #	STEM LENGTH	STYLE
107110	2"	2 Prongs

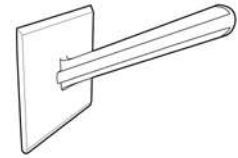

## Instant Flag Angled Display Base

When used in conjunction with our line of instant flag display tubes (sold separately), this base holds signs at 30 degree upward angles. The base without adhesive snaps into standard 1-1/4" shelf price channels and holds securely. The base with adhesive sticks to any clean, flat surface or can be pressed into shelf price channels for extra strength.

- Stem is designed for use with instant flag display tubes
- Base is 1.200" square, with or without adhesive
- Fits 1-1/4" shelf price channels
- Base with adhesive sticks to any clean, flat surface
- White polypropylene material

ITEM #	STEM LENGTH	STYLE
107111	1-1/2"	No Adhesive
107112	1-1/2"	With Adhesive

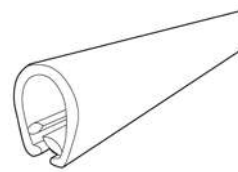

#107112 can also be used with our Magnetic Adapter (sold separately – see page 202).

## Instant Flag Gripper Display Tube

Quickly hang ever-changing advertisements in eye-catching flag position with little effort or cost. Featuring integrated gripper fins that slide over edging of signs for a secure hold. Use in conjunction with any Instant Flag Display Base (sold separately). Removable and reusable.

- Holds lightweight signs up to 1/8" thick
- 13/32" height oval shaped pinched gripper edging
- Various display base options (sold separately)
- Available in custom lengths and colors
- White PVC material

ITEM #	LENGTH	COLOR
110027	12"	White

### Shelf-Top Flag Sign Holder

Capture customer attention with aisle signage in flag position. Unique display arm securely holds signs perpendicular to shelf. Universal mounting tabs hook into most standard perforated shelves – round or diamond hole. Signs with pre-punched top holes easily traverse onto end of display arm.

- 7-1/2" overall length with 1-5/32" base width
- Holds paper signs up to .024" thick
- Sign requires minimum 7/32" diameter hanging holes
- Recommended for signs 4" to 6" wide
- Beige glass filled nylon material

ITEM #	OVERALL LENGTH	SIGN POSITION
107225	7-1/2"	Flag

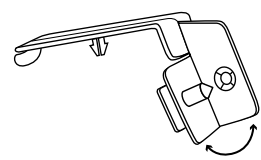

### Perf Shelf Gripper Flag Sign Holder

Fits most round, square or diamond shaped perforated shelf holes. Attaches to shelf with #120400 Perf Shelf White Dart Clip (included). Is removable with a pinch of the Dart Clip and can be reused. Gripper fins hold sign firm in vertical (flag) position.

- 2" overall length x 3/4" wide
- Angled shelf front gripper area is 1-1/8" long x 9/16" height
- .250" diameter hole for Dart Clip insertion
- Holds signs up to .080" thick
- Clear PVC material
- Packaged 100 grippers and 100 clips per bag

ITEM #	SIGN POSITION
108104	Flag

### Self-Piercing Flag Sign Holder

Clip hooks into most standard perforated shelves and securely holds paper signs perpendicular to shelf. Very popular, reusable perf shelf clip featuring a piercing male pin that easily folds and punctures paper signs for a secure hold.

- 3" overall length
- 3/4" fold section
- Holds paper signs up to .012" thick
- Natural polypropylene material
- Packaged 100 per bag

ITEM #	SIGN POSITION
107200	Flag

### Gripper Scan Plate Flag Holder

Gripper fins hold and join a sign panel to common scan plates at a fixed 90 degree angle in vertical (flag) position. Part is removable and reusable.

- For use with metal scan plates or plastic label holders
- 90 degree angle connects 5/8" height leg to 3/4" height leg
- Clear PVC material

ITEM #	LENGTH	GRIP CAPACITY OF 5/8" LEG	GRIP CAPACITY OF 3/4" LEG	SIGN POSITION

### Multi-Purpose Sign Holder

Display signs high and low on most bowls, trays or pans, or other objects up to 1/2" thick. Dual sign holders friction-fit for a secure grip. Removable and reusable.

- Clips hold signs up to .030"
- Base fits objects up to 1/2" thick
- Other lengths and colors available – please inquire
- Clear plastic material

ITEM #	WIDTH	OVERALL LENGTH
109564	1-1/4"	1-1/4"

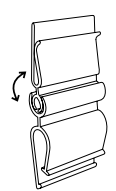

### Gourmet Clip Tag Holder

Popular friction fit clip that is ideal for displaying signs, labels or advertisements on bowls, trays or pans. Removable and reusable.

- One end holds signs up to .030" thick
- Other end clips onto solid bowl edges or pan lip edges up to 3/8"
- Clear PVC material

ITEM #	WIDTH	OVERALL LENGTH
108844	1"	1-3/4"

### Ratchet-Style Deli Sign Clip

Top and bottom sections combine to form an ingenious ratcheting clip that is ideal for displaying signs, labels or advertisements on bowls, pans, floral buckets or other goods. Also works on deli style trays that have lipped edges. Two-way ratcheting ribs both securely hold and tilt signs forward or backward for optimal viewing angles. Removable and reusable.

- Two clips joined by a firm interlocking ratcheting design
- Top end holds signs up to .080" thick
- Other end hooks onto goods up to 3/8" thick
- Clear PVC material
- Parts come unassembled
- Packaged 25 tops and 25 bottoms per bag

ITEM #	WIDTH	OVERALL ASSEMBLED HEIGHT
108900	1"	2-1/4"

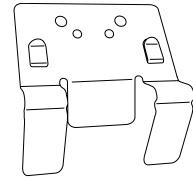

## Stainless Steel Pan Clip

Multi-purpose, stainless steel holder that is perfect for displaying signs, labels or advertisements in misted environments or in hot and/or cold food cases. Ideally designed as a clip-on tag or sign holder on the lipped edges of trays, bowls and stainless steel pans. Integrated holes with varying ranges of diameters, offering added sign or display mounting options via pop rivets or threaded fasteners. Secure angled design for enhanced visibility.

- One end holds sign materials up to .030" thick
- Other end clips onto solid bowl edges or serving pan lip edges of 3/8" to 9/16"
- Stainless steel material
- Packaged 12 per bag
- Sold in full bags only

### Easel Track Sign Holder

Clear, freestanding easel supports a two-track sign holder - ideal for deli cases or countertops. Channel tracks display 1-1/4" height signs, or 2-1/2" height signs when spread across both tracks. Includes a friction-fit slot that runs along the top edge for additional signage to rise above.

- Combine promotional and pricing information
- #140674B sits flush to the surface; #140765B rises 2" above
- Each track accepts 1-1/4" height signs; 2-1/2" height signs when spread over both tracks
- Custom styles and colors available
- Base is clear PVC; track is black PVC

## Rigid Wall Mount Coupon Holder

Attractively showcase coupons, recipes or product information from flat surfaces such as walls, windows or display boards. Can be mounted with our premium USA made mushroom head suction cups (sold separately – see page 128) or common #6 diameter screws (also sold separately – please inquire). Sits perfectly as a freestanding holder on countertops as well.

- Deluxe .080" - .090" thick styrene
- Designed for common 6" wide coupons
- Frontside is notched and a bit shorter than backside for improved visibility
- Two backside keyholes at 3-1/2" on center accept either our small, medium or large mushroom head suction cups
- Two additional backside round holes are 5/32" diameter and 1-1/8" on center
- Can also be mounted with double-sided tape or cable ties (sold separately)
- Crystal clear styrene material

### Rigid Freestanding Literature Holder

Attractively showcase tri-fold literature, pamphlets or brochures. Sits perfectly stable as a freestanding holder on tops of tables, shelves, desks or counters. Slant back, single-pocket design ensures that literature remains upright.

- Holds literature up to 4" wide
- Double backside wing design for increased stability
- Base measures 3-1/4" deep
- Deluxe .070" - .080" thick styrene
- Frontside is notched for improved visibility
- Crystal clear styrene material

ITEM #	WIDTH	BACK HEIGHT	DEPTH

### Fold-Up Rigid Literature Holder

Ingenious ship flat, fold-up, self-standing literature holder that saves inventory space and eliminates breakage. Attractively showcase tri-fold pamphlets or brochures. Sits stable as a freestanding holder on tops of tables, shelves, desks or counters. Slant back, single pocket design ensures that literature remains upright.

- Holds literature up to 4-1/8" wide
- Wide backside easel design for increased stability
- Base measures 3-1/4" when snapped together via a few simple folds – instructions included with each part
- Also can be wall mounted via two backside hole options: one slotted hole and one keyhole
- Frontside is notched for improved visibility
- .070" - .080" rigid material thickness
- Clear K-Resin material

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150130	4-1/8"	7"	1-5/8"

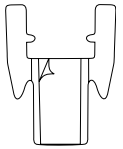

### Fold-Up Easel Back Literature Box

Makes brochures stand up and get noticed. Ingenious ship flat, fold-up, self standing literature holder/protector for countertop display. Much less expensive than solid acrylic tri-fold brochure holders. Box assembles easily by locking into position with integrated double-tabs. Full 20 mil thickness is stronger than thinner imitations.

- Die-impressed score lines easily fold into place
- Holds 4" wide brochures
- 4-1/16" wide x 1-1/4" deep x 5" front height and 6-1/4" back height
- 20 mil thick, clear rigid PVC material

ITEM #	ASSEMBLED WIDTH	ASSEMBLED OVERALL HEIGHT
150122	4-1/16"	6-1/4"

### Warehouse Upright Adapter

Designed to securely attach signs, flush displays or fold-up literature boxes directly onto common upright slots found in warehouse pallet racking. Simply peel and stick the pre-applied adhesive strip to the back side, flat surface of most literature holders – then, flexibly engage the two wings into the teardrop shaped holes found on standard retail warehouse uprights.

- Flexible mounting wings are 1-5/8" on center
- Fits most standard warehouse pallet racking with teardrop style holes
- .050" (50 mil) thick natural high density polyethylene

ITEM #	WIDTH	HEIGHT
150155	2"	2-1/2"

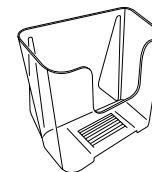

### Single-Pocket Winged Back Literature Holder

Attractively showcase literature, pamphlets or brochures. Sits as a freestanding holder on tables, shelves, desks or counters. Winged-back, single-pocket design ensures that literature remains upright.

- Holds literature up to 4" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Deluxe .080" thick plastic
- Crystal clear styrene

### Two-Way Winged Back Literature Holder

Display literature two different ways: Either one long pocket or two smaller pockets. This freestanding literature holder features a handy, slide-in divider. Keep the divider in place to have two separate pockets, or simply remove the divider and use the entire length at once. Sits as a freestanding holder, or can be mounted to a wall or other fixtures using the built-in holes (fasteners sold separately). Winged-back design ensures that literature remains upright.

- With divider in place, hold literature up to 4-1/4" wide
- With divider removed, hold literature up to 9" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .080" thick plastic
- Crystal clear styrene

### Counter Mat Sign Holder

Display and protect promotions or critical information on counters or other flat surfaces while preventing curled graphic corners. Provides quick-change, long lasting performance. Signs are framed evenly on all four sides by an attractive 1" wide black, radius cornered border. Clear surface is scratch resistant and provides great durability. Can be used in either portrait or landscape orientation.

- 1/16" thick, non-slip, heavy duty black rubber backing
- Sealed on three sides with the pocket opening from the long side
- Actual overall internal dimensions are slightly larger than the listed size for ease of use
- Custom sizes and border printing options available – please inquire
- 15 mil scratch resistant clear vinyl window with white background

### K-Ads® Shopping Cart Sign Frame

Both shatter-resistant and weather-resistant sign frame that firmly mounts to shopping carts. An affordable way to create new revenue or advertise your product directly off most spring wire or molded carts. Accommodates signs on both sides for maximum impact. Be the direct image in the customer's mind as they shop throughout the store. Once the sign frame is in place, ads can be inserted and changed with ease.

- Overall frame size is 11-1/2" wide x 7-1/2" height
- Each set comes complete with: Two frame halves, four 1/2" screws, four 3/4" screws, four locking nuts and two black 14" cable ties – which accommodates most styles of common cart baskets
- Required tools: #2 Phillips screwdriver and 3/8" hex width wrench (not included – see page 209)
- Maximum spacing between frames is 3/8"
- Accepts signs up to .050" thick
- Black shatter-resistant polypropylene material
- Additional colors available – please inquire

### Indoor/Outdoor Spring Base Floor Stand

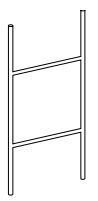

Attract attention from one or both sides with this sturdy snap frame, indoors or outdoors. Designed to withstand winds of 20 miles per hour thanks to a heavy-duty spring system and weighted base. Fill base with water or sand if desired. Elegantly convey your message on sidewalks or parking lots, or anywhere indoors. Signs can be inserted and changed in seconds.

- Accepts signs 23-3/8" wide x 33" high
- Aluminum frames snap open and shut on both sides
- Sturdy, lightweight frame easily mounts to the base with two heavy-duty bolts
- Base features two wheels and a handle for easy transport
- Overall item height is 44-1/2"
- Packaged 1 unit per carton

ITEM #	POSTER WIDTH	POSTER HEIGHT	BASE COLOR	FRAME COLOR
109571	23-3/8"	33"	Gray	Silver

### Outdoor Lawn Sign Frame

Popular metal frame commonly used to support lawn and yard signs. Features welded crossbars and ribbed sidewires for extra gripping. When pushed into the ground, with the bottom crossbar even with the earth, height is 22-1/2".

- Also known as Step Stakes or H-Stakes
- Features two crossbars for stability
- Galvanized steel material
- Other sizes available – please inquire

ITEM #	OVERALL HEIGHT	WIDTH	WIRE GAUGE
150231	30"	10"	.149" dia. (9 ga.)

### Take-One Outdoor Literature Holder

Versatile vacuum-formed holder that keeps literature, brochures and flyers protected and easily accessible. Hinged top flap simply snaps on and allows for easy restocking/removal of material. Two popular sizes to choose from: the small is for half-fold and tri-fold sheets while the large is for standard full sheets (not legal size). **Patented.**

- For both indoor and outdoor use
- Pre-punched hanging holes at top and bottom
- Clear PETG material
- Included with each literature holder: two .178" wide (50# tensile) x 11" long natural nylon cable ties; two #10 x 3/4" long Phillips pan head steel zinc plated sheet metal screws; and one red lettered "Take One" sticker
- Can also be mounted with double-sided tape or suction cups (sold separately)

ITEM #	WIDTH	HEIGHT	DEPTH	SIZE
150150	5-1/2"	9-1/4"	1-1/2"	Small
150151	9"	11-3/4"	1-1/8"	Large

Mounting hardware included

If you need different length Cable Ties than the two 11" long straps included, additional Locking Straps can be purchased separately (see page 188).

Suction cups sold separately (see page 128-129)

**K-FRAME SIGN HOLDERS**

### K-Frame "C" Clamp Aisle Holder

Integrated snap-on adapter that firmly holds our full line of plastic K-Frames in either portrait (vertical) or landscape (horizontal) orientation. Hinged style option is great for mounting signs in high-traffic areas – flexible hinge swings and returns to original position when bumped. Universal "C" clamp design can be used on square edges of shelves, fixtures or just about anywhere throughout the store. Removable and reusable. Pre-assembled black plastic crutch-tipped screw eye design.

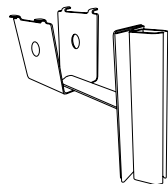

**Patent Pending.**

- Fits shelves or other fixtures up to 2-1/2" thick
- 3" height x 3/4" wide x 2" deep "C" clamp size
- Compatible with all plastic K-Frames in flag position (sold separately – see page 162)
- Elegant, in-store advertising made cost-effective
- 3 inch long secure, friction fit design with no tools required
- Can easily be repositioned as needed
- Integrated clear PVC adhesive/glue attached base
- Base is made of steel with zinc plate

K-Frame sold separately

### K-Frame Under-Shelf Screw-Mount Holder

Integrated snap-on adapter that firmly holds our full line of plastic K-Frames in either portrait (vertical) or landscape (horizontal) orientation. Hinged style option is great for mounting signs in high-traffic areas – flexible hinge swings and returns to original position when bumped. The base locks underneath the shelf with an integrated threaded eye screw and is designed to add shelf edge signs from below – thus not interfering with product on shelves. Spring steel leg tabs clip directly into most perforated shelves. Removable and reusable. **Patent Pending.**

- Compatible with all plastic K-Frames in flag position (sold separately – see page 162)
- Elegant, in-store advertising made cost-effective
- 3 inch long secure, friction fit design with no tools required
- Can easily be repositioned as needed
- Integrated clear PVC adhesive/glue attached base
- Base is made of beige painted spring steel material
- Assembled eye screw is 10-24 x 2-1/4" overall length, zinc-plated steel

### Shelf Support Clips

Makes corrugated assembly easy and saves on shipping costs. Prior to shipping corrugated displays, two piece shelf support clips allow for pre-attachment of “knock-down” sections. Male parts have holes for glue seep through and female parts have snap-lock features. **Warning:** Parts are designed to be used vertically and are not recommended for horizontal use.

