## The Lucent Botanicals Difference

### TARGETED EFFECTS

We add select natural ingredients and organic terpenes to our CBD to create **proprietary blends** that are designed to help deliver a specific, targeted effect.

### MINTS, NOT OILS

Unlike most CBD oils and tinctures which taste foul, swampy, and are awkward to take through a dropper, Lucent Botanicals **mints taste fresh, subtly delicious**, and are as easy to take as popping a mint in your mouth.

### GREAT VALUE

Each box of mints contains a total of 400mg of CBD at \$29.99—that’s **13 mg per dollar**. Compare that to other leading CBD tinctures that offer 7 mg per dollar.

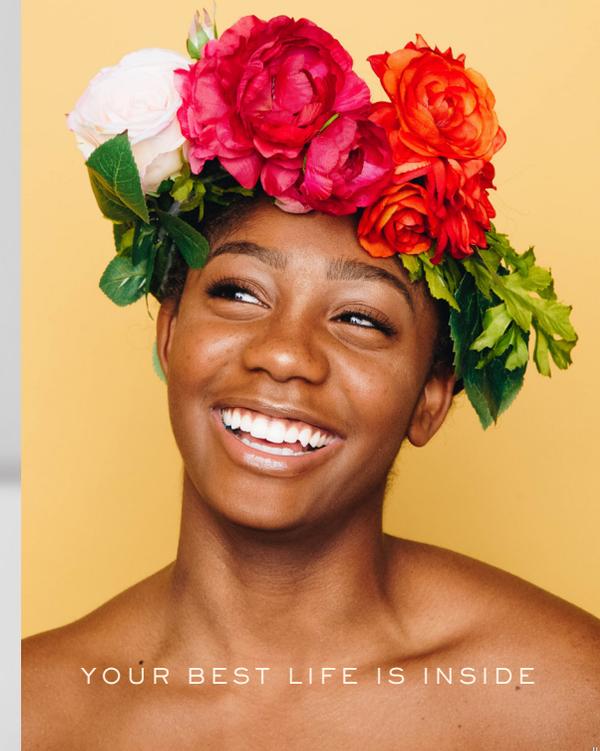

### FIND YOUR PERFECT DOSE

Your body is unique, and so is your CBD dose. Because each Lucent Botanicals mint contains **precisely 10 mg of CBD**, it’s easy to determine and regularly take exactly the right amount of CBD you need.
