System Settings

Download & Install

PC User

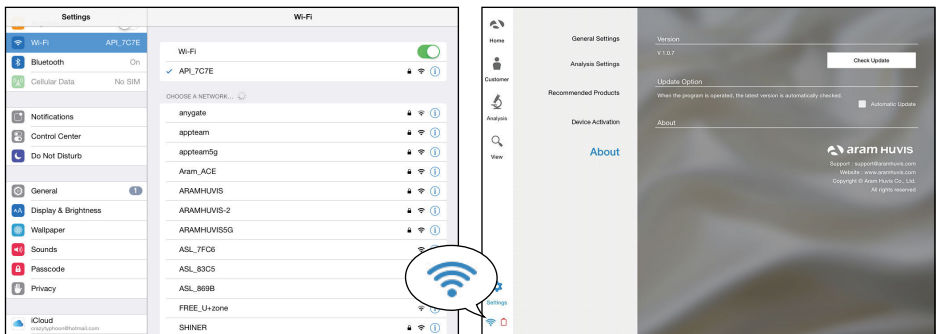

- 1 Go to link on the browser as below.
<http://www.aramhuvis.com/downloads>
- 2 Install the program.

Tablet device or Smartphone user

- 1 iOS : Go to "App Store" and search "Solutionist" to download the program.
- 2 Android : Go to "Google Play Store" and download it.

How to connect with the program

- 1 First of all, check the Wi-Fi name and password which is described at back side of battery cover.
- 2 Wi-Fi name & password must be same and the format is "API_XXXX".
- 3 Turn on the device.
- 4 While turning on the device, prepare PC, Tablet, Smartphone to run the S/W.
- 5 Once "API" device is turned on, please go to network setting to set up the Wi-Fi connection.
- 6 Among Wi-Fi lists, find "API_XXXX" and select it.
- 7 When above code is connected, run the program "Solutionist".
- 8 To check working properly, please check the program and see the left below side.
- 9 If it is correctly set up, you can see the blue light of Wi-Fi signal.

System Settings

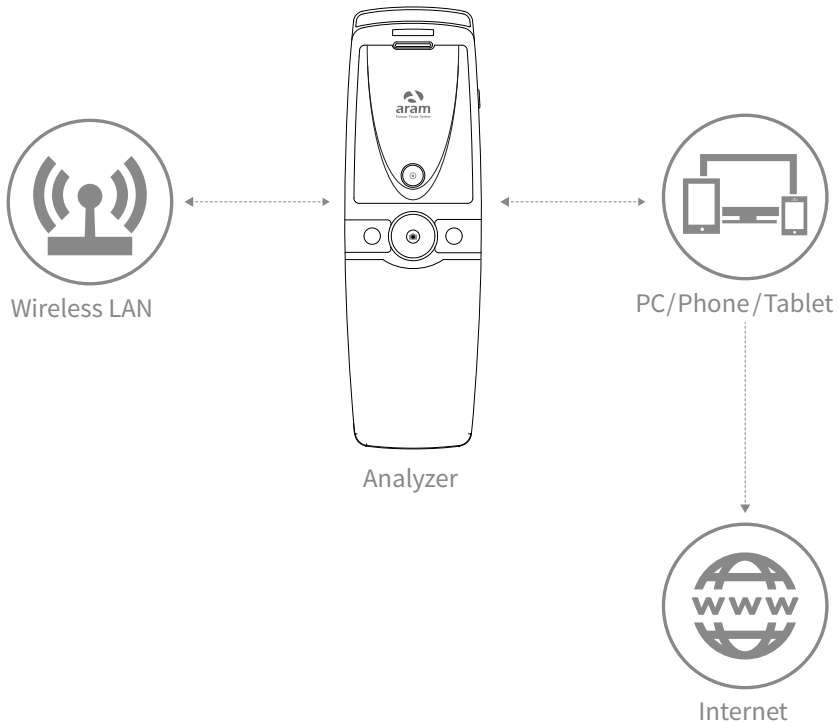

Wi-Fi Combo

Wi-Fi Combo

- It means user could use device and internet at the same time.
- With this function, user can send an email after analysis immediately.

How to use?

- 1 The device has AP(API_XXXX) to be connected with the program “Solutionist” by Wi-Fi.
- 2 First of all, connect the device to AP to use it with “Solutionist”.
- 3 Run “Solutionist”.