- Male and female parts sold separately and in equal quantities only
- Fits up to 3/16" (C-Flute) corrugated
- Polypropylene material
- Also available in other colors – please inquire

	ITEM #	STYLE	SIZE	HEIGHT	LENGTH	COLOR

150625W	White	500 feet
150625B	Black	500 feet

### Flute Wire

An inexpensive way to form or support corrugated displays, die cuts or headers. Use to keep weaker display sections from bending or breaking over. Add signs above displays or to join two or more displays together. If shipping larger folded signs or scored headers, Flute Wires are a great way to re-assemble as rigid.

- Slides inside the fluting of common corrugated materials and holds a bend as needed
- For use in either B or C Flute corrugate
- Other Flute sizes/diameters and lengths available – please inquire
- Bright galvanized, zinc coated metal

ITEM #	FITS INSIDE	WIRE GAUGE	LENGTH

108075	C-Flute	.080" dia. (14 ga.)	24"

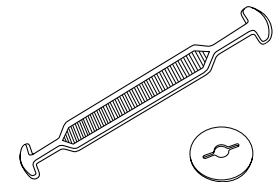

## Packaging Handles

Several packaging handle sizes to choose from for lightweight to heavy applications. All purpose plastic handles for every application. Used widely in box cartons, packaging, electronics and luggage goods. Backer washers (a.k.a. support plates) also offered for added durability.

- Flexible strength for ease of insertion
- Backer washers are 1-3/8" O.D. x .531" thick and work with all styles of our handles
- Other sizes, strengths and colors available – please inquire
- Black or white low density polyethylene material

### Adjustable Pallet Guard

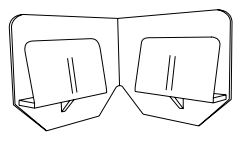

Selling straight from the pallet made highly appealing, safe and secure. Enhance your store's appearance at an affordable price. Pallet guards hide unsightly floor placed pallets and protect merchandise from being damaged. Pallet guards also reduce the risk of customer trips and/or falls. Great for club stores or wholesale merchandise retail environments.

- Adjustable panels that fit a wide range of pallets from 28 inch to 54 inch in size
- Four pre-assembled panels that are 6 inch height each
- More durable than paper, corrugated or elastic band style pallet wraps
- Removable and reusable time and time again
- Easy to set up and extend with no tools required
- Also available in caution yellow, white and other custom colors – please inquire
- Durable black HIPS material

ITEM #	FITS PALLET SIZE	COLOR
107147B	28" to 54"	Black

### Flexible Display Foot

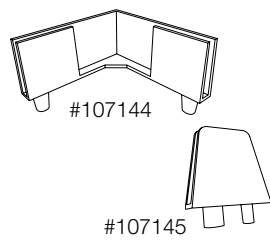

Two-point display foot that lifts, supports and protects display corners 1/2" above the floor. Flexible hinged design works on display corners at multiple angles, including 90 degrees. Simply friction fit attach to corrugated bottom edges.

- Holds up to 1/4" thick (A-Flute) corrugated 1/2" off the floor
- 1-9/16" overall height with a 5/16" diameter hole on each side
- Natural polypropylene material
- Packaged 100 per bag

ITEM #	CORNER DIMENSIONS
107137	1-7/8" x 1-7/8"

### Rigid Display Feet

Three-point display foot that lifts, supports and protects display corners 1/2" above the floor. For added strength for larger floor based displays use the center style, two-point support between the corners. Simply friction fit each part to attach to corrugated bottom edges.

- Holds up to 3/16" (C-Flute) corrugated 1/2" off the floor
- Corner style is a fixed 90 degree angle and has corner dimensions of 2-1/2" x 2-1/2"
- Center style is 1-1/2" wide and has a tapered shape to a 1" wide top
- White styrene material

### Floor Stand Corner Glide

Three point rigid display foot that lifts, supports, and protects display corners flush and low-profile to the floor at fixed, 90 degree angles. Adheres to flat bottom corrugated displays and floor stands with permanent adhesive. Durable display corner glide that makes moving fixtures or displays easy.

- Fixed 90 degree angle with both sides 2-1/2" from corner
- Holds displays approximately 1/16" off the floor
- Adhesive backed base
- Clear ABS material
- Packaged 200 per bag

ITEM #	OVERALL HEIGHT	CORNER DIMENSIONS
107134	7/8"	2-1/2" x 2-1/2"

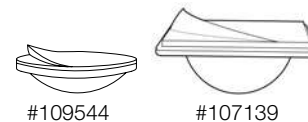

## Display Caster With Adhesive

Adheres to flat bottom displays with permanent adhesive. Durable display foot that lifts, protects and makes moving heavy displays easy.

- #109544 round mini casters (also called "glide buttons") have .200" height rounded contour foot
- #107139 square casters have .750" height rounded contour foot and supports up to 100 lbs. off the floor

## Swivel Display Caster With Corner Bracket

Swiveling, smooth-rolling independent wheel set threaded into a durable 90 degree corner support bracket (some assembly required). Lifts and protects display corners approximately 2 inches above the floor. Two styles to choose from: locking and non-locking. Simply friction fit each clear corner support bracket to attach to corrugated bottom edges. Makes almost any fixture or corrugated display easily moveable. Optional locking style can be used to both mobilize or immobilize a display.

- Holds up to 1/4" (A-Flute) corrugated 2" off the floor
- 1-9/16" wheel diameter with 5/16-18 x 3/4" long plated steel stem
- Reinforced corner bracket having dimensions of 3-1/2" x 3-1/2" x 1-1/4" height
- Supports a maximum of 75 lbs. per swivel caster (i.e. 300 lbs. total distributed weight among 4 swivel casters)
- Clear polycarbonate corner and black HIPS wheel
- Packed four complete assemblies per bag
- Sold only in full bags of four pieces

## Twin Wheel Casters

Swiveling, smooth rolling independent wheel set offered with or without threaded stem. Lifts display corners approximately 2 inches above the floor. Two styles to choose from: locking and non-locking. For the non-threaded stem option, simply friction fit to create a seamless joint with no tools required. Makes almost any fixture or display easily moveable. Optional locking style can be used to both mobilize or immobilize a display.

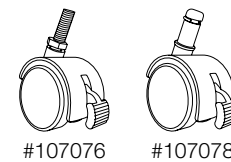

- 1-9/16" wheel diameter
- Threaded style has a 5/16-18 x 3/4" long zinc plated steel stem
- Non-threaded style has a 7/16" diameter x 7/8" long zinc plated steel stem
- Supports a maximum of 75 lbs. per swivel caster (i.e. 300 lbs. total distributed weight among 4 swivel casters)
- Black HIPS wheel
- Sold only in full bags of four pieces

### Display Poles

Two section, rigid litho display poles/tubes with three common diameters to choose from. Male and female pieces (sold separately) are each 39 inches long; when fully assembled, total overall length is 6 feet. Great for when displays or signs require poles for support. The 6" long integrated inner core (joiner) on the male pole has tight tolerances for a secure fit. Male and female sections sold separately.

- When assembled, display pole is 6 ft. long
- Also available with holes or notches – please inquire
- Custom colors and/or lengths available
- White or black litho wrapped, spiral wound paper material

ITEM #	STYLE	SIZE	O.D.	I.D.	COLOR

### Wire Display Pole Foot

Simply press two identical/overlapping pieces into the inside of our common Display Poles (sold separately) to create an inexpensive, four-legged, sturdy base. Three sizes to choose from, each of which create a 24" overall tip-to-tip span.

- Sold by the piece, not the set
- Complete assembly requires two of the same size pieces
- Three sizes available for different inside diameter poles
- .177" wire diameter, bright galvanized steel

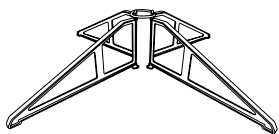

ITEM #	FITS POLE SIZE	OVERALL SPAN
108050	Small (13/16" I.D.)	24"
108051	Medium (1-1/4" I.D.)	24"
108052	Large (1-15/32" I.D.)	24"

### Molded Plastic Display Feet Kit

Our popular sturdy plastic display pole feet, a locking rubber ring and easy to follow instruction sheet packaged together in a convenient kit. Simply press each identical foot into the inside of common Display Poles of 1-1/2" to 2" O.D. (sold separately – see above) to create an inexpensive, yet elegant, four-legged base. More compact to ship than compared to traditional wire display pole feet. **Patented.**

- Each plastic foot measures 12" long x 5-1/4" height x 1/2" wide
- Creates a well balanced 26" overall tip-to-tip span
- Flexible rubber retaining ring is 1-3/4" I.D. x 7/32" thick
- One size fits three common fiber pole O.D.'s of 1-1/2", 1-3/4" and 2"
- Each sealed, clear polybagged kit contains four display pole feet, one ring and an instruction sheet
- Black plastic material

ITEM #	CONTENTS	COLOR

## Modular Display Pole Shelf Support

Makes corrugated shelving assembly easy and saves on shipping costs. Prior to shipping four-sided corrugated shelving displays, Modular Display Pole Shelf Supports are combined with our small male Shelf Support Clips (included) to allow for pre-attachment of "knock down" shelving sections. As an added option, caps are available for a finished look on the top tier (sold separately – see below). Otherwise known as corrugated corner support shelving brackets.

- Included small male Shelf Support Clips fit up to 3/16" (C-Flute) corrugated
- Quick and easy friction fit assembly with our 1-3/4" O.D. Display Poles (sold separately)
- Round display pole supports are 2" outside diameter
- Small male shelf support clips are 1-7/8" height x 2-1/4" length
- White polypropylene material
- Packaged ten display pole supports and twenty small male shelf support clips per bag

### Premium Pole Gripper – Flush

Clip-on design coupled with gripper ribs prevent rotation. Firmly attach signs and promotions flush to common banner stands and display poles (sold separately). Also use integrated fastener holes (one round and one oval) or permanent adhesive backing to secure round poles to most surfaces. "Premium" size is stronger than our common Pole Gripper or Strap Clips. **Note:** When part is placed on the maximum 1" O.D. size, the flat mounting base area tends to bow a little.

- Fits 3/4" through 1" O.D. round poles
- .125" diameter hole option accepts common plastic or metal fasteners (sold separately)
- 3/4" wide x 4" long mounting base area
- Custom lengths available
- Clear PVC material

ITEM #	OVERALL LENGTH	STYLE
108724	4"	With Two Holes
108725	4"	With Adhesive

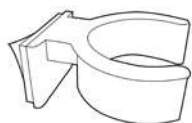

### Pole Gripper

An easy way to secure display poles to most flat, clean surfaces with integrated permanent adhesive backing. Clip-on design is both fast and inexpensive. Also use to attach signs and promotions to Display Poles (sold separately). Available in two common sizes.

- Sturdy adhesive backed clip
- Small size has a 3/4" wide x 9/16" height backing
- Medium size has a 3-1/16" wide x 1" height backing
- White styrene material

### Adhesive Strap Clip

Fast, inexpensive way to attach display poles to most flat, clean surfaces with adhesive. Cable Tie passes through the channel area around the pole and then adjusts to desired size for a secure fit.

- Adhesive backed base is 1" long x 1-3/8" height
- Centered channel area has 1/4" inside width x 3/8" overall height
- Accepts Cable Ties .178" wide or less (sold separately)
- Clear PVC material

ITEM #	BASE LENGTH	BASE HEIGHT
107151	1"	1-3/8"

Cable Ties are sold separately – see page 188.  
This clip can be used with parts #130500 through #130507 (.178" wide or smaller).

### Pole Sign Cable Tie Kits

Fast, inexpensive way to secure both indoor and outdoor signs back to back on most round or square poles. Hang corplars or corrugated signs with confidence. Our most popular cable ties pre-packaged in a convenient kit. For back to back signs, the 36" long ties easily secure the signs to the pole, while the 8" long ties cinch the corners together. No tools required to assemble.

- 36" long ties are our popular #130512 (.340" wide)
- 8" long ties are our standard #130504 (.140" wide)
- Nylon 6/6 material
- Each sealed, clear polybagged kit contains two 36" long ties and four 8" long ties

ITEM #	COLOR	CONTENTS
130525	Natural	Two 36" and Four 8" Ties

### Indoor/Outdoor Sign-Mounting Bracket Kit

Secure, heavy-duty way to hang signs on most round or square poles, posts or columns with confidence. Stainless steel construction lends itself well to both indoor and outdoor use. All required components conveniently sealed in a clear poly bag. For two signs back to back, or for a dramatic three-sign triangular effect, combine additional brackets, bolts and washers (sold separately – please inquire). Some minor assembly required. **Warning:** Straps must be firmly fastened and locked down securely.

- Straps are 9/16" wide x 52" overall length with a slotted worm-drive hex screw housing
- 5/16-18 threaded brackets have slotted flared legs and measure 2-1/4" width x 1-1/2" height and will offset from pole approximately 5/8"
- Hex bolts are 5/16-18 x 5/8" long with 1/2" hex width across flats
- Flat washers are 5/16" bolt size x 5/8" O.D. – natural nylon
- Hex wrench and slotted screwdriver required (sold separately – see page 209).
- Stainless steel straps, brackets and bolts
- Each sealed, clear polybagged kit contains two straps, two brackets, two bolts and two washers

## Releasable Beaded Locking Straps

Also known as Beaded Cable Ties. Fast, inexpensive way to temporarily or permanently secure signs and other items. Unlike our standard, solid style Cable Ties (Locking Straps), these releasable locking straps are removable and reusable. Just adjust to desired size anywhere along the full length and lock into place. Simple hand assembly with no tools required. Round ball design eliminates snags, cuts and abrasions.

- Tail beads/balls snap securely into head
- 4" long straps have a .200" head width x .350" head length
- 6", 8" and 10" long straps have a .230" head width x .490" head length
- Nylon 6/6 material

### Ladder Style Permanent Locking Straps

Fast, inexpensive way to permanently secure signs and other items. Simply adjust to desired size anywhere along the full length and lock into place with built-in ratcheting mechanism. Unlike our standard, solid style Cable Ties (Locking Straps), ladder ties are extremely flexible and can be cut with scissors for easy removal.

- Straps are notched full length for a hollow laddered style
- Nylon 6/6 material
- Also available in black
- Packaged 1,000 per bag

### Loop Style Locking Strap

Hang lightweight signs, merchandising strips, vinyl pouches and more with this simple, inexpensive plastic fastener. The male and female ends bend around and snap together to create an approximate 7/8" loop length. Loop style straps are intended to be more permanent in nature and are not recommended to be pulled apart for reuse.

- Total overall length is 2-3/8"
- Both round heads are 3/8" diameter
- Strap is 1/8" wide x 1-5/8" long
- Pin dia. is 1/8"
- Maximum sign thickness is 20 mil
- Clear plastic material
- Packed 100 per bag

### Slatwall Power Wing Clip

Designed to securely attach corrugated displays in flush position to slatwall. Z-bar shape is stronger than our plastic two prong Pegboard/Slatwall Power Wing Clip.

- Upper lip fits most standard slatwall grooves
- 1-1/2" high exposed base once inserted into slatwall
- Holds up to 1/8" (B-Flute) corrugated
- White PVC material

ITEM #	WIDTH	LENGTH
107113	1"	2"

### Pegboard/Slatwall Power Wing Clip

Designed to securely attach corrugated displays in flush position to pegboard and slatwall.

- Prongs are 1" on center
- Fits both standard 1/4" diameter pegboard and slatwall
- Holds up to 1/4" (A-Flute) corrugated
- White polypropylene material
- Packaged 100 per bag

ITEM #	WIDTH	LENGTH
107105	1-1/4"	1-1/4"

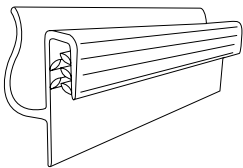

### Gripper Flush Sign Holder For Slatwall

Gripper fins hold signs firmly in horizontal (flush) position. Use two or more holders for larger signs. The base is designed to fit into most standard slatwall. Removable and reusable.

