Measuring multiple openings for barn door hardware

To get an accurate understanding of what size hardware and door you need you will need to take these measurements.

	Measurement Needed	Value in Inches
A	Width of door opening	
B	Height of door opening	
C	Distance to closest wall or obstruction on left	
D	Distance to ceiling or closest overhead obstruction	
E	Distance between the two openings	
F	Width of the door trim <u>if there is any</u>	
G	Width of door opening	
H	Height of door opening	
I	Distance to ceiling or closest overhead obstruction	
J	Distance to closest wall or obstruction on right	
K	Width of the door trim <u>if there is any</u>
