NAVY + OCHRE

To make a small space sing, let one bold color choice lead to another. In this powder room, we threw striking Matisse-blue hardware into sharp relief with high-contrast marigold walls. Talk about freshening up.

ON THE WALL

For full coverage in fewer coats, prep with a primer tinted a few shades lighter than your paint. We painted this room with Benjamin Moore Century in Limonite (benjaminmoore.com). Its matte finish is ideal for low-humidity areas. For a bathroom with a shower, use Sherwin-Williams paint in Bakelite Gold with an eggshell finish (sherwin-williams.com), which stands up well to humidity.