- Fits most standard slatwall grooves
- 3" long x 1" tall
- Custom lengths available
- Gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	LENGTH	GRIP CAPACITY	SIGN POSITION
108730	3"	up to .080"	Flush

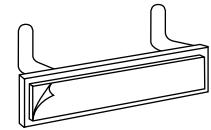

## Pegboard/Slatwall Adapter

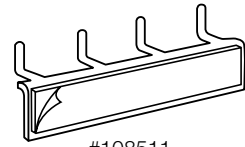

Flush mount connectors that simply hook into pegboard holes or slatwall. Use to attach signs, pockets or literature holders.

- Both fit standard 1/4" diameter pegboard holes or slatwall
- Four prong offers heavy duty holding power
- Mounting base area: two prong has 5/8" height & four prong has 1" height
- Packaged as shown below

## Perf Shelf Plastic Loop Fastener

Hang lightweight signs, displays or pouches with this simple, inexpensive plastic fastener. Designed to fit most round, square or diamond shaped perforated shelf holes. The male and female ends bend around to create an approximate 1/2" loop length. Simply press pin in to expand legs firmly into place.

- Total overall length is 1-7/8"
- Fits approximate .219" to .250" hole perforations
- Up to .187" grip capacity
- Strap is 1/8" wide x 1-1/16" long
- Natural polypropylene material
- Black also available – please inquire
- Packed 100 per bag

K-Stick Ladderless Sign Hanging System

### Perf Shelf Universal Fasteners

Both styles fit most round, square or diamond shaped perforated shelf holes, and can easily be removed and reused. Simply press pin in to expand legs that lock firmly in place. The low profile style offers a less noticeable, smaller pin head diameter and built-in side slots for easy removal.

- Pre-assembled two piece design
- Fits .250" hole size
- .001" to .187" grip capacity
- .500" shank length
- .438" O.D. flat heads
- Nylon 6/6 material

ITEM #	STYLE	ENGAGED HEAD HEIGHT	PIN HEAD DIAMETER	COLOR

### Expand-A-Lock Connector

Push-fit rivet style expansion fastener that requires no tools and fits most 5/32" to 11/64" round holes. Simply press pin down to expand legs that lock panels and components firmly in place.

- Pre-assembled two piece design
- 9/32" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120405	5/32"	.100" to .250"	.315"	Natural
120405B	5/32"	.100" to .250"	.315"	Black

### Heavy Duty Expand-A-Lock

Simply press pin down to expand two tapered legs that lock panels and components firmly in place. Fits standard 1/4" pegboard holes and 1/4" round shaped perforated shelf holes (not square or diamond). Removable and reusable.

- Pre-assembled two piece design
- 11/16" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120399W	1/4"	.060" to .228"	.562"	White
120399B	1/4"	.060" to .228"	.562"	Black

## X-Mas Tree Clip Fasteners

Flexible ribs deflect when pushed into hole then spring back for a secure lock that resists removal. Universal use in a wide variety of materials such as metal, wood, foam, rubber and plastic, in both solid and compressed forms. For use in a wide range of panel thicknesses and hole diameters.

- Wide variety of sizes & styles available
- For use in drilled, punched or molded holes, both threaded and non-threaded
- Ideal where fast and/or blind installation is required
- #120200, #120205 & #120212 are very popular for shelving and display construction
- Parts are separated on the following pages by the type of fins they have

New Products

### Magnetic Adapter

Rectangular metal casing containing an integrated ceramic magnetic base(s). Compact, versatile magnet assures full contact and maximum holding power. Use in a variety of applications; for instance, attaching lightweight signs and display products to metal surfaces such as shelving. Also ideal for latches and receptacles. Mount with adhesive (shown below) or a common 1/8" pop rivet. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 7/8" wide x 1/4" overall height, with 1/8" diameter center hole
- 3" long magnet has a hollow underside center area
- Available with optional non-scratch inserts (see below)
- Nickel plated steel housing

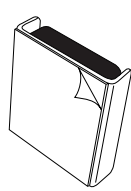

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107033	1"	12 lbs.
107037	3"	16 lbs.

K-Frame Sign Holders

### Magnetic Adapter With Adhesive

Our highly popular ceramic magnetic adapters with 3M brand high bond adhesive tape applied directly to the rectangular metal casing. Compact, versatile magnet assures full contact and maximum holding power. Great for numerous P.O.P. applications. Simply peel off the 3M factory liner and stick to any clean, smooth surface. Best suited for indoor use. **Warning:** Magnets should not be used near electronic equipment.

- Available with optional non-scratch inserts (see below)
- 7/8" wide x 1/4" overall height
- 3" long magnet has a hollow underside center area
- Tape is high tack acrylic based adhesive that reaches maximum strength within 24 hours
- Nickel plated steel housing with .025" thick tape

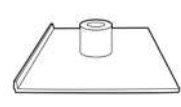

ITEM #	OVERALL LENGTH	TAPE COLOR
107080	1"	Gray
107083	3"	Gray

### Non-Scratch Magnetic Insert

Ingenious flexible insert that helps reduce the possibility of magnet scratching and abrasion on finished or painted surfaces. Specifically designed to friction fit most undersides of our rectangular magnets or magnetic based gripper sign holders (sold separately). Single-sided raised edge allows for rapid assembly and assures that the adapter will remain in alignment with the magnet. Also makes separating stacked magnets a breeze. **Warning:** When inserted properly into a magnet, this spacer/insert will reduce the original stated holding capacity of the magnet. Always test holding power suitability on a per-application basis.

- Friction fit – no glue or adhesive required
- Factory installed inserts are available with most of our rectangular magnets – please inquire
- When used with 1" magnets, inserts will block the use of the center hole
- Not for use with our line of ladderless magnetic banner hangers or ceiling clips
- Not recommended for use on non-Kinter-supplied magnets
- .020" thick natural low density polyethylene material

ITEM #	LENGTH	WIDTH
107040	1"	13/16"

K-Stick Ladderless Sign Hanging System

## Heavy Duty Magnetic Adapter

Rectangular metal casing having a full three ceramic magnetic base making this part stronger than our common 3" long magnet #107037. Use this heavy duty magnet when more holding power is required. Perfect for larger upright signs or heavier displays. Two integrated mounting holes also offers additional strength benefits when attaching with screws or common 1/8" pop rivets – not included. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- Available with optional non-scratch inserts (see page 202)
- 1/4" overall height x 7/8" wide x 3" long
- Each end has a 1/8" diameter round hole
- Also available with adhesive – please inquire
- Nickel plated steel housing

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107050	3"	22 lbs.

## Extra Heavy Duty Magnetic Adapter

By far our strongest magnet for maximum holding power. Extra heavy duty rectangular metal casing containing an integrated ceramic magnetic block base. Use to display large format upright signs or heavy display products from metal surfaces such as gondola tops or pallet rack uprights. Mount with screws or common 3/16" pop rivets (not included). Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 1/2" overall height x 1-1/2" wide x 3" long
- Each end has a slotted shaped hole measuring .202" wide x .355" long
- Zinc plated steel housing

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107049	3"	60 lbs.

## Rectangular Neo Magnet With Adhesive

Low profile, popular neodymium magnet with clear adhesive transfer tape applied to one side. Compact, versatile magnet that assures full contact and maximum holding power. Small consistent radius edges equate to a smooth, burr-free product. Great for numerous P.O.P. applications. Simply peel off the 3M factory liner and stick to any clean, smooth surface. Best suited for indoor use.

**Warning:** Magnets should not be used near electronic equipment.

- Otherwise known as "Rare Earth Magnets"
- Super powerful and compact
- 1/16" thickness x 1/2" wide x 1" long
- Meets neodymium industry standard #3512 properties with adhesive on south pole side

ITEM #	OVERALL LENGTH	THICKNESS	FINISH
107059	1"	1/16"	Nickel

New Products

### Round Magnetic Adapter

Round magnetic casing containing an integrated ceramic magnetic base. Compact, versatile magnet assures full contact and maximum holding power. Use in a variety of applications: for instance, attaching signs and display products to metal surfaces such as shelving. Mount with adhesive or a common 3/16" pop rivet. Two sizes to choose from with both being removable and reusable.

**Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- Both sizes have a 3/16" diameter center hole
- Round magnet base with nickel plated round steel housing

ITEM #	BASE O.D.	OVERALL HEIGHT	HORIZONTAL CAPACITY
107055	1-13/32"	1/4"	15 lbs.
107047	2"	5/16"	35 lbs.

### Round Neo Disk Magnet

Extremely strong magnets for their small, compact size. Neodymium disk magnets are solid and do not have a center hole so mounting requires glue, adhesive and/or counter boring. Small consistent radius edges equate to a smooth, burr-free product. Great for use as display door latches offering a secure closure and extra holding power. Best suited for indoor use. **Warning:** Magnets should not be used near electronic equipment. Due to their small size, please keep away from children/pets.

- Otherwise known as "Rare Earth Magnets"
- Meets neodymium industry standard #4212 and #4512 properties
- Super powerful and compact

ITEM #	OUTSIDE DIAMETER	THICKNESS	FINISH
107051	7/16"	3/16"	Nickel
107227	1"	1/16"	Nickel

### Flexible Magnets

Convenient 100 ft. long rolls of our most popular flexible magnets. Offered two ways: in pre-cut (scored) pieces or on a continuous length roll that can easily be cut with scissors to any length. Great for mounting lightweight signs and display products to steel shelves or warehouse racks. Adheres to any clean, flat surface – simply peel and stick. Also known as Rubber Magnets or Magnetic Tape.

**Warning:** Magnets should not be used near electronic equipment.

- Custom lengths, widths and thicknesses also available – please inquire
- 1/16" thick flexible black magnet with clear acrylic adhesive backing for indoor or outdoor use
- Sold in full 100 ft. long rolls only

ITEM #	MAGNET SIZE	ROLL QUANTITY
107041	1/2" W x 1" L	1,200 pieces
107042	1" W x 2" L	600 pieces
107043	1" W x 100 Continuous Feet	100 feet

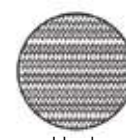

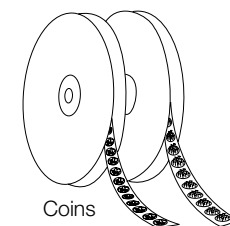

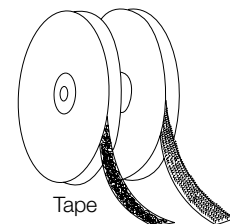

## Hook & Loop Fasteners

Highly popular for numerous P.O.P. applications and signs with changing messages. Hook and loop fasteners provide holding power with flexibility and fast set up time for immediate use. Simply peel tape or coins from paper/clear liner and stick to any clean, smooth, dry surface. Best suited for indoor use.

- Hook and loop sold separately
- Coins are also known as Buttons, Tabs or Dots
- Tape and coins made from durable woven nylon material
- Both tape and coins have high tack, rubber based adhesive backing
- Temperature use range: 0°F to 170°F
- Additional sizes and custom cuts can be made to order
- Packaged in continuous 25 yard long rolls
- Special packaging available, including mated sets or kiss-cut pieces

### Double-Sided Pre-Cut Foam Tape

Our most popular and convenient to use pre-cut sizes of double-sided white foam tape. Parts are supplied kiss cut (scored) on a roll for quick and easy application - simply peel and stick. Options are two-sided permanent or two-sided removable adhesive. Permanent style is high tack and bonds to low surface energy plastics, powder-coated materials and some UV coatings. Removable style is perfect for temporary displays or sign use on non-delaminating surfaces. Great for use on metal, cardboard, paper, plastic and PVC foam board surfaces.

- Can be cut smaller with scissors
- Permanent or removable adhesive on two opposing sides
- Permanent liner printed ink color is blue
- Removable liner printed ink color is green
- Additional lengths, widths, thicknesses and black also available – please inquire
- White foam material
- #150680 and #150682 are sheet perforated every 18 pieces
- Sold in full rolls only

ITEM #	WIDTH	LENGTH	THICKNESS	STYLE	ROLL QUANTITY
150680	1/2"	1"	1/16"	Permanent	20,000 pieces
150682	1/2"	1"	1/16"	Removable	5,000 pieces
150681	3/4"	2-3/4"	1/16"	Permanent	5,000 pieces
150683	3/4"	2-3/4"	1/16"	Removable	5,000 pieces
150684	1"	1"	1/16"	Removable	5,000 pieces

### Alcohol Swab

Include in hardware kits wherever adhesives or films are encountered. A soft isopropyl alcohol swab self-contained within a convenient tear packet. Use to properly clean and prepare surfaces before applying adhesive backed items (such as sign supports, data strips, flexible magnets or hook & loop products) for maximum holding strength. Can also be used to help remove stubborn adhesive residue or films from warehouse racking or store fixtures. **Warning:** Make certain that the surface is completely dry before applying adhesive backed products. Vapors can be strong, and direct contact with eyes may cause irritation.

- Single-use general cleaner for most surfaces
- 70% isopropyl alcohol preps by volume
- .062" thick white rectangular swab containing isopropyl alcohol
- Packaged 100 individually wrapped swabs per box

ITEM #	SWAB DIMENSIONS	PACKET DIMENSIONS
105010	1-1/4" H x 1" W	2-1/4" H x 1-3/4" W

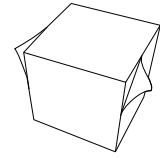

## Foam Block Stand-Off

Foam block stand-offs add dimension to displays and signage. Used to create a 3-D effect that makes your graphics stand out. Place foam blocks 1"-2" from the edge of your graphic to create multi-layered displays for added depth. Can also be used to create gondola shelf wobblers or aisle violators.

- 1" H x 1" W x 1" L square blocks
- Permanent adhesive on two opposing sides – simply peel and stick
- Can be stuck together to create longer stand-offs
- White foam material
- 36 kiss-cut blocks per sheet
- Sold in full sheets only

ITEM #	LENGTH	WIDTH	HEIGHT	COLOR
150675	1"	1"	1"	White

## Bumper Buttons

Non-marring adhesive backed bumper buttons. Great for attaching to cabinets, doors or to the bottom of displays and literature holders. Abrasion and skid resistant. Shock and vibration dampening. Easy peel & stick application to any clean, flat surface. Offered in both clear and black.

- Tops are flat, cylindrical style
- Adhesive is clear rubber based for either indoor or outdoor use
- Other shapes, sizes and colors also available – please inquire
- Polyurethane material
- 200 pieces per sheet/pad
- Sold in full sheets only

## Upright Flip Inserts

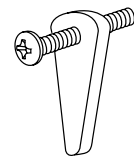

Securely attach signs, displays and fixtures onto common upright slots found in gondolas and warehouse pallet racking. Simply put the screw through the fixture, then into the threaded insert nut, then engage upright and tighten.

- Threaded nut inserts are .100" thick
- Screws have Slotted/Phillips combination drive undersized pan heads
- Both inserts and screws are zinc plated steel
- Parts come unassembled
- Packaged 100 nut inserts and 100 screws per bag

### Toggler® Anchor

All purpose, secure fitting, hollow wall fastener offering great versatility and extra holding power. Great for use in display construction, hollow walls, paneling and drywall. Simply fold down the 1-1/2" to 1-7/8" spread anchor wings, insert into hole and use key (sold separately) to expand the toggler wings. Can be used in combination with a #8 to #12 diameter self-tapping screw (also sold separately). If used with a screw, the screw may be removed and the anchor will remain in place for re-use.

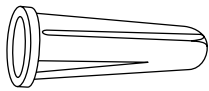

- 9/16" diameter round head
- For use in a 5/16" diameter hole, with material up to 1/2" thick
- Anchors and setting pin are sold separately
- Natural polypropylene material

ITEM #	SIZE	DESCRIPTION
140215	1/8" to 1/4" capacity	Anchor
140214	3/8" to 1/2" capacity	Anchor
140216	1-1/8" long	Red Setting Pin (Key)

Sign & Literature Holders

### Wall Anchor – Light Duty Conical

Our most economical anchor. For use in drywall, concrete, wood or brick. Anchor has horizontal fins that expand as screw is driven in. Excellent for use with lightweight menu boards, literature holders and signs. To install, insert anchor in drilled hole, insert screw through fixture into anchor and tighten.

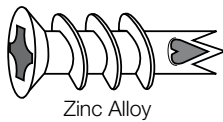

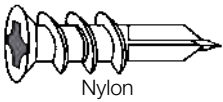

- Use in combination with a self tapping or wood screw (sold separately)
- Polypropylene material

ITEM #	FITS SCREW SIZE	LENGTH	HOLE DRILL SIZE	COLOR
140210	#8 to #10	7/8"	3/16"	Blue
140211	#10 to #12	1"	1/4"	Red

Display Construction

### Wall Anchor – Medium Duty Zip-It®

No pre-drilling of hole required. Self drilling point cuts right into 3/8" to 5/8" thick drywall. Simply screw anchor into drywall, then insert screw through fixture into anchor and tighten. Deep coarse threads create strong engagement and hold. Replaces plastic conical anchors where more strength is required.

