

# U H U R U

## ONYX MAPLE

Uhuru's Onyx Maple finish celebrates our narrative design approach with the inspiration we draw from our surroundings and creative reuse of materials. We utilize our Pennsylvania facility's local supply of spalted maple slabs, each handpicked for its unique and expressive coloration and patterning. Every table is expertly crafted with a finely tuned oxidized finish adding depth and complexity that highlights the natural character of the spalted wood—creating a moment of discovery at every angle.

## NARRATIVE FINISH

- Staying true to our roots, we highlight a creative reuse of storied materials through salvaging and revamping spalted maple.
- The unique coloration of the wood known as spalting provides a distinctive look, but if left untreated the fungi that causes the patterning and coloration would continue to spread and further decay the wood. We celebrate this natural occurrence, expertly work the wood and give the material a second life.

## SUSTAINABILITY FOCUSED

- All slabs are responsibly and locally sourced, utilizing our trusted network of vendors and suppliers surrounding our Pennsylvania facility.
- Zero to low VOC finishes.
- Made in the USA

## UNIQUELY INDIVIDUAL

- Each slab is expertly crafted to highlight its unique nature.
- The finely tuned opacity of our black tint reveals significant wood grain character at an intimate scale, adding depth and complexity that shows off the natural character of the material.
- Each slab is subject to a wide range of contrast and coloration varying from deep blacks to warm chocolatey tones.
- Due to the unique individuality of each slab, every table is a one-of-a-kind, heirloom quality piece.
