

STITCH COFFEE TABLE

The Stitch Coffee Table showcases the rich grain of gorgeous walnut slab. Each coffee table embraces walnut's naturally occurring checks, which are reinforced with X-shaped brass stitches. The inset stitches beautifully contrast the chocolate tones of the walnut, highlighting the natural beauty of the wood and the functionality of the stitches. The slab is elegantly braced by an X-frame in matte black for a minimal yet stunning appeal. Our slabs are locally milled, dried, and come from sustainably harvested trees. Grain, color and natural characteristics vary from slab to slab, making each Stitch Coffee Table a unique work of art.
