

WOOL
PEOPLE
13

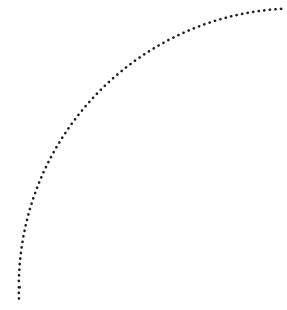

As we bring you our thirteenth Wool People collection, we're as energized as ever by the passion and creativity of handknitting designers. Each designer featured in this collection has brought their own ingenuity and aesthetic sensibility to create beautiful knits that embody Brooklyn Tweed's commitment to quality and timelessness.

Wool People 13 is inspired by the interplay of nature and structure: modern gardens, urban oases, and other constructed spaces where nature invites itself in and people seek daily refuge. Lace and cable motifs curve and twine amidst crisp lines and architectural silhouettes. Like wisteria flowers climbing up concrete, the pieces are playful and hardy, yet soft and just a bit untamed. Designed for daily wear, each piece in this collection unites modern intricacies with timeless comfort.

Collaborating with a vibrant community of makers is a privilege we cherish. We hope you find Wool People 13 as inspiring as we do.