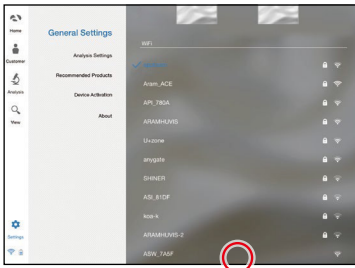

System Settings

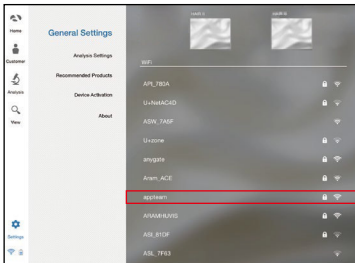

Wi-Fi Combo

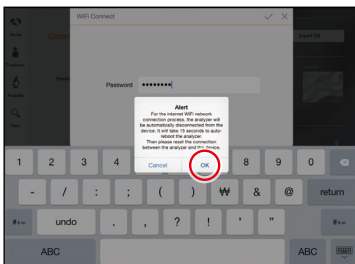

1 Touch Settings.

2 In "General Settings", go to "Wi-Fi" and touch "Scan" button.

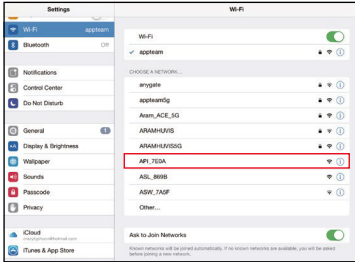

3 The available Wi-Fi lists appear. Among them, please choose the best signal Wi-Fi to connect it.

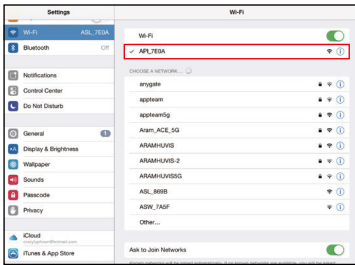

4 During connect it, you can see the message saying that API device will be automatically disconnected and reboot. Please touch "OK" button.

System Settings

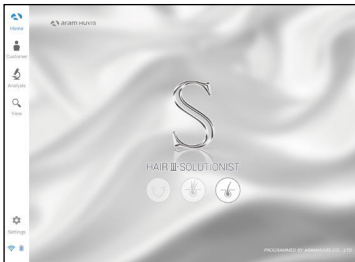

Wi-Fi Combo

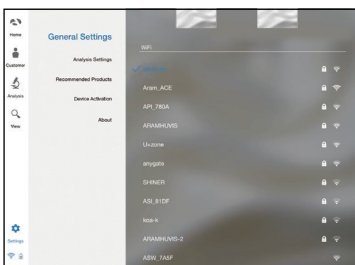

- 1 When Wi-Fi is connected, please go to “Settings” page to set up the Wi-Fi connection. You can see now the Wi-Fi is connected. Please turn it off and connect with device AP code. (API_XXXX).

- 2 The analyzer is connected with AP code.

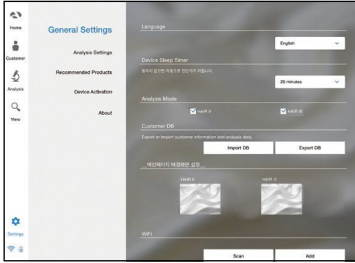

- 3 Then, run “Solutionist” program.

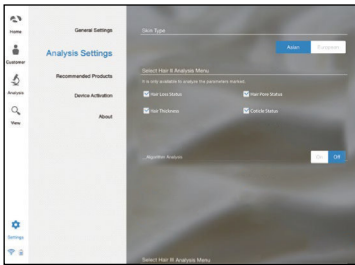

- 4 Then go to the settings again. The selected AP will be checked as left. The Wi-Fi combo is done.

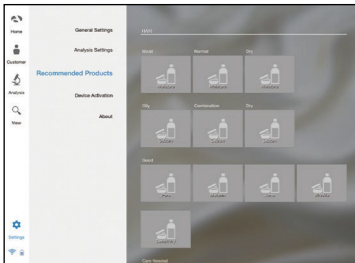

Program Settings

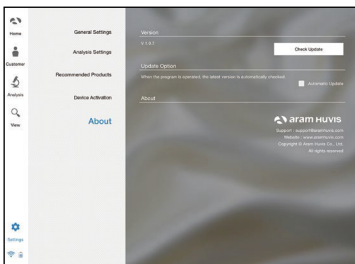

- 1 **General Settings**
Change the language, analysis mode and etc.

- 2 **Analysis Settings**
Set up the HAIR type and analysis parameter.

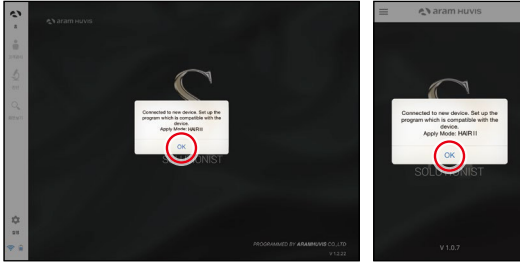

- 3 **Recommended Products**
Available for each analysis result.

