

2015-2018 (S550) Mustang Springs

Spring	Part	Best suited for	Spring Rate (lb/in)		Drop (in)		Compatibility		Recommendations	Notes	
			Front	Rear	Front	Rear	Factory shocks & struts	Pro-Action shocks & struts			
	Sport (Linear)	GT/V6: 555-8208 EcoBoost: 555-8209	Street/Track Track the car several times a year. Good handling is more important than a plush ride. Great budget friendly alternative to the Competition (Dual Rate) springs.		200	800	1	1	✓	✓	Best paired with non-adj Pro-Action Upgraded swaybars recommended Not compatible with MagneRide
	Sport (Progressive)	GT/V6: 555-8210 EcoBoost: 555-8212	Street/Track A lower/more-aggressive stance without sacrificing ride comfort, and better handling. Tracking the car a couple times a year. Daily driven car. Perfect Street spring with nice track manners.		145 - 225	525 - 820	1.125	1	✓	✓	Best paired with non-adj Pro-Action Upgraded swaybars recommended Not compatible with MagneRide
	Ultralite (Linear)	GT/V6: 555-8211 EcoBoost: 555-8213	Street/Track Track the car several times a year. Good handling is more important than a plush ride. Still good on the street. Light weight design.		225	880	1.125	1	✓	✓	Best paired with adj Pro-Action Upgraded swaybars recommended Not compatible with MagneRide
	Ultralite Extreme (Linear)	GT/V6: 555-8214 EcoBoost: 555-8222	Street Slammed stance without running coilovers. Aggressive show car look.		225	880	2	2	✓	✓	Best paired with adj Pro-Action Upgraded swaybars recommended Not compatible with MagneRide Camber plates required
	Competition (Dual Rate)	All: 555-8246	AutoX/Track Track car often, almost monthly. Want an aggressive spring with an acceptable ride on the street. A great all around spring.		220 - 350	800 - 1200	0.75	0.75		✓	Best paired with adj Pro-Action Upgraded swaybars necessary Not compatible with MagneRide
	Drag Race	GT: 555 8231	Street/Track Drag racing is what I like to do as well as drive the car on the street.		150	800	1.25	0.50	✓	✓	Best paired with adj or non-adj Pro-Action No front swaybar recommended Drag rear swaybar recommended Not compatible with MagneRide
	Minimum Drop	All: 555-8223	Street/Track Slightly lower stance, but don't want to worry about hitting parking curbs. Daily driven car.		200	750	0.5	0.5	✓	✓	Best paired with non-adj Pro-Action Not compatible with MagneRide
	Adjustable Rear (Progressive)	All: 555-8171	Street/Track		N/A	850 - 1000	N/A	0.75 - 1.5	✓	✓	Best paired with adj Pro-Action Upgraded swaybars necessary Not compatible with MagneRide
	MagneRide Springs	All: 555-8242	Street/Track Slightly lower stance, great ride quality and improved aerodynamics.		170	715	1	1	✓		Fully compatible with MagneRide
