

UHURU VIETNAM

Uhuru Vietnam is a wholly owned subsidiary of Uhuru Design and serves as its global supply chain hub, providing commercial product manufacturing and sourcing at scale.

UHURUDESIGN.COM

OVERVIEW

- Contracted capacity > Reserved capacity in Vietnam across a strong network of factories and suppliers, that Uhuru has developed over the last 6+ years.
- Contract-grade mass production > Uhuru has the ability and finesse to produce pieces that require mixed material, custom components, and various furniture types, all at commercial grade quality. Uhuru forecasts material + capacity to manage project-based, private label, and recurring volume contracts.
- Expert team > Provides fully integrated solutions for sourcing, design, drafting, project management, quality assurance & control, logistics, and back office support.
- OEM Direct > Uhuru has the relationships to develop and directly source OEM products at scale for brands, partners, and end users.
- Long term relationships > Uhuru has grown with their vendors after arriving in Vietnam over 6 years ago, well before the tariff flight. Uhuru's relationships are longstanding and material to the factories they partner with.