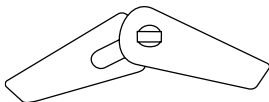

- Flush, low profile Phillips countersinking head
- Use in combination with a self tapping screw or screw eye (sold separately)
- Minimum required screw length engagement for all sizes is 3/4"

ITEM #	FITS SCREW SIZE	LENGTH	MATERIAL
140200	#6 x 1"	1-5/16"	Nylon
140202	#6 x 1"	1-1/16"	Zinc Alloy

### Wall Anchor – Heavy Duty Toggle Wing

Great for use in drywall, paneling, block and hollow base display construction where extra holding power is required. Spring wing type hollow wall anchor is made of two wings connected by a threaded nut and a coil spring. Wings open automatically behind the wall to prevent pull-through. To install, put the screw through the fixture, thread toggle wing onto screw, fold wings back and insert anchor through pre-drilled hole until wings spring open, then tighten screw.

- Use in combination with a machine screw or eye bolt (sold separately)
- Zinc plated steel material

ITEM #	FITS SCREW SIZE	LENGTH	HOLE DRILL SIZE *
140220	6-32 (1/8")	1-1/2"	3/8"
140222	10-24 (3/16")	2-1/8"	1/2"
140223	1/4-20 (1/4")	2-1/8"	5/8"

\* In hard/solid materials, you may need to drill the hole 1/16" larger than what is listed above.

Don't forget: we also carry screws!

Screws sold separately

K-Stick Ladderless Sign Hanging System

## Wing Nut & Bolt Kit

One complete set of all hardware needed to hold heavier displays securely. Also great for attaching sign fixtures to common shelf tops or undersides through the round, square or diamond shaped perforated shelf holes. Use two or more kits for larger displays. Parts are removable and reusable.

- Bolt is a 10-32 x 3/4" long Phillips pan head machine screw – steel, zinc plated
- Wing nut is a stamped style 10-32 – steel, zinc plated
- Flat washer is .375" O.D. x .194" I.D. x .062" thick natural nylon
- Each sealed, clear polybagged kit contains one bolt, one wing nut and one washer
- Other hardware sizes or packaging quantities per bag available – please inquire

## Economy Screwdrivers

Our most economical screwdrivers. Include these in hardware kits. Large, comfortable plastic handles offer a secure grip and solid turning power.

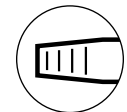

- #2 Phillips drive fits most screws 5-40 through 10-24 diameter
- #3 Phillips drive fits most screws 12-24 through 1/4-20 diameter
- 1/4" Slotted is the width of the tip of the blade
- Handles are 1" O.D. black polypropylene material
- Round blades are 15/64" dia. heat treated steel
- Items below have Phillips or Slotted drive blades – also available with Torx or Square drive blades

## Single End Economy Wrenches

Our most economical hex wrench. Designed for light duty, single-use (a.k.a. disposable style). Include these in hardware kits where light duty assembly is required.

- For use on common hex bolts and nuts, sizes 6-32 through 3/8" diameter
- 1" wide x 3" long
- 16 gauge cold rolled flat steel – zinc plated

ITEM #	SIZE *
105060	1/4" Hex Width Across Flats
105061	5/16" Hex Width Across Flats
105062	3/8" Hex Width Across Flats
105063	7/16" Hex Width Across Flats
105064	1/2" Hex Width Across Flats

\* **Please note:** Wrench sizes are based upon hex width across flats of nuts and bolts – not diameter

### Fastener & Label Remover Tool

Multi-purpose tool that is ideal for removing even the most stubborn push-in fasteners from shelving and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Unlike our competitors' less expensive plastic removal tools, our tool is made of steel and thus is far less likely to break under even extreme prying conditions.

- Smooth handle shape that forms to the hand for comfortable use
- Durable plastic handle is 3/4" wide x 5/8" thick
- Flat metal angled blade is 1/2" wide x 3/32" thick
- Integrated .234" diameter hole centered within the handle
- Black polypropylene handle with nickel plated steel blade

ITEM #	OVERALL LENGTH	HANDLE LENGTH	BLADE LENGTH
105090	7"	4-3/4"	2-1/4"

### Easy-Off Fastener & Label Remover Tool – Plastic

Strong, multi-purpose tool designed for removing fasteners from shelves and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Less likely to break than economy style plastic tools yet a less expensive alternative to our steel version tool. Extra-long handle design provides additional leverage for stubborn push-in fasteners.

- Two useful tools in one
- Durable handle is 5/8" wide x 7/16" thick
- Shovel style end with integrated prying fork
- Handy .297" diameter hole centered within the handle
- Durable acetal plastic

ITEM #	OVERALL LENGTH	COLOR
105092	8-1/2"	Orange

### Economy Fastener & Label Remover Tool

An inexpensive, economical style multi-purpose tool designed for removing fasteners from shelves and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Contoured ergonomic shaped universal tool.

- Smooth handle design that forms to the hand for comfortable use
- .828" x .640" thick with prying style fork end
- Integrated .297" diameter hole centered within the handle
- Polypropylene material
- Packaged 50 per box

ITEM #	OVERALL LENGTH	COLOR
105091	5-1/4"	Black

## Aluminum Binder Post & Screws 8-32

Each binder post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a nice clean look. Aluminum material is much stronger and more durable than nylon post and screw imitations. Binding capacity is determined by length of post used. Use one of three aluminum screws for standard, removable applications. Use #100043 for rapid assemblies in lightweight applications. Use #100049 for permanent applications.

- Post and screw sold separately
- Aluminum female posts are .203" dia. x .415" head O.D. – unslotted
- Aluminum male screws are 8-32 thread dia. x .415" head O.D. – slotted
- For use in 7/32" holes

\*\* Optional closed end short length posts

## Aluminum Binder Post Extensions 8-32

When used in conjunction with Aluminum Binder Posts, extensions add length in order to increase binding capacity as needed.

- .203" post diameter
- 8-32 thread diameter on both male and female ends
- #100030 accepts #100050 removable binder screw; all other extensions accept #100052
- For use in 7/32" holes
- Aluminum material

ITEM #	EXTENSION LENGTH
100030	1/4"
100031	1/2"
100032	3/4"
100033	1"

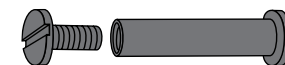

## Black Aluminum Binder Post & Screws 8-32

Durable black anodized finish on our most popular sizes of aluminum binder posts and matching screws. It should be noted that during the anodizing process a very small, randomly located contact point(s) will reveal a bare aluminum spot. Each black anodized post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a nice clean look. Binding capacity is determined by length of post used.

- Post and screw sold separately
- Female posts are .203" dia. x .415" head O.D. – unslotted
- Male screws are 8-32 thread dia. x .415" head O.D. – slotted
- Additional lengths available in black upon request
- For use in 7/32" holes
- Aluminum material, anodized black

## Brass Binder Post & Screws 8-32

Our most popular sizes of binder posts and screws in bright solid brass material. Each brass post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a nice clean look. Binding capacity is determined by length of post used.

- Post and screw sold separately
- Female posts are .203" dia. x .415" head O.D. – unslotted
- Male screws are 8-32 thread dia. x .415" head O.D. – slotted
- For use in 7/32" holes
- Not for use with #100049 PermaLock Screw
- Additional lengths available upon request
- Solid brass material
- Parts are passivated and waxed to help prevent tarnishing

K-Stick Ladderless Sign Hanging System

### Steel Barrel Bolts & Screws 1/4-20

Low profile, matching head on both the bolt and screw allow for a nice clean look. Zinc plated steel is much stronger than common aluminum binder posts. Each barrel bolt assembly consists of one bolt and one screw. Binding capacity is determined by length of barrel bolt used. Otherwise known as Sex Bolts or Chicago Screws.

- Barrel bolt and screw sold separately
- Female bolts are .312" dia. x .562" head O.D. – Slotted/Phillips combination
- Male screws are 1/4-20 thread dia. x .562" head O.D. – Slotted/Phillips combination
- For use in 21/64" holes
- Additional lengths available upon request
- Zinc plated steel material

### Rapid Assembly Plastic Binder Post & Screws 10-24

Large, low profile matching heads on both the post & screw allow for a nice, clean look. Screw can be pushed in for fast assembly. For best results, insert screw length completely. Removable and reusable. Each assembly consists of one post and one screw. Binding capacity is determined by length of post used. Otherwise known as Quick-Connect or Adjust-A-Locks.

- Post and screw sold separately
- Female posts are .240" barrel dia. x .562" head O.D.
- Male screws are 10-24 thread dia. x .562" head O.D.
- For use in 1/4" holes
- Plastic material
- Also available in clear

### Gripper Atlas Banner Hanger

A simple and economical way to hang signs and banners. Gripper fins hold heavier or longer length signs securely. Can also be used on the bottom edge of banners or posters to stabilize or keep straight. Removable and reusable.

- "U" shaped design with two grip sizes available
- Overall height is 9/16" for smaller capacity and 3/4" for larger capacity
- Top accepts either our #110503 or #110506 series hanger clips (sold separately)
- Gripper fins on bottom hold sign materials firm
- PVC material
- Also available in black

ITEM #	GRIP CAPACITY	OVERALL LENGTH	COLOR
110800	.015" to .080"	22"	Clear
110801	.015" to .080"	24"	Clear

### Round Graphic/Banner Hanger Clip

For use in conjunction with our Round Graphic/Banner Hanger (sold separately). Strong spring steel, zinc plated squeeze clip that provides an adjustable hanging point by sliding into the top track of the hanger. Use more than two hanger clips for long lengths or joined housings. Otherwise known as a "Kiwi" Clip.

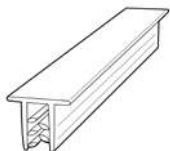

- .810" overall height x .500" wide
- .180" diameter center hole
- Friction fit
- .015" thick zinc plated spring steel
- Also available in black

K-Stick Ladderless Sign Hanging System

## Double Barbed Graphic Fastener

Internal holder option that acts as a cross member when pressed into holes along the top or bottom edges of signs that then slide into extruded frames. Accommodate any sign material up to .125" thick – perfect for use with our Round Graphic/Banner Hanger (sold separately).

- Recommended spacing is one fastener per 12 inches
- Press fit into 5/32" sized pre-drilled/punched holes
- Center flange with standard .305" long X-Mas Tree style fins on each side
- Proper installation is when center flange is flush with sign panel
- Black 6/6 nylon material

## Round or Square Economy Banner Joiner

An inexpensive, friction fit straight joiner that connects two or more Round or Square Graphic/Banner Hangers (sold separately). When centered, this joiner provides approximately 3 inches of internal connection/support. For added strength, the square profile can accept two joiners with one on each side (this double option is not available for the round profile). **Warning:** It is required to have a hanging point located near each joined section or sign frame may buckle.

- Designed for a straight, internal friction fit
- 1-3/8" height concave/curved design
- .030" thick black styrene material

## Heavy Duty Round Graphic/Banner Joiner

Loose fitting straight metal joiner that, when integrated set screws are tightened, securely connects two or more Round Graphic/Banner Hangers (sold separately). Simply center the joiner within the inner channel of the round housing, tighten the set screws with hex wrench (sold separately) and a heavy duty connection is complete. Don't forget to include the hex wrench in hardware kits where metal joiners are required. These angled wrenches are designed to fit and turn the integrated joiner set screws, and the long arm offers extra solid turning power. Added option: Remove one set screw and connect two plates together to create unlimited custom shapes and/or mitered angles. **Warning:** It is required to have a hanging point located near each joined section or sign frame may buckle.

- Joiner is 3" long x .323" wide x .070" thick tapped metal plate
- Pre-assembled with two 10-32 x 1/2" long cup point socket set screws
- Can also be used when joining a matching bottom stabilizer
- Not for use with our Square Graphic/Banner Hanger
- Can be ordered with two joiners connected together – please inquire
- Joiner is bright galvanized steel plate with black steel set screws
- Hex wrench is black oxide alloy steel, and has 3/4" long short arm & 3-1/2" long arm
- Wrench has 3/32" hex key size that fits the joiner's integrated 10-32 set screws

### Square Graphic/Banner Hanger

A dramatic, tubular way to prominently dress up signs and banners, both large and small. Grips and displays permanent or semi-permanent overhead advertisements securely and easily. Pick an internal holder option (sold separately), attach to edge of graphic and slide holder into square housing – it's that easy! Optional accessories include inserts, joiners, hanger clips and end caps. Also works great with common 1/4" to 1/2" hemmed wooden or plastic dowel rods (as found on page 284). Optional square PVC material can be shaped and joined to create circular, oval, curved or serpentine mobiles for high visual impact.

- 1-1/2" square shape
- Holds a wide range of sign materials
- Can also be used as a matching bottom edge stabilizer or to ladder one sign below the other
- Custom colors, materials, lengths, shapes and/or mitered angle cuts also available
- Black high impact polystyrene (HIPS) material

### Gripper Simple Banner Hanger

A simple and economical way to hang signs and banners. Gripper fins hold heavier or longer length signs securely. Unlike other banner hangers, this simple hanger has integrated holes and is a one-piece design: thus; no need for hanger clips, clamps or adapters. Removable and reusable.

- 3/4" overall height
- 5/32" diameter hanging holes
- Gripper fins on bottom hold sign materials firm
- Custom lengths and colors available
- PVC material

ITEM #	GRIP CAPACITY	LENGTH	COLOR
110850	.015" to .080"	22"	Clear
110851	.015" to .080"	24"	Clear

### Vinyl Graphic Banner Hanger Track

Are you tired of bowed, wavy or flimsy vinyl banner presentations when hung from traditional wooden dowels or strung from metal grommets? If so, we have the solution! This ingenious banner hanger track displays sewn/hemmed vinyl, fabric or paper graphics in a dramatic straight, crisp and level manner. Simply slide our Plastic Vinyl Graphic Banner Dowel Rod (sold separately – see below) into the sleeve of an edge sewn graphic and then into the inside track – it's that easy. For longer lengths, use two or more plastic dowel rods end to end. **Patent Pending.**

- Features a handy V-notch entryway to help banners slide in
- 1/2" wide x 7/8" overall height
- Use with end caps (sold separately) for a clean, finished appearance
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Custom lengths and colors available – please inquire
- White PVC material

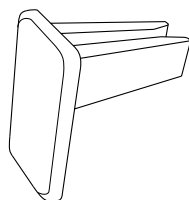

ITEM #	LENGTH	MATING PLASTIC ROD (SOLD SEPARATELY)
220220	24"	1 pc of 220201
220221	26"	1 pc of 220202
220222	36"	1 pc of 220203
220223	48"	1 pc of 220200
220225	72"	2 pcs of 220203

### Banner Hanger Track End Cap Retainer

Friction fits directly onto the neck area of our line of Vinyl Graphic Banner Hanger Tracks. Provides a decorative end "stop" that helps retain our Plastic Vinyl Graphic Banner Dowel Rods within the "C" channel bottom track.

- 7/8" height x 1/2" width
- External legs are 3/4" long
- Textured face
- Rectangular shape
- White polycarbonate material

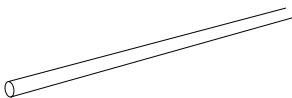

ITEM #	FOR USE WITH
220005W	Vinyl Graphic Banner Hanger Tracks

### Plastic Vinyl Graphic Banner Dowel Rod

Use to economically display sewn/hemmed fabric or vinyl banners. Simply slide this round rigid plastic dowel into the sleeve of an edge sewn graphic and then into the inside track of our Vinyl Graphic Banner Hanger Track. Also works great with our Elliptical Aluminum Hanger (sold separately) or our Round and Square Plastic Hangers (also sold separately). Unlike wooden dowels, plastic dowels are extruded smooth with no chance of splinters or splinters. For longer lengths, use two or more dowels end to end.

- 1/4" diameter solid rigid dowel
- Use with end caps (sold separately) for a clean, finished appearance
- Dowels are always produced 1/8" shorter than below stated lengths to assure a proper fit
- Custom lengths available – please inquire
- White acrylic material

ITEM #	LENGTH	DIAMETER	COLOR
220201	24"	1/4"	White
220202	26"	1/4"	White
220203	36"	1/4"	White
220200	48"	1/4"	White

## Wooden Banner Dowel Rods

A simple, inexpensive way to support signs and displays horizontally from exposed ceilings, walls or windows. Great for displaying sewn/hemmed fabric or vinyl banners. Simply slide this round, rigid wood dowel into the top and/or bottom sleeve of an edge sewn graphic. Can be combined with Pear Clips, Snap Rings or Screw Eyes/Eyelets (sold separately) to hang signs in place. Also can be used as a stabilizer for bottom sewn/hemmed banners. **Warning:** Not recommended for the combined use of both barbed cords and screw eyes/eyelets unless the cord is tied directly to the screw eye.

