Watch the video
demo.

<https://vimeo.com/user12940431/review/63806470/41214a6fca>

+ Can be used in combination
with a booster seat.

+ Available in graphite and orange.

+ The seatbelt is guided comfortably
over the shoulder.

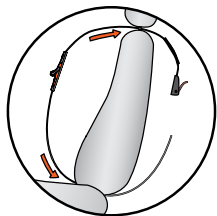

+ Protects the neck from cutting
seatbelts.

+ Adjustable in height

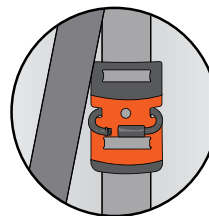

+ Seat belts keep their original
function. Once installed this
product can stay in place
permanently.

**EASY INSTALLATION
ON THE BACK SEAT**

Slide the strap between the seat and back cushion of the back seat. Place the clasp over the back rest of the back seat so that it also comes out in the boot. Pull the ends of the strap through the clasp. Pull the strap tight and make sure the clasp is properly closed. Slide the elastic sleeve over the clasp.

**EASY TO USE
FROM SEAT BELT TO
SAFETY BELT**

Open the carabiner, put the seat belt in the carabiner and close it again. Then simply move the seat belt to the required height with the adjustable pad. Children and adults on the back seat will be able to enjoy more comfort and safety thanks to the SAFETY BELT SOLUTION.