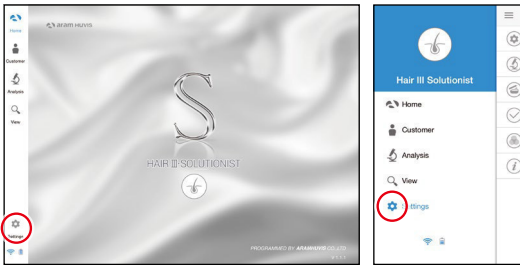

- 4 **About**
Check the current version and update is available in Wi-Fi connection.

Program Settings

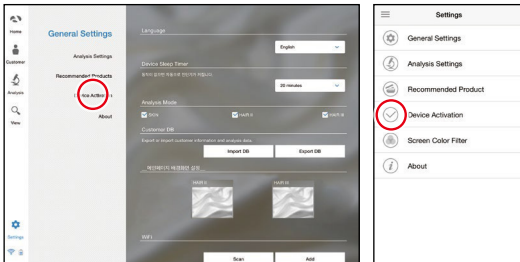

Device Certification

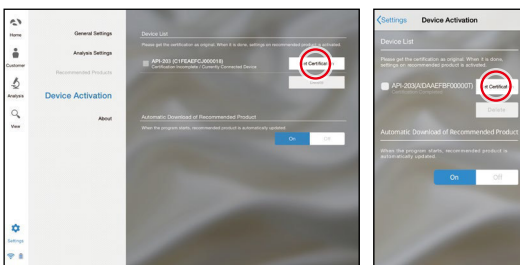

- 1 Solutionist program includes three programs. But when you start “Solutionist” program with API-203 device you can see the pop message saying that the program is compatible with only “HAIR ” device. Touch “OK” button.

- 2 Then you will see now only “HAIR ” program is activated. On main menu, touch “Settings”.

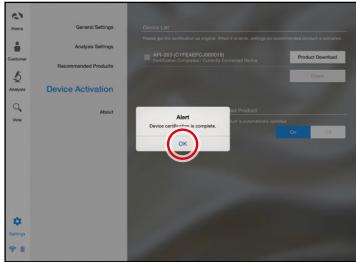

- 3 Among the menu, please select “Device Activation”.

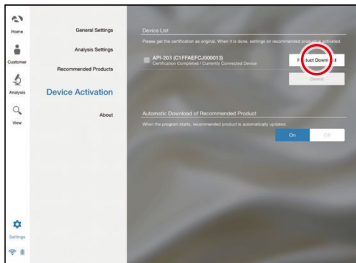

- 4 There is a device model name with serial code. Please touch “Get Certification” to register the device in program.

Program Settings

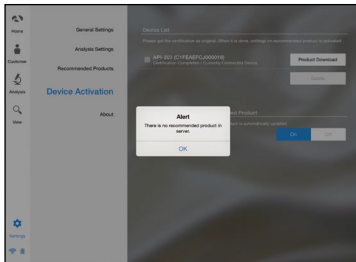

Device Certification

- 5 Device certification is complete. Please touch “OK” button.

- 6 When it is done, you could touch “Product Download” button to load in server.

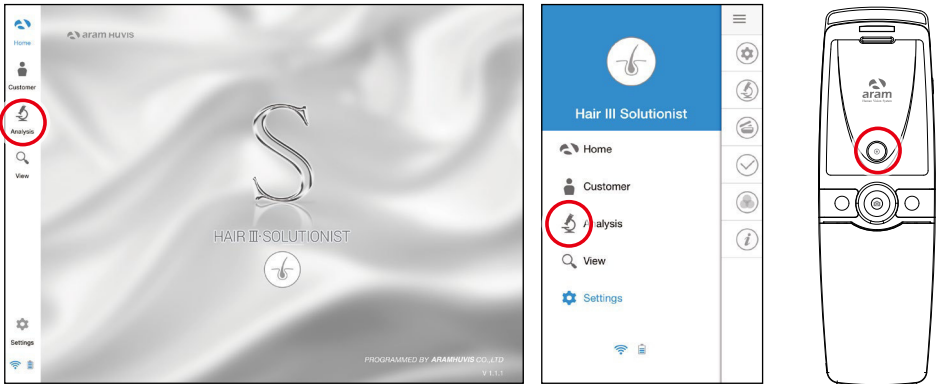

- 7 If you have the recommended product data in server, the product will be downloaded by clicking “Product download”. If you do not have the recommended product data, you can see the message as left image.

Application