- For an additional charge, end holes can be pre-drilled and/or screw eyes/eyelets inserted – please inquire
- Additional hanging accessories available such as rigid plastic End Caps and Screw Eyes (sold separately – see below)
- Three common diameters to choose from
- Other lengths and diameters available – please inquire
- Premium natural poplar or birch hardwood – kiln dried
- Sold in full bundles only

ITEM #	LENGTH	DIAMETER	BUNDLE QUANTITY
411211	36"	3/8"	100 pieces

## Wooden Banner Dowel Joiner

For use in conjunction with our Wooden Banner Dowel Rods (sold separately). Provides a sturdy joining option for two or more of the same diameter dowels, or easy breakdown for shipping purposes. Create wider banner displays or maximize horizontal space. Strong, friction-fit connector design.

**Warning:** Because wood naturally takes on or gives off moisture, joiners may tend to seasonally fit tightly or loosely.

- Double ended, friction-fit design
- Both sizes have an overall length of 2-9/16"
- Natural translucent polypropylene material
- Other sizes and colors available – please inquire

ITEM #	FOR USE WITH	OVERALL LENGTH
411236	1/2" dia. Wooden Banner Dowel Rods	2-9/16"
411237	3/4" dia. Wooden Banner Dowel Rods	2-9/16"

K-Frame Sign Holders

## Wooden Banner Dowel End Cap

For use in conjunction with our Wooden Banner Dowel Rods (sold separately). Provides both a sturdy hanging point and a decorative finishing touch when slid onto the ends of common round wooden dowels. Works great with many common hanging hardware options such as metal hooks or barbed cords. Strong friction fit design. **Warning:** Not recommended for use with barbed cords unless cord is tied to the end hole. Further, because wood naturally takes on or gives off moisture, end caps may tend to fit tightly or loosely.

- Both the 3/8" and 1/2" diameters have an overall length of 1-5/16" and a hole size of 3/16"
- The 3/4" diameter has an overall length of 1-7/16" and a hole size of 5/16"
- All three sizes have a 3/4" dowel receiving depth when fully inserted
- Natural translucent polypropylene material or black
- Other sizes and colors available – please inquire

## Wooden Banner Dowel Screw Eye

For use with our Wooden Banner Dowel Rods (sold separately). When properly inserted into pre-drilled ends of common wooden dowel rods, these inexpensive screw eyes/eyelets offer a sturdy hanging point. Works with many common hanging hardware options such as metal hooks or barbed cords.

**Warning:** Not recommended for use with barbed cords unless cord is tied directly to the screw eye.

- For an additional charge, screw eyes/eyelets can be factory inserted into our full line of wooden banner dowel rods – please inquire
- .080" wire diameter x 13/16" overall length with 5/32" closed eye I.D.
- Other sizes and colors/finishes available – please inquire
- Steel with bright zinc plate

K-Stick Ladderless Sign Hanging System

### Metal Vinyl Graphic Banner Rod System

A quick and inexpensive way to suspend signs and displays horizontally from exposed solid or split beam open style warehouse ceilings. Can be combined with Pear Clips or Snap Rings (sold separately) to lock signs into place. Great for displaying sewn/hemmed fabric or vinyl banners. No tools required. Won't sag or warp like common wooden banner dowel rods. Each complete assembly requires one support tube and two or more cable assemblies – each sold separately. Each cable assembly includes our highly popular self-locking cable adjuster with a looped cable end assembly connected to a snap-on conduit hanging clip together in a convenient polybagged kit. **Warning:** Use only in dry, indoor locations with conduit hanging clips placed a minimum of 3/4" inward from each end of the support tube.

- Cable is 1/16" dia. (7x7) galvanized steel x 30 ft. long
- Conduit hanging clip is 3/4" wide x 1-5/8" long and is made of spring steel with zinc plate
- Round support tube is rigid 3/4" EMT conduit (.922" O.D.) x .049" wall thickness, painted white
- 10 ft. support tube requires an additional cable assembly hanging point located in the middle
- Other cable and support tube lengths and colors available – please inquire

ITEM #	OVERALL LENGTH	COMPONENT TYPE	NUMBER OF CABLE ASSEMBLIES REQUIRED	FINISH	SAFE WORKING LOAD LIMIT
220191	4 ft.	Support Tube	2	White	16 lbs.
220193	6 ft.	Support Tube	2	White	16 lbs.

105130	30 ft.	Cable Assembly	n/a	Zinc	16 lbs.

### Conduit Support Tube Hanging Clip

For use in conjunction with our line of round Conduit Support Tubes (sold separately). Ingenious push-on type hanging clip that simply and securely snaps directly onto common 3/4" (.922" O.D.) rigid EMT conduit without the need for any additional hardware such as nuts or bolts. Integrated sharp jagged teeth hold firm and resist removal when fully engaged on painted or plain steel conduit. Center hole on top is great for attaching metal hooks, locking rings, chain or cable. **Warning:** Use only in dry, indoor locations with clips placed a minimum of 3/4" inward from each end of the support tube. Removable and reusable.

- No tools required
- 3/4" wide x 1-5/8" long with 9/32" diameter centered top hole
- Also available in black or other colors – please inquire
- .027" thick zinc plated spring steel
- Packaged 100 per bag

ITEM #	OVERALL LENGTH	FOR USE WITH
411205	1-5/8"	Conduit Support Tubes

### Spiral Sign Board

Extruded panel holds both promotional signs and pricing simultaneously and cost effectively. When combined with our spiral sign board brackets and pads (both sold separately), these double-sided rigid boards are ideal for gondola tops, end caps and other in-store areas with changing price points. Display numerical and/or reading pads plus message graphics from one or both sides. Also can be hung from walls, windows or ceilings via integrated holes.

- #108839 holds 7-7/8" to 8" height signs in top channel (up to 1/8" thick) and 11-1/8" height spiral sign pads in bottom channel, with two 3/8" diameter mounting/hanging holes
- #109506B holds 4-1/2" height spiral sign pads in top channel (up to 5/32" thick) and 8" height spiral sign pads in bottom channel, with two 5/16" diameter mounting/hanging holes
- High impact polystyrene (HIPS) material
- One-sided boards, other lengths or colors also available – please inquire
- Packaged 10 per box

ITEM #	OVERALL LENGTH	OVERALL HEIGHT	FOR SPIRAL SIGN PADS	COLOR
108839	34"	20-3/8"	11-1/8" Tall	White

### Universal Three-Sided Mobile Kit

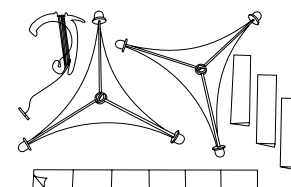

Our most economical three-way mobile kit. Plastic three-sided formers and all components needed to both support and hang graphic posters. An inexpensive way to turn advertising posters into eye-catching displays. Easy assembly.

**Poster hole info:** Hole sizes should be 1/4" diameter to accommodate former pop thru tips. Two centered holes are required per poster. All posters must be the same size for proper balance.

**Universal mobile info:** Top and bottom plastic formers secure three posters from 9" to 40" wide. Holes should be spaced a minimum of 3/4" from both the top and bottom edges of the poster.

- Formers are 4-1/2" wide x 1/2" thick, three sided
- Each former also has an integrated small loop for optional bottom dangler attachment
- Panel edge clips are 2" long
- Formers are natural polypropylene material
- Panel edge clips are clear PVC material
- Each polybagged kit contains one 6 ft. white Ceiling Hook & Cord, two formers, three panel edge clips, six pieces of two-sided white foam tape and assembly instructions

### Triway Mobile Kit

Plastic triangular formers support and hang graphic posters. Can also accommodate display poles (1" to 1-1/2" O.D.) and turning motors by simply removing the center disk in the bottom former. An inexpensive way to turn advertising posters into eye catching, three sided, mobile or pole topped displays. Easy assembly.

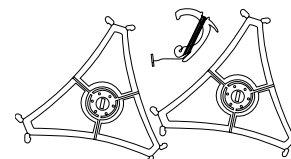

**Poster hole info:** Hole sizes should be 7/32" diameter to accommodate former pop thru tips. Four holes are required per poster. All posters must be the same size for proper balance.

**Small triway:** Top and bottom plastic formers secure three posters from 10" to 24" wide. The top and bottom pair of holes should be 3-3/16" to each side of the center of the poster.

**Large triway:** Top and bottom plastic formers secure three posters from 20" to 40" wide. The top and bottom pair of holes should be 6-5/16" to each side of the center of the poster.

- Small formers are 6-3/8" wide x 5/16" thick, three sided
- Large formers are 12-5/8" wide x 1/2" thick, three sided
- Formers are natural polypropylene material
- Each polybagged kit contains one 6 ft. white Ceiling Hook & Cord, two formers and assembly instructions

### Wire Mobile Hanger & Cord

Versatile metal hook that installs easily on, or over, a variety of exposed ceiling supports or grids. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners.

- Hook opening is 1-1/4" wide and can negotiate over most metal ceiling grids
- Hook is .062" wire diameter x 5-1/4" overall length, bright galvanized spring steel
- Clear monofilament cord with zinc plated barbed end
- Packaged 25 per bag

ITEM #	CORD LENGTH	CORD COLOR
108040	5 ft.	Clear

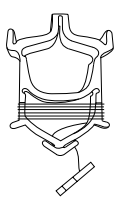

### Brass Wire Mobile Hanger & Cord

Versatile brass wire hook that installs easily on a variety of exposed ceiling supports or on the edge of common ceiling grids. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Solid brass wire material will not rust and can easily be bent as required.

- Hook opening is 5/8" wide and can be bent if desired
- Hook is .046" wire diameter x 4-5/8" overall length, solid brass material
- Clear monofilament cord with zinc plated barbed end
- Packaged 25 per bag

ITEM #	CORD LENGTH	CORD COLOR
108041	4 ft.	Clear
108042	6 ft.	Clear

### Snap-Lock Ceiling Clip & Cord

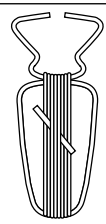

Plastic clip that hinges and locks securely onto most standard ceiling grids with a claw-like feature. Unravel the wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Compatible with most installation/extension poles, including our red end poles (page 250).

- Clip is 1/2" wide and extends 1-1/2" from ceiling grid
- Twists off for easy removal
- Clip is white polypropylene
- Packaged 200 per bag

Installation Poles sold separately (see page 250)

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL
107084	4 ft.	White	Braided Polyester
107084C	4 ft.	Clear	Monofilament
107086	6 ft.	White	Braided Polyester

107088	8 ft.	White	Braided Polyester
107088C	8 ft.	Clear	Monofilament

### Metal Squeeze Clip & Cord

Locks onto ceiling grid with a simple squeeze. Unwind barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners.

- Clip is .062" wire diameter x 3-1/2" overall length, bright galvanized spring steel
- Cord is braided polyester material
- Packaged 100 per bag

ITEM #	CORD LENGTH	CORD COLOR
107056	6 ft.	White
107056B	6 ft.	Black

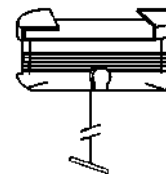

### Ceiling Twist Clip & Cord

Plastic clip attaches to ceiling grid with a simple turn and lock feature. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Built-in slits allow for micro adjustments of cord length for even hanging. Compatible with most installation/extension poles, including our red end poles (see page 250).

- Clip is 2" long x 1/2" wide
- Clip is white polypropylene material
- Packaged 100 per bag

### Branched Multi-Cord Ceiling Clips

Twist-on style clip attaches to ceiling grid with a simple turn and lock feature. Versatile plastic hook installs easily on a variety of exposed ceiling supports or grids. Unravel wound barbed cord to desired length. Use to suspend three-paneled or four-paneled lightweight signs, mobiles and banners. Compatible with most installation/extension poles, including our red end poles (see page 250).

- Two ceiling grid attachment styles available
- Both twist-on clip & hook are white polypropylene material
- Cord is white braided polyester material
- 6 ft. long cord consists of one 4 ft. cord plus multiple 2 ft. long barbed branches
- Packaged 100 per bag

ITEM #	STYLE	OVERALL CORD LENGTH	NUMBER OF BRANCHES
107053	Twist-On Clip	6 ft.	3

### Barbed Cords

Use in conjunction with a Plastic Grid Clip With Hole (see page 245) or Hanging Coil (see page 249) to economically suspend lightweight signs. Recommended panel hole size is 1/8" to 3/16" diameter.

- White & black cords are tangle resistant
- Clear mono cord is nearly invisible
- .094" dia. x 5/8" long zinc plated steel barbs on both ends
- Length is measured between the barbs
- Other lengths and custom ends also available
- Packaged 100 per bundle

## Elastic Barbed Cords

Stretches to approximately twice its length. Use to hold and suspend lightweight signs.  
Recommended panel hole size is 1/8" to 3/16" diameter.

- Length is measured between the barbs
- Other lengths, custom ends and colors also available
- Elastic rubber inner cord wrapped in durable .060" dia. white or black polyester
- .109" dia. x 11/16" long zinc plated steel barbs on both ends
- Packaged 100 per bundle

## Mobile Springs

Economical sign suspension solution that is both adjustable and tangle-free. Hang lightweight signs and mobiles fast, straight and level with ease. Spiral wire with hook ends. Pulls out to a variety of lengths, from 6 inch up to 8 feet, and stays put; thus yielding exact sign heights, as desired. Low carbon steel hook ends can be hand-bent to hook directly onto the edge of most common ceiling grids. Also known as Stretchies or Jet Wires.

- 6" long part is .060" O.D. spiral wire
- 8" and 12" long parts are .075" O.D. spiral wire
- 3/8" hook openings on both ends
- Not a spring: will not return to original length once stretched
- Galvanized steel wire material
- Sold in full bags only

ITEM #	RESTED LENGTH	MAX. STRETCHED LENGTH	PACKAGED
108030	6 in.	4 ft.	100 per bag

### Plastic Double "C" Hooks – Locking Ends

Fixed length clear plastic, teardrop shaped, locking loop ends that hang signs level. A safer alternative to clear plastic or metal open end Double "C" Hooks. Removable and reusable. Clear color is not as noticeable as common wire hooks. Also known as Safety Hooks.

- 5/32" diameter
- 1-1/4" length x 7/16" width locked loops on both ends
- Can be linked together for multiple lengths
- Minimum recommended panel hole size is 13/64"
- Polycarbonate material
- Packaged 50 per bundle

ITEM #	OVERALL LENGTH	COLOR
220306	6"	Clear
220312	12"	Clear
220318	18"	Clear

## “S” Hooks

Nice range of common lengths and diameters for various hanging applications.

- Steel material, stocked in the finishes listed below

ITEM #	WIRE DIAMETER	LENGTH	FINISH

## Aluminum Ceiling Hook

Interlocking two piece metal hook is reusable and extremely sturdy. Easy “slide on” ceiling grid installation. Each complete assembly (either hook or ring) requires two pieces. Simply slide one interlocking left and right together to form a hook, or two lefts/two rights to form a ring.

- 1" wide x 1-1/2" long
- 1/4" hook opening
- .040" thick aluminum, painted white

ITEM #	SIDE
107026	Left
107027	Right

**Reminder:** Complete assembly requires two pieces (either one left & one right, or two of the same), which are sold separately

## Magnetic Hooks

Display lightweight signs and products from metal surfaces. Magnets are easily placed and removed. Attaches well to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- All three sizes offered are 1-1/4" overall length
- Round magnet base with round metal housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
107030	1"	9 lbs.	.187"	Powder Coated White
107031	1-1/4"	14 lbs.	.187"	Powder Coated White

### Ceiling Twist Side Exit Cable Adjuster

Suspend lighting, signs and other fixtures directly to common drop-ceiling style grids in a vertical fashion. Twist-on-to-lock ceiling grid attachment design that quickly and easily allows for adjustment of bare cable (sold separately). Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Holes on the top side and underside allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope). Do not use on painted or coated cable. Not recommended for suspension of objects at angles.

- For use on standard 15/16" ceiling grid tee bars
- Turn and lock base is 1-1/2" long x 1" wide with 20 gauge steel painted white
- Cable adjuster body is 1" long x .354" diameter
- Cable passes through the bottom and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 100 per bag

### Grid Ceiling Spanner Bar

Allow for pinpoint positioning of signage at any location on the ceiling without being limited to the location of existing ceiling grids. No tools required. Simply rotate ends in place over existing ceiling grid edges – notched ends allow for a secure overlap. Also known as Cross Beams and Tile Dividers.

