# HealthyAir® Source Capture Fan-Filter Exhauster

## Single Station

#### Fan-Filter Module

- F7 Filter: High efficiency multi-pocket bag filter module designed to remove fine dust particles from the air including nail dust, bacteria, and mold spores
- Effective Filter Life: 1 yr (avg.)

#### **System Features**

- Meets International Mechanical Code (IMC) ventilation requirement
- Position Hood 6"-12" from source to capture contaminants
- Configure unit to vent outside via connection to 4" exhaust duct
- Self-supporting Extraction Hose (custom length available)
- Option of Rectangular or Circular Hood
- Optional LED light may be added to Hood to illuminate work area
- 3 Fan Speeds
- Optional portable setup with (4) heavy-duty caster wheels
- Remote control operation
- Low-maintenance, simple to replace Fan-Filter Module
