

# The Ultimate Growler

## 2 Litres

### The ULTIMATE Growler – 2Litre

This growler is made from 304grade stainless steel that is completely impervious to oxygen or sunlight (UV) meaning your precious amber liquid is in the absolute best storage container possible.

### Vacuum Wall Insulated

Unlike other growlers this growler comes with double wall vacuum insulation to give you insulation like no other growler. Forget taking the esky, even on hot days this baby will stay cold for hours.

### Sprung Wire Lid for Best Pressure Holding Capacity

Most screw cap growlers struggle to hold the pressure required to keep beer fresh and carbonated. The ULTIMATE Growler comes with sprung wire lid capable of holding up to 40psi.
