WOOLENS

A BOOK OF KNITTED ACCESSORIES

by Jared Flood

From Jared Flood, a printed book of knitted accessories to treasure or gift

Brooklyn Tweed founder and creative director Jared Flood offers his first printed book, a beautiful collection of accessories to knit by hand. The 138-page volume includes eleven timeless and thoughtfully constructed cowls, scarves, wraps, and hats for both women and men that introduce a variety of techniques.

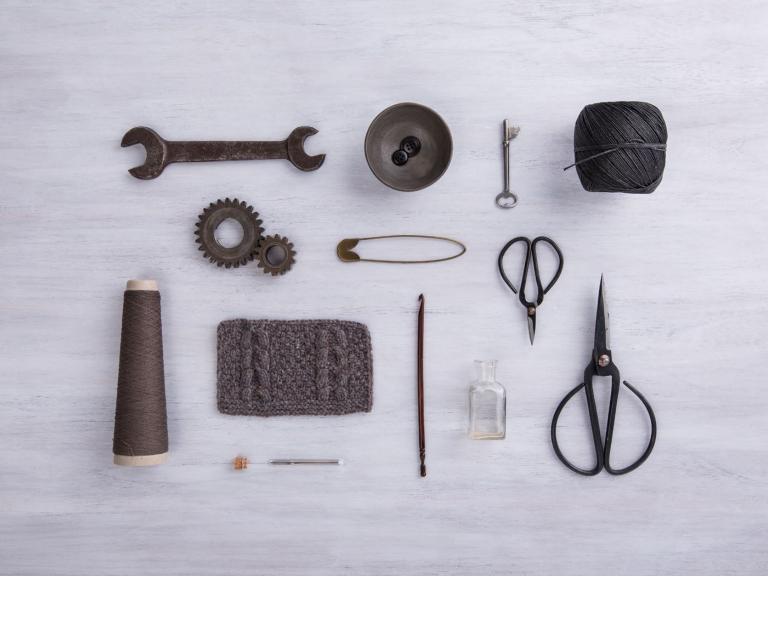

Woolens includes patterns that are approachable for beginning knitters and invite exploration of various design options, prompting choices that personalize the garment.

Lavish photographs capture the details of each accessory and reveal glimpses of Flood's creative process and inspiration from the natural beauty of Japan.

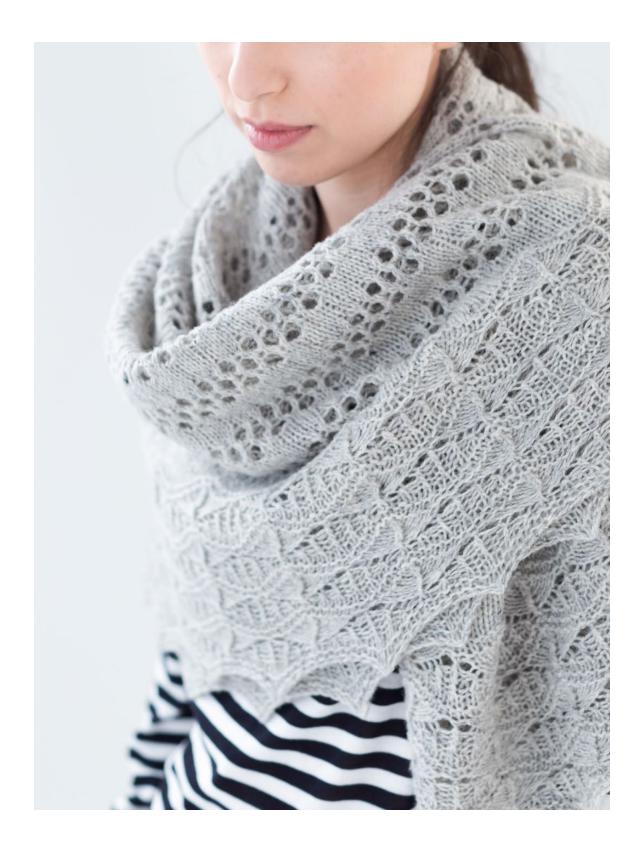

A thorough techniques section supports the patterns and aids knitters in bringing their skills to the next level, making Woolens a valuable reference resource for any craft library.

Perfect as inspiration for one's own knitting or as a present for a knitter, Woolens is now available for purchase through our webstore (including a print + ebook combo) and in print from Brooklyn Tweed stockists around the world.

BOOK + E-BOOK >

Woolens includes 11 new knitted accessory patterns from designer Jared Flood. Several patterns in the book offer multiple design pathways that allow the maker to customize the garment according to personal taste. A thorough techniques section shepherds readers through the patterns and serves as a valuable standalone reference resource. The printed book may be purchased alone or bundled with a digital e-book.

- 138 pages with full color photographs
- Book Dimensions: 8" x 10"
- Perfect-bound softcover with soft-touch coating
- FSC-certified publication
- Printed in the USA at a facility powered by 100% renewable energy
