packgenie™

Please Note: Any bands of colour running around the container may not join correctly at the seam due to movement when the container is formed. Please allow for 2mm movement up and down.

Cup Dimensions

These measurements provide additional details for your design consideration.

Please note template is actual size 100%.

Measurements are approx.

Artwork & text need to conform to the guide lines to create the correct visual effect when manufactured.

Allow at least 3mm of artwork (bleed) beyond the outer Blue line & the inner Red line.

Outer Blue line indicates the cutting form shape of the cup.

Red line defines visible limit area of the cup when manufactured.
