## 100% Pure Cold Pressed Coconut Oil

Natures Miracle Oil - Enhancing health and well-being

### Radiant skin

Coconut oil helps increase skin elasticity and protect against free radical damage, particularly good for soothing dry, rough or damaged skin. Coconut oil's health properties are readily absorbed into the skin to boost and rejuvenate your whole body while creating an attractive radiant sheen. Excellent as a massage oil and helping to avoid stretch marks.

### For cooking delicious food

Coconut oil is a healthy saturated fat ideal for cooking. It doesn't easily go rancid and can tolerate high temperatures. It tastes and smells delicious in food while possessing a host of natural properties being primarily composed of cholesterol free, medium chain fatty acids (MCFAs).

750ml bulk bottle \$29.99    50ml travel size jar \$9.99  
250ml kitchen jar \$12.99    150ml massage bottle \$16.99

biospherically correct products

### Revitalised hair

Coconut oil is an excellent pre-conditioner treatment providing the essential proteins for revitalising damaged hair. Leave in the hair for 30-60 minutes or overnight for a very deep conditioning treatment. Then rise thoroughly in the shower with warm water before washing as normal.

### Multi-use refill/recycle system

Pure coconut oil is a solid less than 24.5 degrees so we have brought you a multi-use refill/recycle system to help integrate this incredible natural resource into your lifestyle. Available in an extra value 750ml bottle, please refill smaller jars from this. Simply immerse bottle in warm water and leave for 15 minutes until it becomes liquid, then refill 250ml kitchen jar and 50ml travel size.

## Diversity protection

We buy our coconut oil from a model farm in Labasa Fiji. This farm reconnects people with the land teaching people how to grow organically and sustainably, the farm also teaches arts and crafts as other ways to provide further skills and income for people. [www.christiantrainingcentre.org](http://www.christiantrainingcentre.org)

## Green ingredients

From coconuts wild harvested on the island, the model farm produces 100% pure cold pressed coconut oil. It's full of medium chain fatty acids, perhaps the healthiest oil you can obtain from Mother Nature.

## Positive functionality

Being primarily composed of MCFA, coconut oil is ideal for cooking and possesses a host of natural properties for skin and hair. We purposely enhance our labelling with the words love, forgiveness, compassion, tolerance and integrity, powerful messages to positively impact our daily lives.

## THE BIOSPHERICALLY CORRECT STORY OF OUR COCONUT OIL

*Rating:* 1 **2** 3

## Eco processes

We bring you this oil in the most advanced eco packaging; Incorporating a refill/recycle system to save people money and help the planet out in dealing with used containers. Our bulk 750ml bottle has originated from corn not fossil fuels. We use compostable wood cellulose and corn based labels. Minimal wrap tags made from recycled paper and printed with soy inks while the model farm in Labasa uses solar power, composting toilets, water catchment and organic farming methods.

## Trade integrity

Vision Products is a registered charitable trust, all net profits, to a minimum of 15%, goes to charity including;
