LET'S START

What's in the box?

A MIXX Wireless Keyboard

- 1 MIXX Wireless Keyboard
- 2 Keyboard Battery Slot
- 3 x2 AAA Batteries
- 4 x1 USB RF Receiver

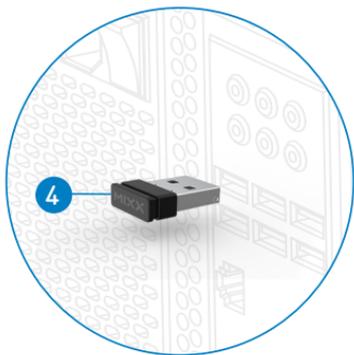

LET'S PLUG AND PLAY

Turn the Keyboard over and insert x2 AAA Batteries (supplied) into the battery slot.

Simply plug the USB RF Receiver **4** (supplied) into the USB A port of your computer, laptop or notebook. You don't need to install any software for the Keyboard to work.

Depending on your computer you may see a keyboard setup assistant with step by step instructions on how to allow your computer to detect the Keyboard.

You are now ready to start using your Keyboard.

LET'S USE THE KEYBOARD

Hints for your workspace comfort

Assess your work space to ensure that your keyboard is within easy reach and you are not over extending or excessively reaching so that it may cause discomfort to your body. If anything you are doing causes any discomfort then stop.

Have the keyboard straight in front of you

Place your keyboard in front of you when typing. Leave a gap of about 4 to 6 inches (100mm-150mm) at the front of the desk to rest your wrists between bouts of typing. Keep your arms bent in an L-shape and your elbows by your sides. Some people like to use a wrist rest to keep their wrists straight and at the same level as the keys.

Take regular breaks

Preferably, it is best not to sit in the same position for too long. Ensure you change your posture as often as is practicable. Frequent short breaks are better for your back than fewer long ones. It gives the muscles a chance to relax while others take the strain.

LET'S VIEW TECH SPECS

Connection: USB RF Receiver (supplied)

Compatibility: Compatible with most computers, laptops or notebooks with a USB A port.

LET'S BE SAFE

It's important that you read this section completely, especially the **'Warning and Safe Usage'** instructions.

For your protection

Ensure the product is correctly connected using the manufacturer's original accessories included with the product.

Please keep the product out of reach from children and animals.

NOTE:

If your product has become damaged in any way, does not operate normally or has been dropped, please refer to a qualified person to have the product checked before continuing to use it.

WARNING:

The operating temperature range for this product is 5° - 40° Celsius.

Please avoid exposing the product and the USB connector to prolonged rain, moisture, any splashing or liquid spills.

This may cause excessive heat or melting and may lead to fire damage or personal injury.

LET'S RECYCLE

This product can be recycled.

Products bearing this symbol  must NOT be thrown away with normal household waste.

Take the product to a collection point designated for recycling of electronic devices.

Find out more about return and collection point through your local authority.