- Compatible with most grid ceilings
- Works in conjunction with all types of metal and plastic ceiling clips & hooks (sold separately)
- .048" thick aluminum, painted white

ITEM #	LENGTH	WIDTH
104100	24"	1"

K-Stick Ladderless Sign Hanging System

### “V” Clip

Most economical way to attach to a grid ceiling. Very strong for its small size.

- Galvanized spring steel
- Packaged 500 per bag

ITEM #	WIRE DIAMETER	LENGTH
107001	.047"	1"

### Swivel Snail Disk With Adhesive

Simply peel and stick for a secure hold on smooth plaster or other solid flat ceiling surfaces. Integrated metal loop rotates so signs can be hung at perfect viewing angles.

- 1-1/4" overall length
- Hang horizontally or vertically
- Round base has adhesive backing
- Loop is steel with zinc plate
- Base is white polypropylene material
- Packaged 100 per bag

ITEM #	BASE O.D.	LOOP WIDTH
107014	1-1/2"	11/32"

Sign & Literature Holders

K-Frame Sign Holders

### Hanging Coil

Both sizes screw into any location on an acoustic tile ceiling, with the 3/8" O.D. being the most popular. Also used on foam board (a.k.a. Gator Board) edges. Small loop makes it great for use with Barbed Cords (sold separately – see page 240).

- Galvanized spring steel
- Packaged 100 per bag

ITEM #	WIRE DIAMETER	O.D.	LENGTH
106005	.035"	1/4"	1"

### Warehouse Ceiling Hook For Split Beam

Use to hang banners from exposed split beams. Works great with cable and chain (sold separately). Compatible with most installation/extension poles, including our red end poles (see below).

- 4-1/4" wide x 7-1/4" tall
- 11-gauge (.121" diameter) wire
- Holds up to 7 lbs. when hung properly
- Zinc plated steel material

ITEM #	WIDTH	HEIGHT	FOR USE ON
107008	4-1/4"	7-1/4"	Split Beams

Installation Poles sold separately (see below)

### Installation Poles

Hang or remove signs, banners and ceiling accessories from ground level without the need for a ladder – quick and safe! Smooth telescopic pole for use with a wide variety of our plastic and metal sign hanging components (sold separately). Otherwise known as Lifter or Extension Poles.

- Permanently affixed 2" inside width red plastic socket end
- Clear satin anodized finish with black hand grip
- Reliable twist-lock features
- Lightweight aluminum material

ITEM #	EXTENDED LENGTH	FOR MAXIMUM CEILING HEIGHTS	COLLAPSED LENGTH	NUMBER OF SECTIONS

220027	18 ft.	23 ft.	65"	4

### Threaded Extension Pole

Fixed single length economy style or smooth telescopic poles with standard acme threaded ends that are designed to fit multiple styles of common internally threaded end accessories such as squeegees, paint rollers or reaching mechanisms. Otherwise known as installation poles.

- Integrated 3/4" diameter reinforced acme threaded black plastic end tip x 1" long
- Clear satin anodized finish with black plastic hand grip end
- Telescopic styles offer reliable twist-lock features
- Lightweight aluminum material

ITEM #	EXTENDED LENGTH	COLLAPSED LENGTH	NUMBER OF SECTIONS
220004	4 ft.	48"	1
220010	10 ft.	47"	3
220018	18 ft.	65"	4

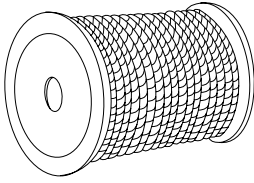

**CABLE & CHAIN**

## Steel Cable

Flexible galvanized aircraft quality cable (wire rope) is stronger and less expensive than chain. Also, cable is thinner and less noticeable than chain. The recommended safe working load is a 5 to 1 ratio (i.e. approximate break strength divided by 5).

- Both bare and coated cable available
- Packaged on single plastic spools at the lengths listed below
- Custom lengths available

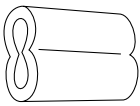

ITEM #	WIRE DIAMETER	SPOOL LENGTH	MATERIAL	COATING	APPROX. BREAK STRENGTH	RECOMMENDED SAFE WORKING LOAD

## Cable Sleeves (Crimps)

Cable sleeves are used in conjunction with steel cable for looping and swaging ends. **Warning:** Swaging over vinyl or nylon coated cable will result in severely reduced holding power and is not recommended in applications where human safety, lifting or full wire strength is involved.

- Oval duplex design
- Cable sleeves are also known as Crimps or Ferrules

ITEM #	CABLE DIAMETER	MATERIAL

## Looped End Cable Assemblies

Flexible bare steel cable assemblies with factory installed, crimped-on fittings. Very strong and durable.

- Standard assemblies (those listed below) have cable-sleeved loops on both ends
- Custom lengths, cable diameters or loop configurations are also available
- Other cable endings include straight cuts (no fitting), button stops, eyelets and ball stops

ITEM #	CABLE DIAMETER	OVERALL LENGTH	LOOP LENGTH
102001	1/32"	6"	1/2"
102002	1/32"	12"	1/2"
102003	1/32"	18"	1/2"

102009	1/16"	24"	3/4"
102010	1/16"	36"	3/4"
102011	1/16"	48"	3/4"

Other popular cable end fittings available:

eyelet

ball stop

button stop

straight cut (no fitting)

Order your parts pre-assembled to save you time & money.

## Fixed Style Cable End – Snap Hook

When properly swaged over 1/16" bare cable (sold separately), this fitting gives you a fixed snap hook at the end of your cable assembly. J-shaped, spring snap design offers multiple uses. Creates a quick and easy way to hang banners, displays, or even lighting and electrical fixtures. **Please note:** This fitting cannot be crimped with a hand swager tool. This must be factory installed (crimped) using a hydraulic press – please inquire with cable length(s) required. **Warning:** Not designed for lifting.

- 2-1/8" overall length
- When crimped onto cable, will extend cable assembly by approximately 1-1/2" per end
- .175" wire diameter
- 3/8" snap opening
- Zinc plated steel

ITEM #	FITS OVER	SAFE WORKING LOAD LIMIT
105113	1/16" (7x7) Bare Cable	25 lbs.

Have Kinter create your custom cable assembly for you. Just hang & go!

### FACTOID

We have over 5,000,000 feet of cable in-stock. And the team and equipment to cut, loop, crimp and spool in-house. Cable. Solved.

### Bullet Style Cable Adjuster

Fast and easy way to form a loop with bare cable (sold separately) to suspend lightweight signs and fixtures vertically or at slight angles. Smaller and less expensive option as compared to our 1/32" K-Rize Cable Adjusters. "Bullet" shaped jacket contains an integrated wedge and spring that acts as both a cable release and a locking mechanism for easy height adjustments. **Warning:** Use only on bare cable (wire rope) in dry, indoor locations. Do not use on coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- No special tools or setting keys required
- Reliable built-in 10 to 1 safety factor
- Nickel plated brass material
- Packaged 500 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	LENGTH	DIAMETER	SAFE WORKING LOAD LIMIT
105115	1/32" (3x7)	1"	5/16"	11 lbs.

### Bullet Style Cable & Adjuster Kits

Our economically priced self-locking "bullet" shaped cable adjuster with an attached looped end cable in a convenient kit. Easily raise or lower signs with no tools required. Adjustable hanging loop length of cable is a minimum of half its stated length and a maximum of its full stated length. 1/32" cable is great for lightweight applications. **Warning:** Use only in dry, indoor locations. Suspension of objects at angles reduces the safe working load limits (call for details).

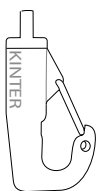

- Cable is 1/32" dia. (3x7) galvanized steel
- Cable is permanently attached to adjuster on one end and has a 3/4" long loop & crimp on the other end
- Economy style cable adjuster that needs no special tool or setting key
- Cable with adjuster holds up to 11 lbs.
- Other cable lengths available upon request
- Each sealed, clear polybagged kit contains one adjuster and one cable, pre-assembled

ITEM #	CONTENTS	APPROX. LOOP LENGTH RANGE
105140	One Bullet Style Adjuster and One 5 ft. long Cable	2-1/2 ft. thru 5 ft.
105141	One Bullet Style Adjuster and One 10 ft. long Cable	5 ft. thru 10 ft.
105142	One Bullet Style Adjuster and One 20 ft. long Cable	10 ft. thru 20 ft.
105143	One Bullet Style Adjuster and One 30 ft. long Cable	15 ft. thru 30 ft.

### Bullet Style Cable Adjuster – Heavy Duty Snap Hook

Quick and easy way to add an adjustable snap hook to bare cable (sold separately). Suspend signs and fixtures with less hardware and more flexibility: the all-in-one cable adjuster with integrated snap hook means no separate hook is needed, and the bullet style adjuster allows for repeated changes to hanging length. Internal wedge and spring acts as both a cable release and a locking mechanism for simple height adjustments. **Warning:** Use only on bare cable (wire rope) in dry, indoor locations. Do not use on coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Holes at top and bottom allow either 1/32" dia. or 1/16" dia. bare cable to pass through
- 3/8" snap opening
- Nickel plated brass material

ITEM #	LENGTH	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105114	1-5/8"	1/32" (3x7)	15 lbs. (when used with 1/32" cable)
		or	or
		1/16" (7x7)	50 lbs. (when used with 1/16" cable)

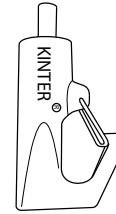

## Wholesale Snap Hook Bottom Exit Cable Adjuster

Our least expensive snap hook cable lock. Quick and easy way to add an adjustable snap hook to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with bottom exit for easy height adjustments. Holes at top and bottom allow cable to traverse directly through. Lightweight, self-locking and reusable. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- 1-3/16" overall length with 13/64" snap opening
- Cable passes through the top and exits out the bottom
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated zinc alloy and brass material
- Packaged 200 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105159	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

## Wholesale Threaded Side Exit Cable Adjuster

Choose between male (external) or female (internal) thread. Quick and easy way to add an adjustable threaded receiver fitting to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Lightweight, self-locking and reusable. Holes at top and on the side allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- Body is 1" long x .354" diameter
- Bottom of female adjuster has internally tapped 10-32 threading x 1/4" depth
- Bottom of male adjuster has 10-32 external threading x 5/16" long
- Cable passes through the top and exists out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and/or steel material
- Packaged 200 per bag

#105161 #105157

ITEM #	THREAD TYPE	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105157	Female	1/32" (3x7) and 1/16" (7x7)	7 lbs. for 1/32" & 30 lbs. for 1/16"
105161	Male	1/32" (3x7) and 1/16" (7x7)	7 lbs. for 1/32" & 30 lbs. for 1/16"

## Pigtail Hook Side Exit Cable Adjuster

Versatile "pigtail" shaped open hook design that quickly and easily adds an adjustable hook to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Lightweight, self-locking and reusable. Holes at top and on the side allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limit (call for details).

- Body is 1" long x .354" diameter
- Pigtail shaped hook end is .140" wire diameter with a 3/16" hook opening x 13/16" overall length
- Cable passes through the top and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 200 per bag

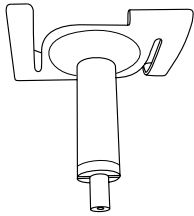

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105158	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

### Ceiling Twist Side Exit Cable Adjuster

Suspend lighting, signs and other fixtures directly to common drop-ceiling style grids in a vertical fashion. Twist-on-to-lock ceiling grid attachment design that quickly and easily allows for adjustment of bare cable (sold separately). Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Holes on the top side and underside allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope). Do not use on painted or coated cable. Not recommended for suspension of objects at angles.

- For use on standard 15/16" ceiling grid tee bars
- Turn and lock base is 1-1/2" long x 1" wide with 20 gauge steel painted white
- Cable adjuster body is 1" long x .354" diameter
- Cable passes through the bottom and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 100 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT *
105160	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

\* Rating is for cable adjuster only & is not for the ceiling grid. Consult ceiling grid weight specifications.

### Looping Cable Adjuster

A fast and easy way to form loops with cable (sold separately) to suspend signs, lighting and other fixtures vertically or at slight angles. Adjusters have a unique ball bearing push-button feature for easy height adjustments. Lightweight, self-locking and reusable. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- #105155 measures 3/4" length x 3/4" width
- #105156 measures 1-3/16" length x 1-3/16" width
- No special tools or setting keys required
- Up to six (6) times faster to install than historical methods
- Reliable built-in 5 to 1 safety factor
- Aircraft quality aluminum material

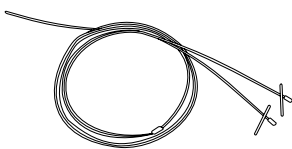

ITEM #	FOR USE WITH BARE CABLE DIAMETER	SAFE WORKING LOAD LIMIT	PACKAGED
105155	1/32" (3x7) and 1/16" (7x7)	15 lbs. for 1/32" & 75 lbs. for 1/16"	100 per bag
105156	3/32" (7x7) and 1/8" (7x7)	150 lbs. for 3/32" & 250 lbs. for 1/8"	50 per bag

### "Y" Drop Style Cable Assemblies

Simple single point high bay environment ceiling suspender having two integrated leg end attachment points. Perfect for cable baskets and light fixtures. Two common branched leg end styles to choose from. Captive toggle paddle style is designed to conveniently fit into specific hole diameters of common light fixtures. Snap hook style is perfect for cable baskets and trays. Great for use in conjunction with our line of Wholesale Looping Cable Adjusters (sold separately – see above).

- Toggle ends are 1-1/2" overall length x 7/32" wide
- Snap hook ends are 3" overall length x 1/4" wire dia. with 5/8" snap opening
- Safe working load limit is 70 pounds
- Cable is 1/16" dia. (7x7) galvanized steel
- End fittings are zinc plated steel
- Other cable diameters and lengths available upon request

#109537

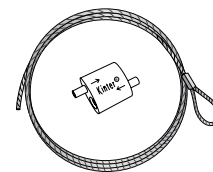

## Cable & Adjuster Kits

Our highly popular self-locking cable adjuster with a looped end cable together in a convenient kit. Adjust height of signs easily with no tools required. 1/16" diameter cable is very strong. **Warning:** Use only in dry, indoor locations. Suspension of objects at angles reduces the safe working load limits (call for details).

- Cable is 1/16" dia. (7x7) galvanized steel and holds up to 75 lbs.
- Cable is straight cut on one end and has a 3/4" long loop on the other end
- Other cable lengths available upon request
- Each sealed, clear polybagged kit contains one adjuster and one cable, unassembled

## Beaded Chain Assemblies

Our most popular lengths of attractive beaded (ball) chain assemblies with factory installed single connector end. Well suited for use on bulky loose leaf material, swatches or samples, or on signs and promotions. Chain clips together for a secure, fixed length. **Warning:** Connector end may be difficult to link.

- Various lengths available in common #3, #6 and #10 ball chain sizes
- Chains are linkable to make longer chains
- Optional accessories sold separately
- Also available with coupling end for forming adjustable length loops – please inquire
- Custom lengths, colors and finishes available
- Silver nickel plated steel

## Beaded Chain Accessories

All accessories work in conjunction with our line of beaded/ball chain (sold separately). Connector ends (also known as Links or Clasps) have a solid back and are the most common by simply offering an end attachment at a fixed length. Coupling ends work the same as connector ends, but are more versatile by also offering an integrated, oversized back hole for creating optional adjustable loops. Both types are great when used as connectors for splicing links of beaded chain together for endless assemblies. **Warning:** Connectors and/or couplings may be difficult to link.

- Connectors have a solid backing and are small in size
- Couplings have a hollow, open backing and are a bit larger in size
- Both connectors and couplings are linkable and can be used to make longer chains
- Silver nickel plated metal

ITEM #	CHAIN SIZE	END TYPE	LENGTH
104025	#3	Connector	3/8"
104026	#6	Connector	29/64"
104029	#3	Adjustable Coupling	3/8"

## REDUCE RISK AND COSTS WITH THE K-STICK LADDERLESS SIGN HANGING SYSTEM

K-Stick is versatile, lightweight and works with all ceiling types, windows and walls. No wonder K-Stick is eliminating ladder falls in over 15,000 retail locations nationwide. For your FREE K-Stick Sample Kit go to [kstick.com](http://kstick.com) or call 800.323.2389.

