

Necessary measurements for multiple openings

To get an accurate understanding of what size hardware and door you need, you will need to take 6 measurements.

	Measurement Needed	Value in Inches
A	Width of door opening	
B	Height of door opening	
C	Distance to closest wall or obstruction on left	
D	Distance to ceiling or closest overhead obstruction	
E	Distance to closest wall or obstruction on right	
F	Width of the door trim, <u>if there is any</u>	
G	Width of door opening	
H	Height of door opening	
I	Distance to closest wall or obstruction on left	
J	Distance to ceiling or closest overhead obstruction	
K	Width of the door trim, <u>if there is any</u>
