HD SOURCE TIP OF THE WEEK

When folding your Easyrig **Vario 5** for storage, always make sure to tuck the upper part of the support arm inside the hip belt and fasten the buckle at the back of the hip belt. This will prevent the suspension line from wearing. If your Easyrig **Vario 5** will be inactive for more than a couple of months, make sure to store it standing up. This will keep the shock absorber gasket from drying out.
