

Toughened Mirror Splashbacks

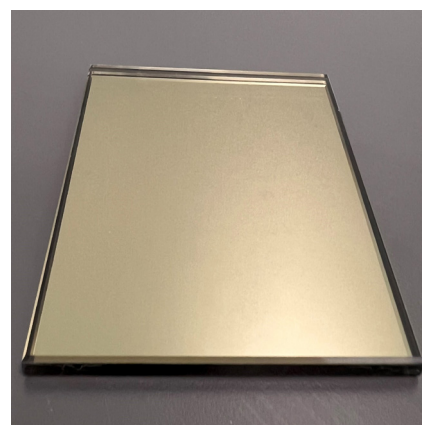

These beautiful Toughened Mirror finishes are suitable for use in a variety of commercial and domestic settings, and just like our other Mirror Finishes, they are the ideal way to capitalize on the light reflective qualities of mirror.

Toughened Silver

Toughened Grey

Toughened Bronze

Technical Specification

Royston Glass Toughened Mirror Splashbacks are available in dimensions up to 3000mm x 1250mm. We are able to produce splashbacks in excess of these dimensions but such orders may be subject to over-size additional charges and extended manufacturing lead times.

All our Toughened Mirror Splashbacks are manufactured in 6mm thick glass as standard.

Toughened Mirror splashbacks are toughened, and are therefore guaranteed as heat resistant.

- 6mm toughened glass, manufactured to British Standard BS 6206-EN12150

- Heat resistant

- Polished edges, for your safety, as standard

- Shaping and cut out facility

- Adhesive or drill hole fixing option

- 3 Toughened Mirror Finishes Available

- Hygienic and easy to clean

- 10-15 Working Day Leadtime

- Samples Available on Request (£6.00 incl. VAT, each)

Please note that the sample tiles reflect light in a different manner to a larger piece of glass, which may result in a different colour tone when compared to a larger splashback.