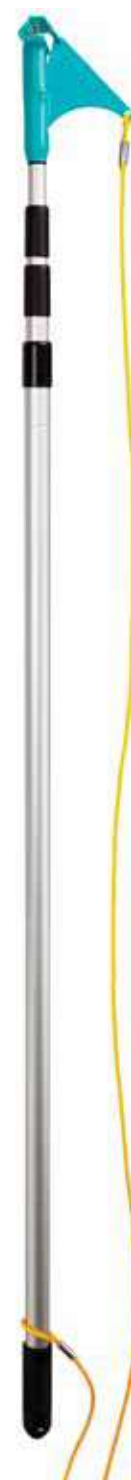

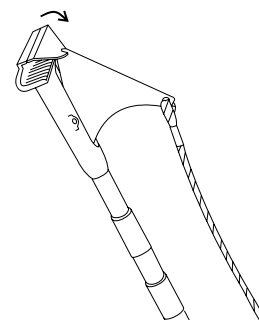

## K-Stick® Ladderless Pole

Hang, remove or rotate ceiling, wall and window signs and banners from ground level, without the need for a ladder. Quick and safe! Fixed single length economy style or smooth telescopic poles for use with all of our magnetic, cleat or hook style ladderless sign hanging system holders and accessories. Each K-Stick includes our **Patented & Patent Pending** “easy pivot” 6-1/4" long green plastic gripper pole end with attached yellow braided pull cord (some minor assembly required; instruction sheet included). For best sign hanging results, keep the pole vertical as it is extended to the ceiling. Use two or more poles when raising or lowering larger signs.

- Otherwise known as Installation Poles or Extension Poles
- Integrated 3/4" diameter reinforced acme threaded black plastic end/tip
- Clear satin anodized finish with black hand grip
- Telescopic styles offer reliable twist-lock features
- Sold as a full unit only – separate replacement parts are not available
- Lightweight aluminum material

K-Stick Ladderless Sign Hanging System

### Ladderless Magnetic Banner Hanger

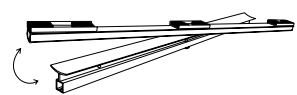

A safe and simple way to hang signs and banners from metal ceiling grids/surfaces that are up to 23 feet in height. One piece, strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 263). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 7/8" wide x 1-1/8" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Not recommended for use on ceiling grid perimeters
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT ON WINDOWS *	SAFE WORKING LOAD LIMIT ON CEILING *
220507	14"	2	3 lbs.	4 lbs.
220508	26"	3	3 lbs.	4 lbs.
220509	36"	4	3 lbs.	4 lbs.

### Ladderless 360 Degree Magnetic Banner Hanger

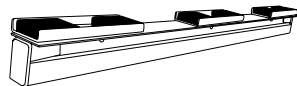

A safe and simple way to hang signs and banners from metal ceiling grids/surfaces that are up to 23 feet in height. Unlike our stationary ladderless options, this hanger turns a full 360 degrees, thus allowing your signage to be faced at optimal viewing angles. Strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For both placing and pivoting from ground level, use our K-Stick Ladderless Poles (see page 263). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 1-1/8" wide x 1-5/8" overall joined height (including attached ceramic magnets)
- Two 3/16" diameter hanging holes (one at each end)
- Not recommended for use on ceiling grid perimeters
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *
220531	14"	2	3 lbs.
220532	26"	3	3 lbs.
220533	36"	4	3 lbs.

### Ladderless Magnetic Banner Hanger – Heavy Duty

An even stronger version of our popular Ladderless Magnetic Banner Hanger. With three separate 3" long ceramic magnets attached closer together, this heavy duty banner hanger will stand up to any competitor’s neodymium magnetic holders. A safe and simple way to hang larger, heavier signs from metal ceiling grids/surfaces that are up to 23 feet in height. One piece, strong magnetic design with attached end cap retainers, integrated holes and a “C” channel bottom track that accepts various sign hanging options such as metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 263). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 7/8" wide x 1-1/8" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Attached white end cap retainers included
- For best strength results, hang signs from the two end holes or in a sling-like fashion – please inquire
- Not recommended for use on ceiling grid perimeters or with our Ladderless Mounting Plates
- Custom colors available
- White PVC with nickel plated steel magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *
220517	14"	3	5 lbs. (when used with K-Stick Pole) or 8 lbs. (without K-Stick Pole)

\* Safe working load limit is based on a single banner hanger having a minimum of two sign hanging points

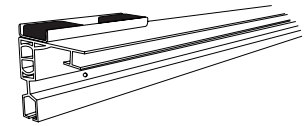

## Ladderless Magnetic “C” Channel Banner Hanger

When used with our Ladderless Mounting Strips (sold separately), this ingenious 90 degree sign hanger makes it both safe and simple to magnetically hang and display signs and posters from the inside of window frames. Can also be used in conjunction with our Ladderless Mounting Plates (sold separately) to hang signs directly from drywall ceilings. Also works well on ceiling grids and the lip of ceiling grid perimeters. One piece, strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options, such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). Also use in conjunction with our Plastic Banner Dowel Rod (sold separately) to display sewn/hemmed fabric or vinyl banners for a clean finished appearance. For use from ground level with our K-Stick Ladderless Poles (see page 263). Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2" wide x 2" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *
220521	26"	3	3 lbs.
220522	36"	4	3 lbs.
220523	48"	5	3 lbs.

### Ladderless Magnetic Atlas Banner Hanger

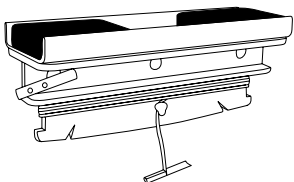

When used with our Ladderless Mounting Strips (sold separately), this ingenious, 90 degree sign hanger makes it both safe and simple to magnetically hang and display signs from the inside of window frames. Can also be used in conjunction with our Ladderless Mounting Plates (sold separately) to hang signs directly from drywall ceilings. Also works well on ceiling grids and the lip of ceiling grid perimeters. For use from ground level with our K-Stick Ladderless Poles (see page 263). Slides directly onto the top edge of banners or posters for a secure friction fit. Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2" wide x 1-1/4" overall height (including attached ceramic magnets)
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

### Magnetic Ladderless Ceiling Clip & Cord

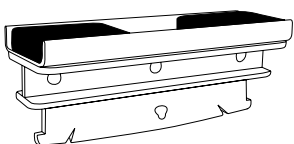

A magnetic version of our highly popular Ceiling Twist Clip & Cord. Use to suspend lightweight signs, mobiles, banners and seasonal decorations. Easily attaches magnetically to ceiling grids or other exposed metal overhead ceiling fixtures/supports. Unravel wound barbed cord to desired length. Built-in slits allow for micro adjustments of cord lengths for even hanging. Works with our K-Stick Ladderless Poles (see page 263) for simple installation and removal from ground level. **Warning:** Always test suitability on a per-application basis. Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 3" long x 7/8" wide x 1-1/4" overall height (including attached ceramic magnet)
- Clip has three evenly spaced .156" diameter holes
- Also available with black cord – please inquire
- White styrene clip with nickel plated steel magnet

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL	SAFE WORKING LOAD LIMIT

### Magnetic Ladderless Ceiling Clip With Holes

Use to suspend lightweight signs, mobiles, banners and seasonal decorations. Easily attaches magnetically to ceiling grids or other exposed metal overhead ceiling fixtures/supports. Small holes make it great for attaching wire hooks and barbed cords (sold separately). Works with our K-Stick Ladderless Poles (see page 263) for simple installation and removal from ground level. **Warning:** Always test suitability on a per-application basis. Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 3" long x 7/8" wide x 1-1/4" overall height (including attached ceramic magnet)
- Clip has three evenly spaced .156" diameter holes
- White styrene clip with nickel plated steel magnet

ITEM #	LENGTH	NUMBER OF HOLES	HOLE DIAMETER	SAFE WORKING LOAD LIMIT
220070	3"	3	5/32"	1 lbs.

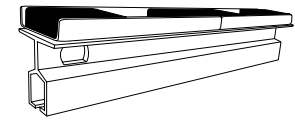

## Magnetic Ladderless Ceiling Clothes Hanger Adapter

A safe and simple way to suspend and display varieties of garments for any occasion, message or season. This inexpensive hanger adapter easily attaches magnetically to ceiling grids or other exposed metal overhead ceiling fixtures/supports. Further, when combined with our Ladderless Mounting Strips (see page 284), this ingenious hanger also makes it easy to place or change out clothes from the inside of window frames. For use from ground level with our K-Stick Ladderless Poles (see page 263). Create full 360 degree optimal clothing viewing angles by combining with swiveling hook clothes hangers (not included). For extra hanging length from taller ceilings or windows, simply combine with our Block End Hooks and/or End Cap Retainers (see page 285). **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 7/8" wide x 6" long x 1-1/8" overall height (including attached ceramic magnets)
- .406" long slotted hole size on one end for hooking of clothes hanger
- Can be used with either stationary (non-swiveling) or swivel hook style clothes hangers – not included
- Not for use with oversized plastic clothes hangers or with our line of ladderless mounting plates for drywall ceilings
- White PVC with nickel plated magnets
- Custom colors also available – please inquire

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *
220071	6"	2	2 lbs.

\* Includes the weight of the clothes hanger being used

## Ladderless Magnetic "C" Channel Wall Banner Hanger

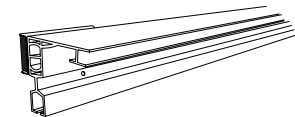

When used with our Ladderless Mounting Plates (sold separately), this ingenious 90 degree sign hanger makes it both safe and simple to magnetically hang and display signs flush from walls. One piece, strong magnetic design with integrated holes and a "C" channel bottom track that accepts various sign hanging options, such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). Also use in conjunction with our Plastic Banner Dowel Rod (sold separately) to display sewn/hemmed fabric or vinyl banners for a clean finished appearance. For use from ground level with our K-Stick Ladderless Poles (see page 263). Removable and reusable – all safely from floor level.

**Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2-1/4" wide x 1-3/4" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *

K-Stick Ladderless Sign Hanging System

### Ladderless Magnetic Gripper Apollo Wall Banner Hanger

When used with our Ladderless Mounting Plates (sold separately), this ingenious, 90 degree hinged sign hanger makes it both safe and simple to magnetically hang and display signs and posters flush from walls. For use from ground level with our K-Stick Ladderless Poles (see page 263). Designed to quickly and easily attach a banner to the hanger. Just snap open, insert sign and snap down to close. Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2-1/4" wide x 1-1/2" overall height (including attached ceramic magnets)
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

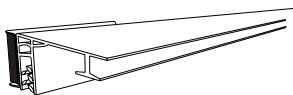

ITEM #	GRIP CAPACITY	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT
220546	up to .040"	26"	3	3 lbs.
220547	up to .040"	36"	4	3 lbs.
220548	up to .040"	48"	5	3 lbs.

### Ladderless Magnetic Gripper Wall Banner Hanger

When used with our Ladderless Mounting Plates (sold separately), this ingenious 90 degree sign hanger makes it both safe and simple to magnetically hang and display signs flush from walls. For use from ground level with out K-Stick Ladderless Poles (see page 263). Gripper fins hold heavier or longer length signs securely. Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2-1/4" wide x 1" overall height (including attached ceramic magnets)
- Two 5/32" diameter cross-member mounting holes – one on each side
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated magnets

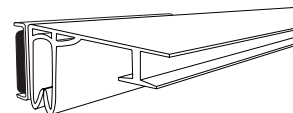

ITEM #	GRIP CAPACITY	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT
220572	.100" to .250"	26"	3	3 lbs.

## Ladderless Stackable Spiral Sign Board

Add promotional signs or change pricing easily. Removable and reusable – all safely from floor level. When used with our Ladderless Magnetic Gripper Banner Hanger #220561 and our Stackable Push-In Fastener #120411 (both sold separately) this modular, double sided sign board holds and displays common Spiral Sign Board Pads (also sold separately – see page 74). Side-access spiral sign pads insert and remove easily to change prices. Attach one spiral sign board to another in a “ladder” fashion to create dual messaging, or combine with our Stackable “C” Channel Sign Board(s) to add single or multiple top/bottom sign inserts. **Warning:** Each sign board connection must be securely held together with our Stackable Push-In Fasteners #120411. **Patented.**

- Two 1/4" diameter top mounting/hanging holes (one at each end)
- Upper mounting track section holds common 3/8" diameter spiral bound sign pads
- Lower “J” style mounting track section holds pads up to 5/32" thick
- Also accepts 8-1/4" tall sign inserts up to 5/32" thick
- Custom colors, lengths, heights or one sided boards also available – please inquire
- White high impact polystyrene (HIPS) material

ITEM #	OVERALL LENGTH	OVERALL HEIGHT	FOR SPIRAL SIGN PADS

## Ladderless Stackable “C” Channel Sign Board

Add promotional signs or change message inserts easily. Removable and reusable – all safely from floor level. When used with our Ladderless Magnetic Gripper Banner Hanger #220561 and our Stackable Push-In Fastener #120411 (both sold separately) this modular, double sided track holds and displays multi-pricing inserts and directory or aisle identification signs. Attach one “C” channel sign board to another in a “ladder” fashion to create dual messaging, or combine with our Stackable Spiral Sign Board(s) to add single or multiple top/bottom spiral bound pricing information.

**Warning:** Each sign board connection must be securely held together with our Stackable Push-In Fasteners #120411. **Patented.**

- Two 1/4" diameter top mounting/hanging holes (one at each end)
- Open face design on both sides accepts 5-1/2" tall signs that are up to 3/32" thick
- For taller signs simply use multiple stacked channels
- Custom colors, lengths, heights or one sided boards also available – please inquire
- White high impact polystyrene (HIPS) material

## Stackable Push-In Fastener

Use to connect our line of modular “C” channel and spiral sign boards to each other in a “ladder” fashion (one below the other), or to make each “ladderless” by attaching to our Magnetic Gripper Banner Hanger #220561 – all sold separately. Acts as a cross-member when pressed into mating holes along the top or bottom edges of our family of stackable message boards. Hollow body design allows the clip to compress when pushed into hole, then expand back for a secure hold that resists removal. No tools required. Removable and reusable.

- Press fit into 5/32" diameter pre-drilled/punched holes
- Proper installation occurs when the head is seated completely to the mating sign board or banner hanger
- Natural 6/6 nylon material
- Also available in black or special colors – please inquire

Binder Banner Hanger

Wall Mount Track

## Ladderless Binder Cleat Wall Banner Hanger

Are you looking to mount large signs directly to walls? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out signs of almost any size directly from walls. Each assembly consists of one wall mount track and one binder banner hanger piece – both sold separately. Simply prep the wall by screwing the wall mount track piece to the wall (mounting hardware included) and then fasten the binder banner hanger piece onto the top edge of the sign (barrel bolt and screw fastening hardware included) and gravity does the rest. Signs hang approximately 1 inch offset from wall which, when combined at the bottom of the sign with our #150675 Square Foam Blocks (see below), creates a handsome dimensional effect. Removable and reusable – all safely from floor level. For use from ground level with our K-Stick Ladderless Poles (see page 263). **Warning:** Not recommended for outdoor use. Wall mount track must be firmly attached to wall. Male and female barrel bolt fastening hardware must be fully screwed together. **Patented.**

- Wall mount track and binder banner hanger piece are each sold separately
- Wall mount track has holes at 16" on center and comes with toggle screw anchors, stud screws and an instruction sheet
- Pre-drilling of holes for wall mount track is required (drill bit sold separately – see page 287)
- Wall mount track piece is 3" tall x 1" wide
- Binder banner hanger piece has multiple 5/16" diameter holes – please inquire for recommended sign hole size and placement
- Binder banner hanger piece comes with white painted steel male and female barrel bolt fastening hardware and an instruction sheet
- Binder banner hanger piece is 1-3/4" tall x 2-1/2" wide
- Custom colors and lengths available – please inquire
- White PVC material

220633	48"	up to 5/8"	Binder Banner Hanger	5 lbs.
220635	72"	up to 5/8"	Binder Banner Hanger	5 lbs.

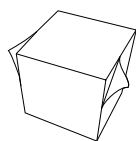

\* For larger, heavier signs over 5 pounds it is possible to have two or more individuals, each with a K-Stick, raise or lower simultaneously (call for details).

## Foam Block Stand-Off

Foam block stand-offs add dimension to displays and signage. Used to create a 3-D effect that makes your graphics stand out. Place foam blocks 1"-2" from the edge of your graphic to create multi-layered displays for added depth. Can also be used to create gondola shelf wobblers or aisle violators.

