### MICHELE WANG FOR BROOKLYN TWEED

A CAPSULE COLLECTION OF LOUNGEWEAR

Michele Wang has created some of Brooklyn Tweed's most iconic designs. Now she brings her love of cabled motifs and smart fashion to a focused exploration of one of her favorite genres: loungewear.

> In six sweaters, a cabled hat, and a magnificent robe, Michele brings glamour back to cozy living.

.

Beautifully photographed by Jared Flood, this 138-page bound volume is the first printed book of Michele's designs and the second in Brooklyn Tweed's CAPSULE series.

The tranquil images, taken in a gorgeous renovated apartment and on the streets of Portland, Oregon, invite you to relax and dream as you enjoy every thoughtful detail of the garments.

Plush cables, architectural silhouettes, and dramatic collars mark this collection of patterns accessible to intermediate through advanced knitters.

Michele has employed the full range of our woolen-spun yarns — Loft, Shelter, and Quarry — to showcase the variety of possible fabrics and forms.

Each project is presented in Brooklyn Tweed's thorough and educational format, with careful attention to the knitter's experience.
