## THE RUG COMPANY

Mark Making is a collection of four new designs that explore the relationship between art and decoration through abstract markings and the natural world.

### Dapple

Dapple Flint has modest wool markings orchestrated by color into distinct rug sections.

### Gesture

Illustrating an array of passionate yet disparate markings, this design features a neutral color palette, similar to prehistoric markings made with stone and charcoal and is made entirely in wool.

## CHRISTOPHER FARR

The Los Angeles-based design firm Commune's new collection of rugs traverses the beautiful colors and textures found throughout California. Inspired by the rhythmic indigo waves of the pacific, the rocky cliffs and old-growth forests of Big Sur, and the desert expanse of Joshua Tree.

### Bean and Arrow

Hand-knotted and handspun in wool and silk.