- 1" H x 1" W x 1" L square blocks
- Permanent adhesive on two opposing sides – simply peel and stick
- Can be stuck together to create longer stand-offs
- White foam material
- 36 kiss-cut blocks per sheet
- Sold in full sheets only

ITEM #	LENGTH	WIDTH	HEIGHT	COLOR
150675	1"	1"	1"	White

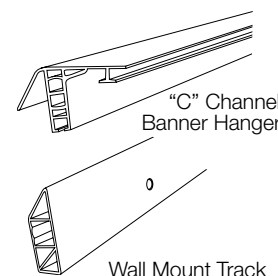

## Ladderless “C” Channel Cleat Wall Banner Hanger

Are you looking to hang large vinyl, sewn/hemmed banner type signs directly from walls? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out banners of almost any size directly from walls. Each assembly consists of one wall mount track and one banner hanger piece – both sold separately. Also requires our Plastic Banner Dowel Rod (sold separately – see page 284) to display sewn/hemmed fabric or vinyl banners for a clean finished appearance. “C” channel bottom section also accepts various sign hanging options, such as plastic block end hooks or our line of ladderless clips. Simply prep the wall by screwing the wall mount track piece to the wall (mounting hardware included) and then fasten the “C” channel hanger piece onto the top edge of the banner and gravity does the rest. Signs hang approximately 1 inch offset from wall which creates a handsome dimensional effect. Removable and reusable – all safely from floor level. For use from ground level with our K-Stick Ladderless Poles (see page 263). **Warning:** Not recommended for outdoor use. Wall mount track must be firmly attached to wall. **Patented.**

- Wall mount track and “C” channel banner hanger piece are each sold separately
- Wall mount track has holes at 16" on center and comes with toggle screw anchors, stud screws and an instruction sheet
- Pre-drilling of holes for wall mount track is required (drill bit sold separately – see page 287)
- Wall mount track piece is 3" tall x 1" wide
- “C” channel banner hanger piece accepts our line of Plastic Banner Dowel Rods (sold separately – see page 284)
- “C” channel banner hanger piece is 1-3/4" tall x 2-1/4" wide
- Custom colors and lengths available – please inquire
- White PVC material

## Ladderless Cleat Banner Hanger For Glass

Are you looking to mount signs directly to glass and windows? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out signs and posters directly from glass surfaces. Each assembly consists of one suction cup track piece and one banner hanger piece – both sold separately. Simply prep the window by affixing the suction cup track piece to the glass and then slide the Atlas friction fit banner hanger piece onto the top edge of the graphic and gravity does the rest. For use from ground level with our K-Stick Ladderless Poles (see page 263). Removable and reusable – all safely from floor level.

**Warning:** Suction cup release tabs must not face directly upward or mating banner hanger may catch and cause cups to release. Apply cups to clean, non-porous surface for best results. **Patented.**

- Suction Cup Track and Atlas Banner Hanger are each sold separately
- Suction cup track piece comes with 2-1/2" O.D. pre-assembled **USA made** suction cups, measures 1-1/2" in total height, and requires a minimum of 2-1/2" of clearance from the top of window frame
- Atlas friction fit banner hanger piece is 2" wide x 1" overall height
- Not recommended for outdoor use
- Custom colors and lengths available – please inquire
- Clear PVC material

### Ladderless Hook Banner Hanger

A safe and simple way to hang signs and banners from exposed metal overhead ceiling fixtures or supports that are up to 23 feet in height. One-piece, strong shepherd shaped open hook design with integrated holes and a "C" channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 263). Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

- 7/8" wide x 15/16" height extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Custom lengths and colors available – please inquire
- White PVC with zinc plated metal hooks

### Ladderless 360 Degree Hook Banner Hanger

A safe and simple way to hang signs and banners from exposed overhead ceiling fixtures or supports that are up to 23 feet in height. Unlike our stationary ladderless options, this hanger turns a full 360 degrees, thus allowing your signage to be faced at optimal viewing angles. Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. Strong shepherd open hook design with integrated holes and a "C" channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For both placing and pivoting from ground level, use our K-Stick Ladderless Poles (see page 263). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

- 1-1/8" wide x 1-7/16" height joined extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Two 3/16" diameter hanging holes (one at each end)
- Custom lengths and colors available – please inquire
- White PVC with zinc plated metal hooks

### Ladderless Hook Banner Hanger – Heavy Duty

An even stronger version of our popular Ladderless Hook Banner Hanger. By simply placing our shepherd shaped open hooks closer together, this heavy duty banner hanger is a safe and simple way to hang larger, heavier signs from exposed overhead ceiling fixtures or supports that are up to 23 feet in height. Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. One-piece, strong hook design with attached end cap retainers, integrated holes and a "C" channel bottom track that accepts various sign hanging options such as metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 263). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

- 7/8" wide x 15/16" height extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Attached white end cap retainers included
- For best strength results, hang signs from the two end holes or in a sling-like fashion – please inquire
- Custom colors available
- White PVC with zinc plated metal hooks

ITEM #	LENGTH	HOOK STYLE	HOOK I.D.	# OF HOOKS	SAFE WORKING LOAD LIMIT *
220519	14"	Standard	6"	2	5 lbs. (when used with K-Stick Pole) or 8 lbs. (without K-Stick Pole)
220489	14"	Mini	2-1/2"	2	5 lbs. (when used with K-Stick Pole) or 8 lbs. (without K-Stick Pole)

\* Safe working load limit is based on a single banner hanger having a minimum of two sign hanging points

K-Stick Ladderless Sign Hanging System

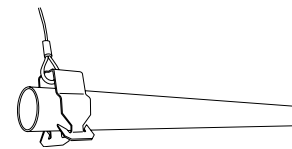

## Adjustable Trapeze Banner Hanger System

Permanently lower your reach on very high ceilings to easily accessible heights. A quick and inexpensive way to suspend signs and displays horizontally from exposed solid or split beam open style warehouse ceilings. Can be used with our full line of Ladderless Hook Banner Hangers, or can be combined with Pear Clips or Snap Rings (sold separately) to lock signs into place. Also great for displaying sewn/hemmed fabric or vinyl banners. No tools required. Each complete assembly requires one support tube and two or more cable assemblies – each sold separately. Each cable assembly includes our highly popular self-locking cable adjuster with a looped cable end assembly connected to a snap-on conduit hanging clip together in a convenient polybagged kit. **Warning:** Use only in dry, indoor locations with conduit hanging clips placed a minimum of 3/4" inward from each end on the support tube.

- Cable is 1/16" dia. (7x7) galvanized steel x 30 ft. long
- Conduit hanging clip is 3/4" wide x 1-5/8" long and is made of spring steel with zinc plate
- Round support tube is rigid 3/4" EMT conduit (.922" O.D.) x .049" metal wall thickness, painted white
- 10 ft. support tube requires an additional cable assembly hanging point located in the middle
- Other cable and support tube lengths and colors available – please inquire

## 360 Degree Trapeze Banner Hanger Adapter Kit

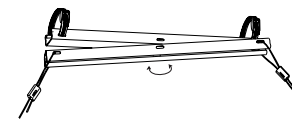

Ingenious flush mount trapeze adapter that can be used to place, support and pivot our Adjustable Trapeze Banner Hanger System (sold separately) from exposed metal overhead fixtures or supports. Unlike our stationary adjustable trapeze, this hanger turns a full 360 degrees, thus allowing signs to be faced at optimal viewing angles. Two-piece, strong pivoting "U" track design with integrated slotted holes that accept our mounting hose clamps (included) on the top and our trapeze system cable assemblies (sold separately) on the bottom. Simply attach the top side directly to an exposed solid or split beam open style warehouse ceiling support with the included hose clamps and then pass the cables from our Adjustable Trapeze Banner Hanger System through the bottom holes – it's that easy!

**Warning:** Hose clamps must be firmly fastened and locked to the overhead fixture or support. Use only in dry, indoor locations.

- 1-5/8" wide x 1-5/8" height joined pivoting "U" track assembly
- Three 3/16" height x 5/8" long slotted holes on each "U" track
- Two 1/2" wide x 1-3/4" through 7-3/4" diameter grip range stainless steel mounting hose clamps included with an instruction sheet
- Slotted screwdriver for hose clamps required (sold separately – see page 287)
- .060" metal wall thickness painted white

ITEM #	OVERALL LENGTH	NUMBER OF HOLES	SAFE WORKING LOAD LIMIT *
220033	18"	3 per track	16 lbs.

### Ladderless Mounting Strip

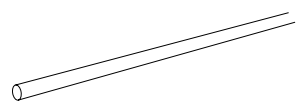

Are you looking to hang signs from window frames/sills that are not magnetically receptive, such as frames made of finished wood, vinyl or aluminum? If so, we have the solution! This inexpensive, adhesive-backed steel strip attracts magnets and can be used with our line of ladderless magnetic banner hangers. Simply peel and stick to almost any clean, flat surface. Can also be attached to existing magnetic window frame strips for added strength. Use multiple strips to create unlimited lengths. **Warning:** Do not attach directly to glass, as glass could break during use.

- For use on front face or underside of the top of indoor window frames
- Not recommended for outdoor use
- Black acrylic based adhesive-backed liner
- Custom lengths and colors available – please inquire
- .024" thick white painted steel

ITEM #	OVERALL LENGTH	WIDTH
220121	26"	1"
220122	36"	1"
220123	48"	1"

### Plastic Banner Dowel Rod

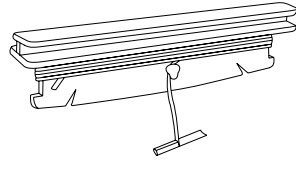

Use to economically display sewn/hemmed fabric or vinyl banners. Simply slide this round rigid plastic dowel into the sleeve of an edge sewn graphic and then into the inside track of our Ladderless Magnetic "C" Channel Banner Hanger (page 275). Also works great with our Elliptical Aluminum Hanger, our Round and Square Plastic Hangers, and our Vinyl Graphic Banner Hanger Tracks (all sold separately). Unlike wooden dowels, plastic dowels are extruded smooth with no chance of splinters. For longer lengths, use two or more dowels end to end.

- 1/4" diameter solid rigid dowel
- Use with end caps (sold separately) for a clean, finished appearance
- Dowels are always produced 1/8" shorter than below stated lengths to assure a proper fit
- Custom lengths available – please inquire
- White acrylic material

ITEM #	LENGTH	DIAMETER	COLOR
220201	24"	1/4"	White
220202	26"	1/4"	White
220203	36"	1/4"	White
220200	48"	1/4"	White

### Ladderless "C" Channel Clip & Cord

A friction fit version of our highly popular Ceiling Twist Clip & Cord. Used to suspend signs, mobiles, banners and seasonal decorations directly from the track of our full line of Ladderless Magnetic and Ladderless Hook Banner Hangers that have an integrated bottom "C" channel. Two styles to choose from: a lightweight standard duty or a stronger heavy duty option. Unravel wound barbed cord to desired length. Built-in slits allow for micro-adjustments of cord lengths for even hanging.

**Patented.**

- The standard style clip is 3" long x 3/4" overall height with a light duty cord and a 5/8" long metal barb
- The heavy duty style clip is 4" long x 1" overall height with a heavy duty cord and a 7/8" long metal barb
- Clip is white styrene material
- Also available with black cord – please inquire
- Packaged 50 per bag

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL	STYLE	SAFE WORKING LOAD LIMIT *

\* Safe working load limit is based on a single banner hanger having a minimum of two sign hanging points

### Ladderless End Cap Retainer

Friction fits directly onto the neck area of our line of ladderless magnetic and hook banner hangers, as well as our Vinyl Graphic Banner Hanger Tracks, that have an integrated bottom “C” channel. Provides a decorative end “stop” that helps retain hanging hardware, adapters or spiral signs/pads within the “C” channel bottom track.

- 7/8" height x 1/2" width
- External legs are 3/4" long
- Textured face
- Rectangular shape
- White polycarbonate material

### Ladderless Mounting Plates

Are you looking to magnetically hang signs from ceilings, walls or perimeter soffits, but do not have ceiling grids or other exposed metal fixtures/supports? If so, we have the solution! This inexpensive round disk creates a magnetically-receptive surface almost anywhere. For use on ceilings or walls, and can be used with our full line of ladderless magnetic banner hangers. When combined with our Ladderless Toggle Screw Mounting Plate Anchor or Mounting Plate Stud Screw (sold separately), these metal plates are great for use on drywall, wallboard, wood, paneling, plaster, block and other hollow base materials. **Patented.**

- Use one plate at 11 inches on center for each banner hanger magnet (not for use with our #220517 Heavy Duty Hanger)
- For use on both ceilings and walls
- Additional colors and finishes available – please inquire
- .033" thick zinc plated (silver) or white painted steel

ITEM #	I.D.	O.D.	FINISH
220115	9/16"	4"	Zinc Plate
220115W	9/16"	4"	White

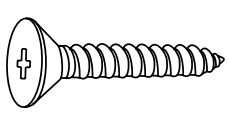

### Ladderless Toggle Screw Mounting Plate Anchor

Two-piece, heavy duty anchor for extra holding power, used in conjunction with our Ladderless Mounting Plates (sold separately). Great for use in ceilings, walls or perimeter soffits made of plaster, paneling, drywall, block or other types of hollow wall materials. Pre-drilling of holes is required. Simply put the screw through the mounting plate, thread toggle wing onto screw, fold wings back, insert anchor through pre-drilled hole until wings spring open and then firmly tighten screw.

- Toggle wings are 10-24 (3/16") x 2-1/8" overall length
- Screw has a flush, low profile Phillips countersunk head
- Hole drill size is 1/2" (drill bit sold separately – see page 287)
- Both screws and toggle wings are zinc plated (silver) steel
- Parts come unassembled
- Other colors available – please inquire
- Packaged 50 screws and 50 toggle wings per bag

ITEM #	SCREW DIAMETER	SCREW LENGTH	SCREW HEAD FINISH
220114	10-24 (3/16")	3"	Zinc Plate
220114W	10-24 (3/16")	3"	White

### Ladderless Mounting Plate Stud Screw

One-piece, coarse thread screw anchor for use in conjunction with our Ladderless Mounting Plates (sold separately). Features a sharp point that engages right into wood studs to create a strong hold. Use in place of our two-piece toggle screw mounting plate anchor for instances when hollow walls or hollow ceilings are not available. Include in hardware kits as an anchoring option for when wood studs may be encountered. Pre-drilling of holes is required. Simply insert the screw through the mounting plate and screw flush into wood studs or solid wood surfaces – it's that easy. **Warning:** Not designed for use on metal studs or in hollow wall materials (such as wallboard or drywall) unless wood studs are directly encountered.

- Screw has a flush countersunk head with a Phillips drive
- Hole drill size is 7/32" (drill bit sold separately – see page 287)
- Zinc plated steel material

ITEM #	SCREW DIAMETER	SCREW LENGTH	SCREW HEAD FINISH
220112	#14	1-3/4"	Zinc Plate
220112W	#14	1-3/4"	White

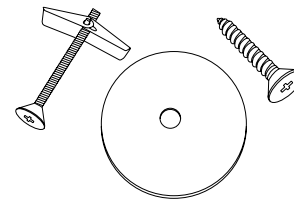

## Ladderless Mounting Plate Hardware Kits

Everything you need to make most any ceiling or wall surface magnetically receptive for our full line of Ladderless Magnetic Banner Hangers. Included in each clear polybagged kit are round mounting plates, toggle screw anchors, stud screws and an easy to follow instruction sheet. Works with both hollow walls/ceilings or wood studs to create a strong hold. Pre-drilling of holes is required. Simply select a magnetic banner hanger and determine the number of magnets to then select which kit is required – it's that easy. **Patented.**

- Hole drill size is 7/32" for wood studs and 1/2" for hollow walls/ceilings (drill bits sold separately – see below)
- Use one plate at 11 inches on center for each banner hanger magnet (not for use with our #220517 Heavy Duty Hanger)
- Screws have a flush, low profile Phillips countersunk head
- Plates are .033" thick x 4" O.D. – zinc plated steel
- Toggle screw anchors are 10-24 (3/16") x 3" overall length – zinc plated steel
- Stud screws are #14 x 1-3/4" overall length – zinc plated steel
- Available in zinc plate (silver) or painted white
- Other colors available – please inquire

## Ladderless Drill Bits

Economical, general purpose jobbers' drill bits. High speed steel combined with maximum reach, drilling depth and rigidity make these bits ideal for use with our line of Ladderless Toggle Screw Mounting Plate Anchors and Stud Screws (sold separately). Not recommended for use in hard/solid materials such as brick, block or concrete.

- Include these drill bits in hardware kits
- Rigid, full straight shank
- 118 degree point angle
- High speed steel with black oxide finish

ITEM #	DRILL BIT SIZE	OVERALL LENGTH
220175	7/32" dia.	3-3/4"
220176	1/2" dia.	6"
