

u h u r u

Uhuru Design is the Brooklyn-based New American furniture design firm specializing in bespoke residential and high-end commercial furniture. Founded in 2004 by Rhode Island School of Design graduates Jason Horvath and Bill Hilgendorf, Uhuru gained attention for its sustainable approach, utilizing reclaimed and found materials through a narrative design process. This design approach generated collections currently in the Smithsonian and Brooklyn Museums, positioning Uhuru at the forefront of New American Design and popularizing the “Brooklyn” aesthetic. Uhuru scaled from bespoke residential to mass office furniture, evolving with the growing New York and West Coast startup scenes. Uhuru focuses on delivering accessible New American Design to mission-driven clients across residential, hospitality, fast casual, office, co-working, architecture, and interior design landscapes.

MINIM OFFICE
STATIONARY WORKSTATIONS

STATIONARY WORKSTATIONS

We believe that a commitment to craft, style, and authenticity is just as important in the workplace as it is in the home. Our MINIM workstations are built upon customizable elements, such as base styles, table dimensions, and curated finishes that combine to create numerous possibilities and to meet the demands of any team. Stationary workstations are the foundation of our fixed height desking and benching system, trusted by leading brands and interior designers.

POWER + DATA

MINIM OFFICE comes equipped with two removable panels on each intermediate leg to accommodate wires from power and data floor cores. Designed to direct and conceal wires into the workstations, the center channel is designated for data and the outer channels for power. Once fed through the leg, the wires can navigate through the troughs for easy installation.

If running electrical from a wall, our system is equipped with three holes at the bottom of each trough; the center for data and the outer two holes for power. Wires can then be fed under the leg and up through the trough cut-outs for easy installation.

MINIM RISE
SIT | STAND WORKSTATIONS

SIT | STAND WORKSTATIONS

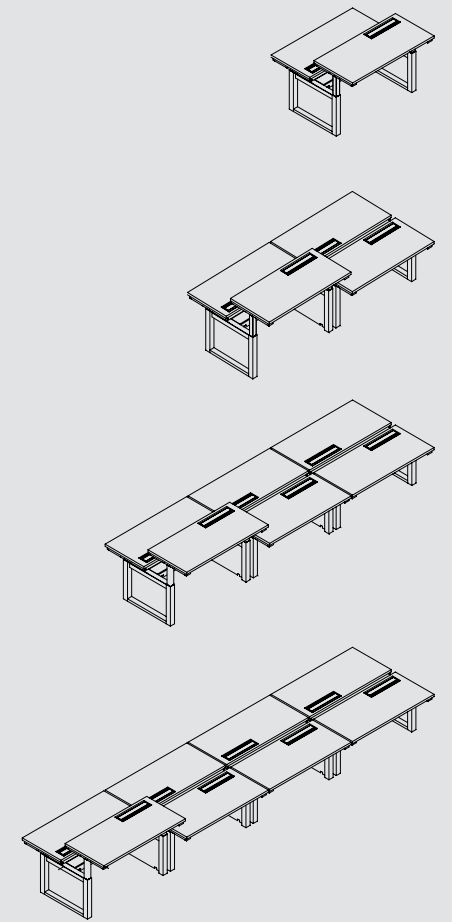

How do you design a sit stand workstation with timeless appeal? We tackled this concept with carefully considered proportions and authentic materials that define our collections. MINIM RISE, our sit stand system, incorporates an industry leading electronic lift system into its sturdy steel base, seamlessly concealed beneath a variety of work surface options. RISE's lasting design aesthetic and unique ability to integrate both fixed height and sit stand functionality into one system is what distinguishes it from the rest. RISE has the unique ability to switch out lifters so your team can decide to incorporate sit stand capabilities at a later time. The RISE system is available in 3 desk widths, configurable up to 12 desks per cluster, and customizable in standard wood and metal finishes.

TOTEM STORAGE

TOTEM STORAGE

Inspired by minimalist sculpture and modular forms, our Totem Rolling Pedestals are designed to tuck underneath workstations and sit on hidden wheels. Its built-in surface tray keeps supplies handy, while the top drawer is great for small personal items. The bottom drawer is compatible with letter and legal filing, and is spacious enough to stow backpacks or other personal items. The Totem Rolling Pedestal comes in a range of sizes that make the collection an ideal and sculptural choice for deskside storage.

MINIM STORAGE

MINIM STORAGE

MINIM storage has a multi-dimensional selection of options, curated for personal, team, and shared storage. Mix and match to organize a storage wall in a private office, combine units to create accessible storage in an open plan workspace, or showcase greenery desk-side with planter extensions. MINIM Storage is designed to incorporate seamlessly into our desk and benching systems or stand on its own.

CONTRACT SOLUTIONS

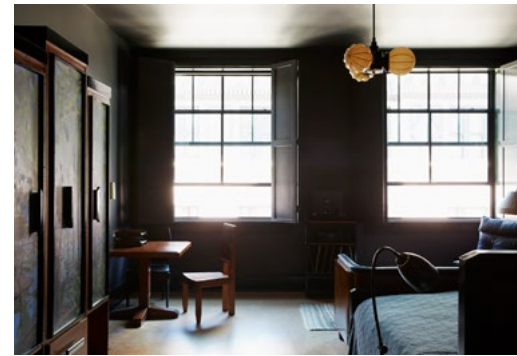

Every project we take on is unique—from the team, to the discovery process, to the design. This tailored approach to each project allows us to create exceptional, brand-specific furniture solutions for our clients. At Uhuru, we want your brand to stand out. Whether you're looking to adapt a standard design, find a manufacturing solution, or develop your furniture standards, we're here to help you realize those goals.

CONTRACT SOLUTIONS

MODIFIED STANDARD PRODUCT

Modify the color, profile, finish or upholstery of an Uhuru piece to make your own exclusive design. Additionally, our MINIM Workplace collection offers products with customizable elements, easily adaptable for any office configuration or interior aesthetic.

CUSTOM MANUFACTURING

We started out as makers, and have over fifteen years of experience manufacturing OEM designs and providing custom furniture solutions. With an expert team and supply chain, we have the right domestic and overseas resources to manufacture small to large volume projects.

BRAND STANDARDS

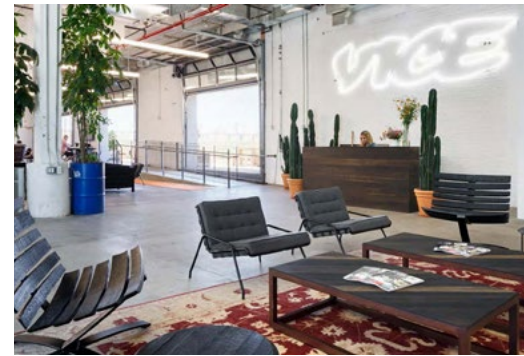

Informed by your larger vision, we create products, furniture, and fixtures that align with your company's mission. This collaboration is great for brands with several locations looking to achieve a cohesive interior and furniture design language.

CAFE

Over the past fifteen years, we have conceptualized, designed, and built exclusive lines of tables, chairs, and banquettes for cafes to fine dining restaurants including Shake Shack, Dos Toros, Sweetgreen, Lillia, among others. We start with a brand's design vision and build tailored packages of communal dining and seating options. We provide design engineering to ensure that our restaurant furniture stands up to high-traffic usage.
