DETAILS

- Designed for growing offices and flexible spaces, our Frame Rise Desk is engineered with the reliability of our Workplace Collection.
- Adjust your table height from 24" to 49" to set your work surface at an ergonomic level whether sitting or standing.
- The Frame Rise Desk supports a range of sitting to standing desk positions, and is suitable for users up to 6'7".
- Its 1" thick wood veneer top is easy to clean and durable for commercial use.
- The steel leg base is powered by dual motor lifters with a low noise level of <50dB, and allows the table to quietly raise or lower at 1.5" per second.
- A minimal digital display pad allows you to quietly adjust the desk height.
- To power the desk, simply plug into a standard 15A outlet. When not in active motion, the desk is built with low standby power consumption.
- Supports up to 250 lbs.
