THE EPS FILES NEED TO BE NATIVE NOT EMBEDDED

Hey there! We just wanted to give you a heads up that when we print your artwork or logo onto a pre-manufactured product, it can be a bit tricky. We'll do our best to make sure everything looks great, but there may be some slight imperfections or colour variations. To get the best results, we recommend avoiding large areas of block colour. If you're not sure how your design will turn out, we suggest ordering samples as a guide. Just keep in mind that we can't offer refunds for personalised products with slight imperfections or colour variations, or for products that are the wrong size. Also, we can't guarantee that we'll be able to match exact specific colour Pantone's. If we feel like we can't guarantee a consistent level of quality, we may need to make changes to your artwork or cancel your order. Finally, there's a little bit of wiggle room when it comes to the quantity of our products. We have a tolerance of plus or minus 5%, so you might receive a little bit more or a little bit less than expected. Thanks for understanding!
